NEW RED-LEAVED JAPANESE BARBERRY

Red-Leaved Japanese Barberry

It is only once in a lifetime that a really worth while, outstanding novelty in hardy shrubs is introduced, and in this new Barberry we have such a plant.

It is similar in all respects to the green-leaved Japanese Barberry which is so popular for mixing in the shrubbery border, as single specimens, or for planting in clumps on the lawn, as well as for foundation plantings and for hedges, but the foliage of this new variety is of a rich, lustrous, bronzy red, similar to the richest red-leaved Japanese Maples. However, unlike these and other colored shrubs in which the coloring fades or disappears entirely as the season advances, this new Barberry becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid scarlet, and red shades, more brilliant and more effective than in the ordinary Japanese Barberry. In this coloring it is unequaled by any other shrub and is followed by the same brilliant scarlet berries common to the type, which remain on the plant the entire winter.

Price: 2 year, 9 to 12 inch plants, 32c each; 10 for \$3.00; 25 for \$6.50. 1 year pot plants, 16c each; 3 for 45c; 10 for \$4.40. WE PAY POSTAGE.

PURPLE PLUM

PURPLE LEAVED FLOWERING PLUM—A distinct and handsome little tree, rarely over 20 feet high. Foliage maroon-red that deepens in color as the season advances. Covered with a mass of small white flowers in spring. Very handsome from early spring to late fall. A beautiful ornament to the lawn; fine for color massing or as a single specimen. 4 to 5 feet, by express, not prepaid, \$1.00; 1½ to 2 feet, 70c each. Prepaid.

RED BUD

Cercis Canadensis

CERCIS CANADENSIS — A handsome ornamental tree growing twenty or thirty feet high. It has broad irregular head and perfect, heart-shaped glossy leaves. Beautifully attractive in early spring when the leafless branches and twigs are covered with rosy, pink blossoms. Very beautiful and attractive planted as single specimens or in groups. 2 to 3 ft., 80c each; 2 for \$1.30. Prepaid.

DWARF GLOBE-SHAPED SNOWBALL

VIBURNUM OPULUS NANA

Without doubt this is one of the nicest little shrubs that grows. Keeps its rounded symmetrical shape growing about 3 feet high. White flowers which appear in May and June are followed by very beautiful showy clusters of scarlet berries which remain and keep their bright color all winter. Has greyish branches and broad, bright green leaves which turn to beautiful scarlet in the fall.

Because of its globular shape, it makes a wonderful plant for planting in front of taller shrubs or for a low dwarf hedge as well as for specimen planting. Price: 6-12 inches, 75c each; 3 for \$2.00. Prepaid.

Dwarf Globe Snowball

The Plant

The Flower

HARDY CACTUS

OPUNTIA RAFINESQUII—Will stand 20 degrees below zero. Can be grown indoors or outdoors. Fine for rockeries, border for evergreens, banks, perennial beds, etc. It is evergreen, producing from June till September, large semi-double red and yellow flowers 4 inches across. An ornamental interesting plant for outdoor culture, easily grown. We have a limited supply of these for customers only, so order soon. 50c each; 3 for \$1.25. Prepaid.

ROSE TREE OF CHINA

Rose Tree of China—Prunus Triloba

The **ROSE TREE OF CHINA** (*Prunus Triloba*) is the most beautiful and showy of all small trees. It begins to bloom before the leaves appear in the spring, being literally covered with very double rose-like pink flowers. As an ornament from early spring until late fall it has few equals. This symmetrically formed, graceful little tree grows usually to a height of but 8 feet, and is attractive as a specimen or when planted in groups or shrub border. It is hardy and easily grown, and no lawn is so small that room cannot be found for at least one of these wonderful trees. Many who have seen it declare it to be the most beautiful tree they have ever seen. The rose-like blossoms make fine cut flowers. Choice trees for \$1.00 each; 3 for \$2.50. By parcel post, prepaid.

KOLKWTZIA AMABILIS OR BEAUTY BUSH

A New Shrub from China

Following is a description of this new shrub, taken from a bulletin of the Arnold Arboretum Harvard University, of June 14, 1927, in which they say:

It is a twiggy shrub, growing from 6 to 8 feet tall, the whole plant forming a dome-shaped mass. The flowers are produced along the whole length of the branches in clusters at the ends of short, leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow-brown on the lower throat and lip.

The graceful habit of the plant, its free-flowing qualities, pleasing color, combined with perfect hardiness, make this one of the most beautiful, as well as most useful shrubs that China has given to the gardens of this country. Related to the Weigelas or Diervillas, it is far more beautiful than any of them, and is destined to become one of the most familiar plants in our gardens. New low price: Heavy 2-year-old plants, 90c each; 3 for \$2.50. Prepaid.

82 YEARS OF NURSERY WORK

WHY
PAY
HIGHER
PRICES

FOR eighty-two years we have been growing and selling Nursery Stock. By keeping abreast of the times by constantly trying new and improved methods of growing, digging, handling, and packing our goods so as to give our customers the best value for their money, they have turned to us each year in ever-increasing numbers. Today we feel that no one in the nursery business is in position to offer you better stock, better service, or better value for your money.

If your order is for one plant, or a car load, the stock is all taken under roof out of the wind and sun, so as to reach you in good growing condition.

In our buildings each winter we graft many hundreds of thousands of fruit trees, shrubs and evergreens. They also house our seed rooms where we send flower and vegetable seeds to customers all over the United States and foreign countries. Everything possible is done to protect the customer, and when better nursery stock can be grown, we intend to be among the first to grow it. No matter whether your wants are large or small, we solicit your business, and we will do everything possible to satisfy each customer.

ROCK PLANTS

CHINA PINK

It is very compact in growth and makes a cushion of glaucous leaves from which in May, spring the sweet smelling, rose colored flowers. It varies as much as from four inches to ten inches in height. It is easily grown and very fine for the rock garden. 2 year old, 27c each; 3 for 70c. Prepaid.

CAMPANULA

(Harebell)—A pretty species growing in compact tufts, not exceeding 8 inches high; flowers clear blue, held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for a hardy border or for the rockery it is unsurpassed. 2 year old, 25c each; 3 for 70c. Prepaid.

CANDYTUFT

(Hardy)—Hardy form of old-fashioned Candytuft, growing 8 to 10 inches in height with dense heads of bright flowers early in the spring. Full sun or part shade. 2 year old, 17c each; 3 for 50c. Prepaid.

GYPSOPHILA

BABY'S BREATH—Very branching or spreading slender shrubs, of very easy culture, and very desirable where a mass of delicate misty white bloom will fill a bare place. 2 year old, 20c each; 3 for 55c. Prepaid.

MYOSOTIS

(Forget-me-not)—Will live through the winter with protection given to Pansies. Does best in damp location. Blossoms all summer. 10 inches. Shade or semi-shade. May to frost. 2 year old, 17c each; 3 for 50c. Prepaid.

HARDY PANSY

VIOLA CORNUTA—A new plant of rare merit perfectly hardy, starting to bloom just as soon as the snow leaves in the spring and continuing until cold weather in the late fall. A wide range of color, the same as the annual variety. A truly remarkable plant and we know they will please you. Seems to do well anywhere they are planted. 2 year old, 22c each; 3 for 60c. Prepaid.

ASTILBE GLORIA

A beautiful new variety of Astilbe recently imported from Holland. It is a relative of the Astilbe you get from your florist at Easter time, but it is more beautiful than any variety forced in a greenhouse. Individual plants bear from twenty to fifty spikes of beautiful, large, rose-pink, feathery flowers on stems 18 inches long, in June and July. They are of very easy culture and like a moist location in any ordinary garden soil. A greatly admired flower that puts the desired touch to your garden. Price, 65c each; 3 for \$1.60. Prepaid.

SEA LAVENDER

STATICE LATIFOLIA—A valuable plant either for the border of rockery, with tufts of leathery leaves and immense candelabra-like heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months. 2 year old, 20c each; 3 for 55c. Prepaid.

SEDUM (Stonecrop)

The dwarf varieties are charming plants for sunny positions in the rockery, etc., and the taller kinds make effective color groups in the border. They thrive in almost any soil. They are especially fond of sand and full sun, and may be considered the backbone of the American rock garden.

DWARF VARIETIES

ACRE (Golden Moss)—Much used for covering graves; foliage green; flowers bright yellow.

ALBUM—Dwarf and spreading; thick, waxy, round foliage, white flowers; good rock plant.

KAMISCHATICUM—Orange-yellow flowers, with prostrate green foliage, turning golden in autumn.

SIEBOLDI—Round, succulent, glaucous foliage; bright pink flowers in August and September.

SPURIUM COCCINEUM—A beautiful rosy crimson flowered form; July and August. 6 in.

Price of Sedums, 2 year old, 25c each; 3 for 60c. Prepaid.

WATER HYACINTHS

LILAC ROSE FLOWERS—It forms a lovely rosette of its curious shining green leaves, and throws up spikes of the most exquisite flowers imaginable, resembling in form a spike of Hyacinth bloom, as beautiful as Orchids. In color a beautiful lilac-rose. In the windows the most beautiful effect is produced by using a glass vessel of some sort, with shells and white sand so arranged as to conceal a small amount of soil. In summer it can be grown outdoors in pools or tub of soil. 26c each; 3 for 75c. Prepaid.

CALLIRHOE

(Poppy Mallow) Involucrata—Trailing plant, with finely divided foliage and large, saucer-shaped flowers of bright rosy crimson, with white centers, which are produced all summer and fall. 2 year old, 25c each; 3 for 70c. Prepaid.

CREeping PHLOX

SUBULATA—Moss or Mountain Pink and an early spring flowering type with evergreen foliage. Valuable for covering ground or graves. Price, 28c each; 3 for 65c. Prepaid.

PERIWINKLE

HARDY MYRTLE—For covering bare ground under trees where grass will not grow, or trailing rock work. It is indispensable in spring it is covered with blue flowers. Perfectly hardy in all localities. It makes a handsome plant. 14c each; 6 for 80c; ner 100, \$10.00. Prepaid.

GHOST PLANT

(ARTEMESIA)

SILVER KING—A strikingly effective white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The opening leaf buds gleam like tiny beads, the entire color effect bright frosted silver. The plants are matured and very showy early in Summer. 3 feet high. Long sprays may be cut to mix with Winter houquets. 30c each; 3 for 80c. Prepaid.

LILY OF THE VALLEY

Very small and sweet and dainty, the creamy white scalloped bells pendant along slender stems. They make up (with their broad shiny leaves) into dainty bouquets of fragrance. They spread actively from the roots and soon reclaim shaded cold ground which otherwise would be cheerless and barren. 14c each; 3 for 50c. Prepaid.

WATER LILIES

WHITE—Flowers medium in size ranging from 3 to 5 inches in diameter. Petals white with yellow stamens. \$2.00 each. Prepaid.

PINK—Bright pink. Fine flowers. Unusually showy, first class. \$2.50 each. Prepaid.

RED—Wonderful red flowers. Free blooming. Pride of all. \$5.00 each. Prepaid.

SPRING HILL NURSERIES, TIPPECANOE CITY, OHIO.

NEW & RARE PLANTS

FLOWERING CRABS—*Malus*

The Chinese Flowering Crabs are not as well known as the Flowering Cherries, but a lot of them are decidedly the most gorgeous and brilliant subjects for our gardens. The flowers are produced before the foliage, coming in multitudes and almost obliterating the branches. The effect is of a tree clothed in transparent silk gauze, shimmering and changing in color value with the elevation of the sun. The effect is beautiful in single trees or clumps, but is wonderful in hedges. They grow in any soil, and these wonderful trees are deserving of a spot on every homeground.

ELEYII—This is a purple-leaved, vigorous-growing Crab of recent introduction from England. The flowers are single, of a deep pink or red color. This is a distinctly valuable Flowering Crab and has purplish red foliage, as well as the attractive red fruits. 3 to 4 ft., \$1.50 each; 3 for \$4.00. Prepaid.

ALDENHAMENSIS—The Aldenhamensis is a new Flowering Crab, originating as a chance hybrid on the place of Hon. Vicary Gibbs at Aldenham, England. This is considered the finest of all the red-flowered Crab Apples flowering after most of the other Crabs have finished. Double red. 2 to 3 feet, \$1.50 each; 3 for \$4.00. Prepaid.

ATROSANGUINEA—Beautiful rose-pink flowers during the blooming season. Tree grows into a spreading form that is attractive. 3 to 4 ft., \$1.00; 3 for \$2.50. Prepaid.

FLORIBUNDA—Bright pink flowers upon opening turning to pure white. Small yellow fruit in the autumn. 3 to 4 feet, \$1.50 each, 3 for \$4.00. Prepaid.

NIEDSWETZKYANA—Red and purple branches, leaves, stems, bark, buds and fruit. Vigorous and healthy plant. 3 to 4 ft., \$1.50 each, 3 for \$4.00. Prepaid.

PARKMANI—A broad spreading form with very bright rose-colored flowers of a semi-double form. 3 to 4 ft., \$1.00 each, 3 for \$2.50. Prepaid.

SCHEIDECKERI—Upright habit of growth with abundance of small pink flowers, very fragrant and double. Leaves dark green and lustrous. A strikingly beautiful tree when in bloom. 3 to 4 ft., \$1.50 each, 3 for \$4.00. Prepaid.

SPECTABILIS ROSEA fl. pl.—Pyramidal in form with large pink, semi-double flowers in early spring. 3 to 4 feet, \$1.50 each, 3 for \$4.00. Prepaid.

SARGENTI—Clusters of saucer-shaped flowers of pure white; low, broad and densely branched; fine for banks. 2 to 3 feet, \$1.50, 3 for \$4.00. Prepaid.

SEIBOLDI—Clusters of white flowers unfolding with the leaves; fruit most beautiful of all crabs. 3 to 4 ft., \$1.50 each, 3 for \$4.00. Prepaid.

BECHTELS—Pale pink double flowering; sweet scented flowers; upright habit; can be used as specimen plants; very attractive in groups. 2 to 3 ft., \$1.00, 3 for \$2.50. Prepaid.

Parkmani Flowering Crab

PINK FLOWERING SNOWBALL

VIBURNUM CARLSII (Pink Flowering Snowball)—Another of the dwarf Snowballs growing to about 4 feet tall, silver green foliage, very compact and dense. Its beautiful light pink flowers are borne in clusters, covering the entire bush. They are very fragrant, with a heliotrope odor that is very pleasing. Price: 12 to 18 inch, \$1.00; 3 for \$2.50. Prepaid.

GOLDEN POPLAR

The original plant of this novelty was obtained over twenty years ago, with a shipment of plants from Holland, which were intended for experimental purposes and possible introduction.

The foliage closely resembles the well known silver poplar (*Populus Alba*) in shape. It is heavily covered with a fine white down or tomentum on the young branches and the underside of the leaf giving the plant a very striking appearance. The general color is a combination of yellow with green, gray green, white, and sometimes purplish undertones, each leaf shows different combinations of these colors and the whole plant growing between ordinary green leafed plants immediately attracts the eye by its bright and luminous appearance.

Prices: 2 to 3 feet plants, 85c each; 3 for \$2.50, 3 to 4 feet plants, \$1.10 each; 3 for \$3.00. Prepaid.

TREE STRAWBERRY

The Tree Strawberry or Strawberry-Raspberry as it is sometimes called, is one of the largest and most beautiful of all berries.

A new plant in habit and growth and form of fruit. It puts up numerous strong branching shoots about 2 feet high, wonderfully beautiful, both foliage and blossom.

Bears beautiful large ruby red fruit, the bright red berries showing a striking contrast to the large white blossoms. This bush with its glossy green leaves makes a very ornamental plant, besides giving you a crop of the finest berries for jelly and jam. The canes soon shoot up in the spring, blossoming and bearing in early summer. They endure cold climate getting larger and better every year, giving many extra plants. Order now, as the stock is limited.

Prices: 3 for 50c; 8 for \$1.00; 25 for \$2.50. Extra large plants, 30c each; 4 for \$1.00; 10 for \$2.00. Prepaid.

Bechtels Flowering Crab

Japanese Flowering Cherry

FLOWERING HAWTHORNES

Hawthorn

WHITE FLG. ENGLISH HAWTHORNE (*Crataegus Oxyacantha Alba*)—Pure white, very attractive double flowers. Beautiful in foliage and fruit in the Autumn. 2 to 3 ft., 50c; 3 for \$1.25. Prepaid.

FLOWERING PEACH

To those who have had the first view of a well developed tree of this kind in full bloom, it appears that nothing more beautiful could possibly be found. We are indebted to Persia for this tree, from which country it was introduced into the United States a number of years ago.

WHITE FLOWERING PEACH (*Persica Vulgaris Alba*)—The white is particularly charming, as it is the purest white seen in any flower. The rose-shaped flowers cover every branch and twig in great profusion. Price: 3 to 4 ft., \$2.00 each; 3 for \$5.00. Prepaid.

PINK FLOWERING PEACH (*Persica Vulgaris Rosea*)—This variety has habits exactly like the white flowering, only the flowers are of a deep rose color. Price: 3 to 4 ft., \$2.50 each; 3 for \$5.00. Prepaid.

JAPANESE FLOWERING CHERRY

Also called the Rose Flowering Cherry. The most notable trees of this group in the United States are at Washington D. C. This collection of trees was presented to our nation by the City of Tokio, Japan. They were planted along the Potomac River Drive, and now since they have come into bloom, are visited by everybody in Washington during the blooming season. The fame of these Cherries has spread all over the United States, and as they are hardy everywhere they should be largely planted.

WHITE FLOWERING CHERRY (*Cerasus Avium Alba*)—Beautiful small trees absolutely covered with flowers in the springtime. They are of very easy culture and will do well in any location where the soil is fertile and well drained. Flowers of this variety are pure white and are found in clusters on every twig. Price: 3 to 4 ft., \$2.00 each, 3 for \$5.00. Prepaid.

PINK FLOWERING CHERRY (*Cerasus Avium Rosea*)—These trees are covered with flowers of a deep rose color, in clusters all over the trees. Has the same habit otherwise as the White Flowering. Price: 3 to 4 ft. trees, \$2.00, 3 for \$5.00. Prepaid.

European Mountain Ash

AILANTHUS

(Tree of Heaven). An extremely rapid grower with palm-like leaves. Thrives in city lots exposed to gas and smoke, and in soils where most other trees perish. 6 to 8 feet, \$1.40 each; 8 to 10 feet, \$1.75 each. By express.

BIRD CHERRY

(Prunus Padus). A handsome flowering tree, bearing long clusters of white flowers in May, followed by bright red fruit, much beloved by birds. It is one of the earliest trees to leaf out in the spring. 6 to 8 feet, \$1.50 each; 8 to 10 feet, \$2.00 each. By express.

BIRCH—Betula

AMERICAN WHITE—A rather small tree with smooth white bark and handsome foliage. Very effective when planted in front of evergreens, to afford strong contrast. 6 to 8 feet, \$2.00; 8 to 10 feet, \$2.75. By express.

CANOE OR PAPER—A large, vigorous upright tree with broad, handsome leaves and brilliant white bark. 6 to 8 feet, \$2.25; 8 to 10 feet, \$3.00. By express.

CUT LEAF WEEPING BIRCH

See Weeping Trees, Page 6.

THE DOGWOODS—Cornus

CORNUS FLORIDA (White Flowering Dogwood). Flowers white, 3 to 3½ inches in diameter, produced in spring before leaves appear; very abundant, showy and durable. Foliage grayish green, glossy and handsome; in the autumn turns to deep red, making the tree one of the most beautiful at that season. Spreading irregular form, growing 20 to 25 feet high. 2 to 3 feet, 90c; 3 to 4 feet, \$1.35; 4 to 5 feet, \$2.50. By express.

CORNUS FLORIDA RUBRA (Red Flowering Dogwood). Slower growing and more formally shaped with handsome red flowers. An attractive lawn specimen or group subject. Balled and burlapped. 2 to 3 feet, \$3.00; 3 to 4 feet, \$4.00. By express.

OHIO BUCKEYE

WHITE FLOWERING. This well known species is very handsome; has magnificent spikes of white flowers borne in profusion and sweetly scented. It has been made the State Tree for Ohio. 4 to 5 feet, \$1.00; 5 to 6 feet, \$2.00; 6 to 8 feet, \$3.00. By express.

NOTE—All trees on this page are priced F. O. B. Nursery. If your order for trees amounts to \$15.00 or more we will pay transportation. On smaller amounts customer pays shipping charges.

ORNAMENTAL SHADE TREES

THRIFTY ROOTS—SHAPELY TOPS

A visit to the Ornamental section of our plantation is always a pleasure and education to those of our friends who live near enough to make the trip. We are always pleased to allow personal selection by our customers of particular trees.

The succeeding lists represent the most favored trees for lawn adornment, and the best types for street and grove.

We would be pleased to quote prices to anyone desiring different sizes or stock in larger quantities than offered herein. In sending lists state definitely the number of each variety and size wanted.

ASH—Fraxinus

AMERICAN WHITE (Americana)—A handsome, hardy, broad headed, quick growing shade tree, sometimes reaching 120 feet in height. Very valuable in landscape work, for park and street planting. 6 to 8 feet, \$1.25. By express.

EUROPEAN MOUNTAIN (Sorbus Aucuparia)—An ornamental deciduous tree with beautiful foliage which turns orange red in fall; fruits showy, often remaining all winter. 6-8 feet, \$2.00. By express.

ELM—Ulmus

A NEW VARIETY OF ELM

MOLINE ELM—The outstanding characteristic of this tree is a decidedly conical or pyramidal growth, with heavy branches twice the caliper of the common Elm and leaves twice the size of the ordinary, of a deep shining green color and deeply veined. The bark is smooth, greenish gray in the young growth, and extremely clean and healthy looking. Milwaukee has over 1,000 of these Elms on its beautiful boulevards. You cannot go wrong to order a good supply from our extremely fine stock. Price: 6-8 ft., \$1.80 each; 3 for \$4.00. By express.

CHINESE ELM

(Ulmus Pumila)—A native of China. A noble, rapid-growing tree. Forming a very dense head, with smaller, darker leaves than the American Elm. Leaves stay on the tree much longer in the autumn. In some localities this Elm grows better than our native. Price, 4 to 5 ft., each \$1.00; 3 for \$2.75. 5 to 7 ft., \$1.25 each; 3 for \$3.50. By express.

AMERICAN (Americana)—Very valuable for park planting for avenues, and as a shade tree for lawns. One of the most majestic and graceful of our shade trees. Hardy, a rapid grower, resists drought well, and is long lived. 6 to 8 feet, \$1.00 each; 8 to 10 feet, \$1.50 each; 10 to 12 feet, \$2.00 each. By express.

ORNAMENTAL TREES

MAPLE—ACER

Red Oak

THE OAKS—*Quercus*

PIN—Almost pyramidal in habit, and described as half-weeping when old, because its lower branches touch the ground. It grows faster and develops the family characteristics earlier than most Oaks. It grows 60 to 80 feet. The leaves are deep green, glossy, and finely divided. Orange-scarlet in fall. 6 to 8 feet, \$4.00; 8 to 10 feet, \$5.50. By express.

RED OAK—A large tree, 80 to 100 feet tall, unusually large in leaf and quick in growth. The young shoots and leaf-stems are red, the foliage purplish crimson in Autumn. A most beautiful object on the lawn. Price, 6 to 8 feet, \$4.00; 8 to 10 feet, \$5.50. By express.

RUSSIAN OLIVE (*Elaeagnus Angustifolia*)—Useful in tall, dense groups for sharp color contrasts. Tree attains a height of from 20 to 30 feet, bark dark green, foliage rich silver color, willow shape; flowers deep golden and very fragrant, followed by ornamental olive fruits. 3 to 4 feet, 70c, 10 for \$6.00. 4 to 6 feet, \$1.00, 10 for \$9.00. By express.

WITCH HAZEL—Valuable because its fringe-like yellow flowers open in November—when there are few other blossoms outdoor anywhere. Grows 10 to 15 feet tall, with fine leaves that color to yellow, orange or purple in fall and drop before the bright yellow flowers appear. Likes a moist sandy or peaty soil and partial shade. 2 to 3 feet, 75c; 3 to 4 feet, \$1.00. By express.

TULIP TREE LIRIODENDRON

YELLOW WOOD (*Tulipifera*)—Tall, handsome, hardy, ornamental, pyramidal habit, rapid growth. Has clean foliage, light bluish green, rarely attacked by insects, fragrant yellow and orange flowers in June. 6 to 8 feet, \$1.50 each. By express.

EUROPEAN SYCAMORE

The well-known Oriental Plane (*Platanus Orientalis*). Used in great numbers to create vistas of dense green shade, along new streets which require quick development of shade and ornamentation. A lofty, wide-spreading tree with deeply lobed palmate leaves; valuable for its handsome foliage, hardiness, and free growth. The bark is an attractive grayish green during the summer; but enough of it sheds during the winter to give an interesting mottled appearance as the smooth, creamy white trunk is revealed. 6 to 8 feet, \$1.50 each; \$13.50 per 10; 8 to 10 feet, \$2.00 each; \$18.50 per 10; 10 to 12 feet, \$2.75 each; \$25.00 per 10. By express.

European Sycamore

Silver Maple

BOX ELDER (*Negundo*)—Large, spreading tree of rapid growth; very hardy, and a good drought resister. Largely planted for windbreaks and timber. Leaves resemble those of the Ash. 6 to 8 feet, 90c each. By express.

NORWAY (*Platanoides*)—Large, handsome tree with a compact rounded head of spreading branches, attaining a height of 75 feet. The broad, deep green leaves cast a dense, refreshing shade. One of the best and most beautiful trees for the street, the park, cemetery or lawn planting. 6 to 8 ft., \$2.00; 8 to 10 ft., \$3.00. By express.

SILVER (*Saccharinum*)—This is one of the best known of all Maples. It is an ornamental tree with wide, slender spreading branches. Thrives almost anywhere, but grows very rapidly in moist, rich soil. 6 to 8 feet, \$1.00 each; 8 to 10 feet, \$1.75 each. By express.

SUGAR OR ROCK (*Saccharum*)—Large trees to 120 feet with gray bark. Long lived. Grows well except in damp, soggy soils. An excellent street and shade tree of upright, dense growth, turning bright yellow and scarlet in autumn. 6 to 8 feet, \$1.50 each; 8 to 10 feet, \$2.00 each. By express.

SCHWEDLERII (*Purple-leaved Norway Maple*)—One of the most beautiful of the shade trees. In early spring the young leaves are bright red, changing to purplish green as they grow older. In autumn they are golden yellow. The tree has a round, compact head and large leaves which cast a dense shade. 6 to 8 feet, \$2.00 each. By express.

Schwedlerii Maple

Norway Maple

POPLAR—*Populus*

BOLLEANA POPLAR—Silver Leaf—Grows to an 80 foot bulky spire, leaves glossy green, flashing silver beneath. 6 to 8 feet, 90c each; 8 to 10 feet, \$1.25 each. By express.

LOMBARDY (*Nigra*, var. *Italica*)—One of the characteristic trees of Italy. With age, the Lombardy Poplar becomes one of the most striking and picturesque trees, particularly when some of the sprouts are allowed to grow about the old stock. Excellent for landmarks. 6 to 8 feet, 90c; 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.25. By express.

GOLDEN POPLAR (*Alba Richardii*)—The original plant of this novelty was obtained over twenty years ago, with a shipment of plants from Holland, which were intended for experimental purposes and possible introduction. This Poplar proved itself very handsome, particularly if grown as a spreading shrub. The foliage resembles the well known Silver Poplar (*Populus Alba*) in shape. It is heavily covered with a fine white down or tomentum on the young branches and the under side of the leaf, giving the plant a very striking appearance. The general color is a combination of yellow with green, gray green, white, and sometimes purplish undertones, each leaf shows different combinations of these colors and the whole plant growing between ordinary green leaved plants immediately attracts the eye by its bright and luminous appearance. Our stock is still limited, and it will be necessary to place your orders early if you wish to secure this highly desirable novelty. Grows 6 to 8 ft. high. Price: 4 to 5 ft., \$1.50 each; 2 for \$2.50. By express.

Lombardy Poplar

Pin Oak

All trees on this page are priced F. O. B. Nursery. If your order for trees amounts to \$15.00 or more, we will pay transportation. On smaller amounts customer pays shipping charges.

NUT TREES

Almost every farm contains land that should be planted to nut trees adapted to the soil. Nuts in many cases pay better than farm crops or fruits, while most kinds are making a growth of valuable timber that will of itself pay a large per cent on the investment.

FILBERTS

AMERICAN—The common Hazelnut. Will grow in almost any location, but prefers a rather moist soil, such as can be found along streams. Nuts are tender and of fine flavor.

ENGLISH—Grows 6 to 8 feet high, entirely hardy, and one of the most profitable and satisfactory nuts to grow, succeeding on almost all soils, bearing early and abundantly; nuts nearly round, rich and of excellent flavor. 2 to 3 feet, 80c; 2 for \$1.50. 3 to 4 feet, \$1.00; 2 for \$1.90. By express.

PECAN

Pecan growing is becoming a favorite industry in the Southern and Western States and is quite profitable. The trees are long lived, quite hardy and productive. A species of hickory which may well rank first among our native nuts. They are large, thin shelled, full kernels and of rich flavor. We offer grafted varieties only. 2 to 3 feet, 75c; 3 for \$2.00. By express.

ENGLISH WALNUT

A fine ornamental tree that grows well in the climate of the Middle States and bears freely. Large profits are realized from the orchards of California and the South and still large quantities of these nuts are imported. The nut is about the size of a black walnut; it has a thin shell and contains a large kernel which has a very delicate flavor. 4 to 5 feet, \$2.00 each. By express.

Pecan

WHITE WALNUT OR BUTTERNUT

This tree is chiefly esteemed for its abundant crops of fruit, which abounds in oil, and is sweet and rich. The form of the nut is oblong, oval, and narrowed to a point at the extremity. The husk is covered with a sticky gum, and the surface of the nut is much rougher than any other of the walnuts. The tree is considered valuable as a park tree. 2 to 3 feet, 50c. By express.

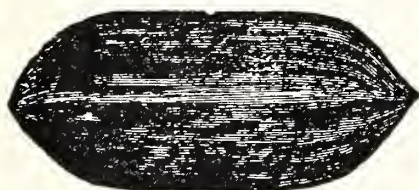

English Walnut

BLACK WALNUT

This is one of the largest, grandest, and most massive of our forest trees. It is a favorite of the landscape gardener. A very good tree for public planting on account of its rapid growth and handsome foliage. The timber of this tree is very valuable. The nuts are large, round, covered with a thick husk, and the kernel has a fine flavor, much liked by many people. 2 to 3 feet, 50c each. By express.

JAPAN WALNUT

Large, spreading top of this tree makes it very ornamental. Trees very hardy, having stood a temperature of twenty degrees below zero without injury, begins to bear when three years old. The nuts are larger than the common hickory nut and borne in clusters of from ten to twenty. The shells are moderately thick, the kernels are sweet. Should be extensively planted. 2 to 3 feet, 75c each. By express.

Pecan

Catalpa Bungei

Babylonian Weeping Willow

WEeping TREES

The weeping trees are very interesting as well as beautiful and effective when rightly placed upon the lawn, or in the park. The charm of these trees is not their stateliness and grandeur so much as it is the odd and fantastic shapes which they so often assume. The best and most satisfactory are offered below.

WEIR'S CUT LEAF WEeping MAPLE

This variety of the maple has very pendulous branches and the leaves are deeply cleft, giving them almost a fern-like appearance. 6 to 8 feet, \$2.00. By express.

WEeping MULBERRY

(Alba, var. Tartarica Pendula)—We recommend this as one of the thriftiest, hardiest and most beautiful of the weeping trees, with slender, willowy branches that sweep the ground, forming a beautiful tent of green. Good 5 to 7 ft. trees, \$3.50 each; 2 for \$6.50. By express.

CATALPA BUNGEI

UMBRELLA TREE—Just the tree to be used for formal effects. Propagated on a stem of the Catalpa Speciosa. It makes a very unique ornamental tree. Has a broad, dome-shaped head at the top of a long, straight stem. When the tree attains its full growth, the top is often 15 feet in diameter and not over 3 to 4 feet tall on top of a strong stem from 5 to 7 feet in height. An exceptionally hardy variety. 5 to 7 feet, \$2.00 each; 2 for \$3.75. By express.

WEeping WILLOW

GOLDEN WEeping (Elegantissima)—A strong and the most vigorous grower of all the weeping willows. Used for planting in low places or on the banks of streams, springs, lakes or ponds, making a very beautiful effect. 5 to 7 ft., \$1.00 each. By express.

WISCONSIN WEeping (Dolorosa)—A weeping tree of rarely more than 40 feet in height. The branches are long, slender and pendulous. Trees are quite hardy and will stand planting in the northern states. 6 to 8 feet, \$1.00 each. By express.

BABYLONIAN—A beautiful weeping tree with long drooping branches, sometimes 30 ft. long. Sways gently with the wind and is most desirable. Price, 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.60 each. By express.

WEeping CUT LEAF BIRCH

Birches not only form an interesting class of trees, but they are also beautiful and ornamental. They are especially desirable for park and other ornamental planting. The bark usually separates into thin, papery leaves. The foliage is rarely attacked by insects. Their graceful habit, slender and often pendulous branches, and their picturesque white trunks, make them conspicuous marks on any landscape. Price: 6 to 8 feet, \$3.00 each. By express.

Weeping Cut Leaf Birch

NOTE

All trees on this page are priced F. O. B. Nursery. If your order for trees amounts to \$15.00 or more, we will pay transportation. On smaller amounts, customer pays shipping charges.

SPRING HILL NURSERIES, TIPPECANOE CITY, OHIO.

BEST EVERGREENS GROWN

Plant Evergreens for all year round beauty. Use them for foundation plantings, windbreaks, or in the open as specimen ornamental trees.

Our Evergreens are properly grown, dug with a ball of earth and burlapped, and as they have been several times transplanted, they have a perfect root system, thereby assuring success to the planter.

ARBOR VITAE—*Thuya*

AMERICAN (*Occidentalis*)—The foliage is of a light green color. This is a very good tree for grouping, for tubs and vases, and for formal uses they are unsurpassed. They are very quick growers and may be trimmed to any desired height. Fine for hedges. 18 to 24 inches, \$1.00 each; 2 to 3 feet, \$2.00 each. By express.

CHINESE (*Biota Orientalis*)—A pyramidal tree finally attaining a height of 25 feet. Very compact form. Foliage is bright green. 18 to 24 inches, \$1.50; 2 to 3 feet, \$2.00. By express.

PYRAMIDAL (Var. *Pyramidalis*)—Forms a tall, slender column of densely branched, dark green foliage. Very graceful tree, having a number of uses. 2 to 3 feet, \$2.50; 3 to 4 feet, \$4.00. By express.

GLOBE (Var. *Globosa*)—A dense dark green form of the arbor vitae, growing naturally in globe form. Of dwarf habit. 12 to 15 in., \$1.50. By express.

TOM THUMB—A low growing arbor vitae good for edging evergreen plantings. Foliage similar to *Retinospora*. Very fine. Price: 12 to 15 inch, \$1.00 each. By express.

GOLDEN CHINESE ARBOR VITAE

BIOTA NANA AUREA—This new Evergreen is commonly known as the Golden Chinese Arbor Vitae. It is a beautiful, compact, little Evergreen of a dwarf nature. It has a clear yellow color in the springtime which gradually gives way to a yellowish-green during the winter months. Its size, color, compact habit of growth and foliage makes it especially desirable for Cemetery planting. Price: 12 to 18 inch plants, \$3.00 each. By express.

BOXWOOD

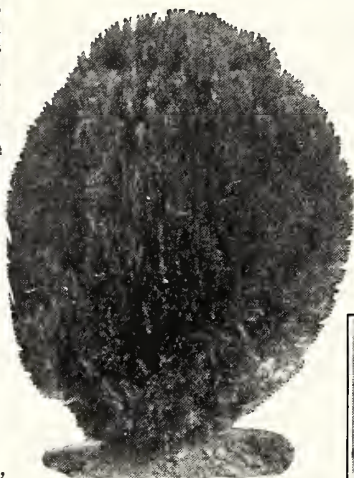

The most popular Evergreen for planting in tubs or boxes. These beautiful Evergreens, with their tiny leaves and compact habit of growth, are well adapted to formal planting and we are offering them at a low price for the first time in years. Our stock is American grown, bushy, of pyramidal form, and are matched to make pairs on all orders of two plants. Prices: 12 to 15 inches, \$1.50 each, \$2.75 pair; 15 to 18 inches, \$2.00 each, \$3.75 pair; 18 to 21 inches, \$2.50 each, \$4.75 pair; 21 to 24 inches, \$3.00 each, \$5.75 pair. By express.

SPECIAL NOTICE

Do not confuse the evergreens offered on Pages 8 and 9 with the special offers of evergreens on the cover pages. These are large developed, balled and burlapped trees for immediate results and are not prepaid. They are priced low to sell and are not costly if shipped by freight. Each plant will be dug with a ball of earth and can be safely shipped by freight.

Pyramid Arbor Vitae

Golden Chinese Arbor Vitae

JUNIPER—*Juniperus*

CANADENSIS—A very hardy, dense, grayish-green type of especial value in rockeries and for ground covering. The main branches are usually numerous, and procumbent; well furnished with upright branchlets. Seldom over 4 feet high. 18 to 24-inch spread, \$2.75. By express.

CHINESE (*J. Chinensis*)—One of the most ornamental Junipers for the lawn or garden. Pyramidal or columnar outline, foliage of a pleasing grayish green color when fresh, maturing to real dark green. Adaptable to extremes of temperature and association with varying sorts. 2 to 2½ feet, \$4.00; 2½ to 3 feet, \$5.00. By express.

HORIZONTALIS—A handsome, serviceable ground covering type of closely radiating habit, the foliage more thread-like and distended than in *Tamariscifolia*, yet denser and more prostrate than *Waukegan*; the color a fresh gray green. Sizes mean spread: 1½ to 2 feet, \$3.25. By express.

IRISH—Erect, slender and formal in habit; foliage sage green, very compact; making a splendid column eventually 15 to 20 feet high; much used in cemeteries. 2½ to 3 feet, \$3.75. By express.

PFITZERIANA—One of the most striking of all evergreens. The branches progress spirally along the trunk at a 45 degree angle, thereby making a good "filler," or standing alone, it acquires the symmetry of a broken column. The branches are long and whip-like, densely furnished, very dark green; the first new growth thickly studding the expanse like silver beads. 1½ to 2 feet, \$3.75; 2 to 2½ feet, \$4.75. By express.

DEPRESSA PLUMOSA—The most beautiful of all low growing Evergreens. Grows 2 to 3 ft. in spread and 18 inches high. Dark green foliage and very fine. 12-18 inch, \$2.50 each. By express.

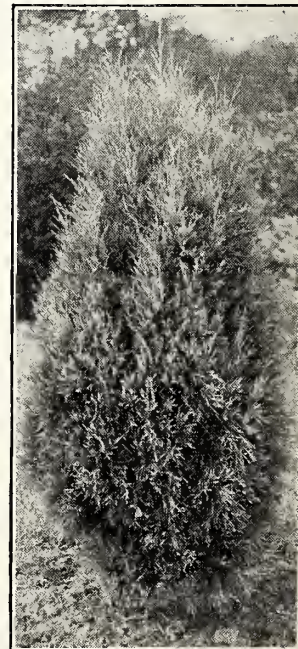

SWEDISH (*J. Suecica*)—Tall growing, of formal, columnar habit. The foliage is dense, fairly broad, with drooping tips; in color glaucous green somewhat lighter and bluer than the Irish Juniper. 2½ to 3 feet, \$3.00. By express.

SAVIN—Handsome moss green foliage; adapted to use as a filler in Evergreen groups, or as a dwarf ground cover. 18 to 24 inches, \$3.50. By express.

VIRGINIANA (Red Cedar)—A well known American tree, with fine, dense foliage, varying in habit and color, the majority being formal and bluntly conical. Makes a fine tree for planting on each side of an entrance or in back of low growing varieties. 3-4 ft., \$4.00 each. By express.

Irish Juniper

Juniper Virginiana

EVERGREENS—CONTINUED

JUNIPERS—Continued

VIRGINIANA CANNARTI—A newly derived type resembling Schotti in leaf and character, midway in color between the pronounced yellowish green of that variety, and the darkness of Virginiana. 2 to 3 feet, \$5.50. By express.

VIRGINIANA GLAUCA (Blue Va. Cedar)—Unlike so many varieties it is not at all formal but, without losing general compactness, its irregularity of spread is uniquely attractive, the broadly conical form and beautiful glaucous blue foliage making it one of the choicest of all Junipers. 2 to 3 feet, \$4.50; 3 to 4 feet, \$5.50. By express.

SPRUCE—*Picea*

COLORADO BLUE (Pungens)—A handsome and very hardy tree of symmetrical habit, with light, sometimes almost silvery white foliage. Good in landscape work. 18 to 24 in., \$9.00. By express.

NORWAY (Excelsa)—This tree is extensively planted in many of the states. Is one of the best conifers to plant for shelter and windbreaks. 12-18 inch, 95c; 18 to 24 inches, \$1.25; 2 to 3 ft., \$2.00. By express.

ORIENTAL (Orientalis)—An exceedingly graceful spruce with dark, glossy foliage. It is of slow growth, therefore valuable for small gardens. It holds its lower limbs for many years. 3-4 ft., \$4.00 each. By express.

WHITE (Alba)—A very ornamental tree similar to the Norway Spruce. One of the best for cold climates. Is an upright, compact grower, and retains its branches to the ground. It can be distinguished by its grayish blue color and quick growth. It matures while comparatively young and lives to a good old age and is altogether very desirable. 12 to 18 inches, \$1.50. 18 to 24 inches, \$2.00. 2 to 3 feet, \$2.50. By express.

DOUGLAS SPRUCE—*Pseudotsuga*

FALSE TSUGA (Taxifolia)—This is the tallest and one of the important forest trees of western North America. It would be difficult to overrate its beauty. It probably grows faster than any other conifer. Very desirable for grouping. 2 to 3 feet, \$4.00. By express.

HEMLOCK SPRUCE—*Tsuga*

HEMLOCK SPRUCE (Canadensis)—This is one of the most graceful and handsome of the evergreens and is especially valuable for hedgings of evergreens, windbreaks and for specimen planting. The lumber of this tree is much used for frames of buildings. 2 to 3 ft., \$4.00. By express.

SPECIAL NOTICE!

Do not confuse the evergreens offered on Pages 8 and 9 with the special offers of Evergreens on the cover pages. These are large developed, balled and burlapped trees for immediate results, and are not prepaid. They are priced low to sell and are not costly if shipped by freight. Each plant will be dug with a ball of earth and can be safely shipped by freight.

Hemlock Spruce

Norway Spruce

Mugho Pine

ABELIA GRANDIFLORA—An attractive dwarf shrub, suitable for a sunny, sheltered position anywhere the winters are not extreme; with small shiny foliage which is almost evergreen. The flowers are small, but very pretty and numerous, in loose terminal panicles; color, white flushed with pink. This shrub is rarely without some bloom from June into November. 2 to 3 feet, 75c each; 2 for \$1.40. By express.

MAHONIA AQUIFOLIA (Holly-leaved Ashberry). A beautiful evergreen shrub of slow growth to medium height, with smooth shining holly leaves; bright yellow flower clusters in May, and blue berries. The leaf color varies capriciously throughout the year, assuming all shades of green, with flecks of red and bronze. Of special value in shade locations. Balled and burlapped. 12 to 18 inches, \$1.40 each; 2 for \$2.60. By express.

RHODODENDRONS

The Rhododendron is, without doubt, the finest and most valuable of all the broad-leaved Evergreen shrubs. Its leathery leaves provide wonderfully rich backgrounds of dark green amid the floral distractions of summer, and inject a lively reminiscence of the season past, in winter landscapes. Although most effective and cared-for when planted in masses, smaller groups and units are invaluable for shaded nooks about the house or lawn. They will do best in a sun-and-wind sheltered situation, where the soil is deep, well drained and mulched with leaves or Granulated Peat Moss. In hot, dry weather soak the ground—say about once a week. A protection of leaves and brush during the winter will be beneficial.

Our Rhododendrons are nice, select plants, carefully packed with a ball of earth on the roots, and are guaranteed to reach you in good growing condition.

CATAWBIENSE—Very hardy, with attractive foliage of round shining green leaves, glaucous beneath, in terminal clusters. The flowers are borne abundantly in large trusses, in shades of lavender and purple, appearing early in June. Choice plants, 2 to 3 feet tall, by express, not prepaid, at \$4.50 each; 3 or more at \$4.00 each.

MAXIMUM—Foliage very large and smooth, its July flowers in shades of rosy blush and white. Very attractive for natural effects along shaded walks and drives, and best for massing. Choice plants, 2 to 3 feet tall, by express, not prepaid, at \$4.50 each; 3 or more at \$4.00 each.

Colorado Blue Spruce

PINES

SCOTCH PINE—This grows to be a large tree, seventy to one hundred and twenty feet in height, with spreading, somewhat pendulous branches pyramidal when young, with broad and round top, often picturesque head in old age. Quite hardy. 2 to 3 ft., \$2.50 each; 18 to 24 inch, \$1.75. By express.

NOTE—Scotch Pines cannot be shipped west of the Mississippi River.

MUGHO PINE (Dwarf Mountain Pine)—This Pine is very valuable in habit, with dark brown branches, bright green leaves, stout and acutish. The cones are ovate, a light gray in color, surrounded by a blackish ring. The tree is broader than it is high, forming a dark, dome-shaped bush. Very effective for rocky places. 12 to 15 inch spread, \$2.00. By express.

EVERGREEN SHRUBS

BEST HARDY SHRUBS

AT LOWEST POSSIBLE PRICES

A walk with nature in her undisturbed retreats will soon reveal to her student and lover that she has been most lavish with certain species of shrubs in the various localities. These varieties are frequently good to be used when beautifying the home surroundings, but aside from these, many other varieties are always needed to add variety and many times to aid in making up the succession of bloom. In many ways nature may be followed. It has been noted among other things that isolated specimens are seldom if ever to be found. Here we learn to plant in masses of groups for best results. Do not delay another season in planting at least some shrubs, for they add materially to the beauty and attractiveness of any home or public place. Shrubs provide material of a permanent character for the adornment of property at less cost and more effectively than anything else.

Flowering Almond

BARBERRY

BERBERIS

These beautiful shrubs are very valuable for planting in the shrubbery border or for hedges. They readily adapt themselves to almost any location.

JAPANESE (Thunbergii)—Of all the Barberries in cultivation this one is probably the best known, the most planted, and the most effective. It is one of the valuable introductions we have received from Japan and is especially to be desired because of its low, dense horizontal growth, the brilliant red berries that remain fresh and attractive until the following spring. It is quite hardy and will thrive equally well in shade or in sunny locations. Especially valuable for planting along walks and drives and for massing in the border. 12 to 18 inches for hedges \$15.00 per 100; 12 to 18 inches bushy plants 30c each; 3 for 65c; 18 to 24 inches, 40c each; 3 for \$1.00. Prepaid.

NOTE—For the New Red Leaved Barberry, see inside front cover.

Althea

BLUE SPIREA

(CARYOPTERIS)

MASTACANTHUS—Ornamental, woody plants growing their lavender-blue flowers profusely in late summer and autumn. Not altogether hardy, as the tops frequently winter kill almost to the ground, but will throw up numerous shoots that will flower the same season. Not strictly a Spirea. 55c each; 3 for \$1.50. Prepaid.

BUTTERFLY BUSH

BUDDLEIA

SUMMER LILAC (Varibilis Magnifica)—This shrub of comparative recent introduction has grown into favor almost immediately. It is a semi-herbaceous plant, by which we mean in some latitudes it will die down to the ground and while perfectly hardy, we recommend covering the roots with manure, leaves or other material as winter approaches, as it will help to produce a heavy growth the next season. It is very hardy; blooms the first season, usually from June until frost; the blossoms are borne on long, graceful stems, which terminate in tapering panicles of lilac-colored flowers that are of miniature size, the flower head is frequently ten inches long. 45c each; 2 for 80c. Prepaid.

Japanese Barberry

Aralia Spinosa

ARALIA SPINOSA

SPINOSA (Hercules Club, Angelica Tree, Devil's Walking Stick)—A shrub, sometimes growing to 15 feet in height. Stout, prickly stems, large leaves, enormous clusters of flowers, give this species a very sub-tropical appearance. 50c each; 3 for \$1.40. Prepaid.

ARALIA (Pentaphyllum)—Five leaved Aralia. Yellow, June. An unusually hardy shrub, thriving in very adverse soil and city conditions. Will grow under the shade of trees where all else fails. Flowers are inconspicuous but the foliage is very attractive. The canes are prickly and comparatively upright in their habit of growth. Prices 2 to 3 ft., 55c each; 2 for \$1.00. Prepaid.

FLOWERING ALMOND PRUNUS

DOUBLE FLOWERING ALMOND—Pink and white varieties. Hardy as far north as Ontario. Flowers very double and appear in early spring. 2 to 3 feet, 80c each; 2 for \$1.40. Prepaid.

PURPLE LEAVED PLUM (Cerasifera, var. Pissardi)—One of the best of all purple-leaved trees, holding much of its color in the American summers. It seems to be hardy wherever the common plum is grown. 4 to 5 ft., \$1.50 ea. Prepaid.

ALTHEA

ROSE OF SHARON

HIBISCUS SYRIACUS—One of the commonest of the ornamental shrubs, and hardy as far north as Ontario. The shrub is valuable for specimen planting, and its bright green leaves and great abundance of variously colored flowers make it very effective when planted as a hedge. The color ranges from blue-purple to violet-red, flesh color and white. There are also double forms. The plants we offer are strong, field grown, two and three year. Page 25 for prices on hedge size plants. Price 2 to 3 ft., 40c each, 3 for \$1.10. Prepaid.

JEANNE D'ARC—Double white.
RUBIS—Single red.
TOTUS ALBUS—Single white.
AMPLISSIMA—Purple. Shrub form.
BOULE DE FEU—Double red. Shrub form.
AMERICAN BANNER—Mauve.
MONSTROUS—Double red.
ARDENS—Light pink.
BICOLOR—White and red.
PAEONYFLORA—Rose color.

Butterfly Bush

ROSE ACACIA

HISPIDA—This shrub is valued for its elegant clusters of rose colored flowers, which expand toward the last of May and continue for some time. The branches resemble the Moss Rose. Beautiful for planting in masses. 18 to 24 inches, 55c each; 3 for \$1.50, prepaid.

Rose Acacia

HARDY SHRUBS—Continued

CREPE MYRTLE

Sweet Scented Shrub

SWEET SCENTED SHRUB

CALYCANTHUS—A unique shrub growing upright to 6 feet, clothing its straight strong, reddish brown shoots with large glossy leaves, from the axils of which spring odd, double, spicily fragrant flowers of chocolate-red. 1½ to 2 feet, 75 cts each; 2 for \$1.40. Prepaid.

DEUTZIA

An elegant species of strong, erect-growing shrubs. Especially prized for the beautiful clusters of blossoms in May.

PRIDE OF ROCHESTER—Showy, early, large-flowering sort; blossoms in May before others. Grows 6 to 8 feet high. White flowers, large and double. One of the best of the Deutzias, 2 to 3 feet. 60c each; 3 for \$1.50. Prepaid.

LEMOINEI—Spreading shrub to three feet in height. Its pure white flowers appear in broad panicles. A very desirable shrub, more vigorous and with more showy flowers than some of the other forms. Excellent for forcing. Very hardy. 18 to 24 in., 55c; 3 for \$1.50. Prepaid.

GRACILIS—A handsome, dwarf and bushy little shrub with slender, often arching branches. A neat shrub that blooms in May, clothing its branches in pure white flowers. Valuable for shrubberies or for forcing. 12 to 18 inches, 55c; 3 for \$1.50. Prepaid.

DOGWOOD

CORNUS

CORNELIA CHERRY (Mascula)—Ornamental shrub or small tree of dense growth, glossy leaves; attractive in early spring with its yellow flowers. 2 to 3 ft., \$1.00 each. Prepaid.

ELEGANTISSIMA—This is a beautiful plant. The leaves marked with white. 18 to 24 in., 55c; 2 to 3 ft., 75c each; 2 for \$1.40. Prepaid.

RED TWIGGED (Sanguinea)—Grows 10 to 12 feet high, purple or dark blood-red branches. Flowers greenish-white. Fruit is black. 18 to 24 inches, 35c; 2 to 3 feet, 45c each. Prepaid.

Hydrangea A. G.

Deutzia

WEeping (Suspensa)—Highly ornamental, free flowering shrub, growing to 5 feet; the branches often drooping on the ground and taking root. They grow in almost any garden soil and are hardy north. The golden yellow flowers appear in early spring. Excellent for margins or groups. 2 to 3 ft., 40c each; 3 to 4 ft., 50c each; 3 for \$1.40. Prepaid.

GOLDEN BELL—Forsythia

FORTUNEI (Var. Fortunei)—Grows with upright or arching branches. 2 to 3 ft., 35c each; 3 to 4 ft., 45c each; 3 for \$1.20. Prepaid.

Forsythia—Golden Bell

Tender Hydrangeas See House Plants

HYDRANGEA

The massiveness of bloom on these valuable shrubs and their long blooming season, assures them a place in every grouping where solid white effects are required.

ARBORESCENS GRANDIFLORA ("Hills of Snow")—The flowers are, in a large way, similar to the familiar "Snowball" in appearance; conspicuously white and imposing. July to September. By cutting back to the crown each spring, the bushes may be kept round and dense at a normal height of 3 to 5 feet. They are excellent for solid low borders or in foundation plantings, which will allow for about four feet. 1½ to 2 feet, 55 cents each; 2 to 3 feet, 75 cents each. Prepaid.

PANICULATA GRANDIFLORA—Fine tall hedges, or if planted in rich soil and severely pruned every spring before the leaf buds open, will get to be very dense, dwarf clumps of compact form, wonderfully attractive when laden with their massive white plumes. Large beds, kept at a uniform development, are extremely showy; first, snowy white, then pink, then reddish bronze and green, August till autumn. Planted rather well back in the intervals between other shrubs, the projecting flower wands arching from the ground are extremely conspicuous and effective white punctuations. 1½ to 2 feet, 60c each; 2 to 3 feet, 80c each. Prepaid.

TREE SHAPED—Very desirable in this form, in formal lines and backgrounds, or solitary. 2½ to 3 feet, \$1.10 each; 3 to 4 feet, \$1.35 each. Prepaid.

CYDONIA

FIRE BUSH

JAPAN (Japonica)—Common garden form, growing from 3 to 6 feet with spreading, spiny branches. The scarlet-red flowers appear before the leaves and are followed by globular fruits from one and one-half to two inches high. 18 to 24 in., 60c each; 3 for \$1.50. Prepaid.

CEPHALANTHUS

BUTTON BUSH—(Cephalanthus occidentalis)—Medium. Forms a dense, rounded bush, with large fragrant greenish-white ball-shaped flowers. Particularly at home in moist locations and partial shade. 1½ to 2 feet, 50c each; 2 to 3 feet, 65c each. Prepaid.

ELDER—Sambucus

GOLDEN (Var. Aurea)—A variety of the American with foliage of a beautiful golden color. 18-24 inches, 50c each; 3 for \$1.40. Prepaid.

EXOCHORDA

PEARL BUSH (E. Grandiflora)—8 to 10 ft. White. April. This is a plant that is not as well known as it should be. It is one of the most pleasing of the early Spring flowers, being a mass of blossom during April. The leaves are light green, of unusual construction and in mass planting should be used extensively. Prune severely at planting time for best results. Prices—3 to 4 ft., 65c each; 2 to 3 ft., 55c each; 3 for \$1.50. Prepaid.

HONEYSUCKLE

LONICERA

FRAGRANT BUSH (Fragrantissima)—Not quite hardy north of Detroit. It has handsome evergreen foliage and blooms very early. Sweet-scented though the flowers are not very showy. 18 to 24 inches, 35c; 2 to 3 ft., 45c each; 3 for \$1.20. Prepaid.

MORROWI—A very decorative shrub that reaches six feet in height. The beautiful, pure white flowers appear in May or June and are followed by red fruits, which remain until late autumn. 18 to 24 inches, 35c; 2 to 3 ft., 45c; 3 to 4 ft., 55c each; 3 for \$1.50. Prepaid.

TARTARIAN (Tartarica)—This is one of the old-time favorite shrubs. It attains about ten feet in height and is extremely easy to cultivate. The upper lip is deeply divided and spreading. 18 to 24 in., 35c; 2 to 3 ft., 45c; 3 to 4 ft., 55c each; 3 for \$1.50. Prepaid.

Hydrangea P. G.

HARDY SHRUBS—Continued

KERRIA OR GLOBE FLOWER

JAPANESE ROSE (Japonica)—One of the first shrubs brought from Japan. It grows from four to eight feet high and as broad as high. Very attractive throughout the year; in winter the light green branches, in early June when the yellow flowers appear in great abundance; and again in autumn when the leaves have changed to a clear yellow. Not quite hardy in the northern states. 2 to 3 ft., 75c; 3 for \$2.25. Prepaid.

LILAC

SYRINGA OR LILAC, COMMON PURPLE (Syringa Vulgaris)—The old favorite, and one of the best. 55c each; 2 for \$1.00. Prepaid.

COMMON WHITE (S. Vulgaris Alba)—Flowers white, fragrant, beautiful. 60c each. Prepaid.

CHARLES X—A strong, rapid growing variety, with large, shining leaves. Trusses rather loose; large, reddish purple, \$1.00 each. Prepaid.

JAPONICA—An elegant Japanese species, eventually forming a good sized tree, flowers creamy-white in great panicles a month later than other sorts. \$1.00 each. Prepaid.

JOSIKAEA (Hungarian Lilac)—A distinct species of stout erect growth with dark shining leaves and purple flowers which are produced late in June. \$1.00 each. Prepaid.

MME. MARIE LEMOINE—The finest double white Lilac yet introduced. The individual flowers, which resemble miniature Tuberoses, as well as the truss, are of immense size, deliciously scented; fine for cutting. \$1.00 each. Prepaid.

PRESIDENT GREVY—Magnificent panicles of large double blue flowers. \$1.00 each. Prepaid.

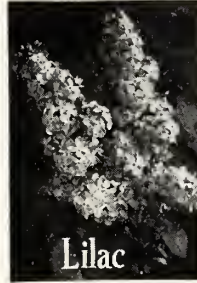

Kerria Japonica

PHILADELPHUS VIRGINAL

BLOOMS THRUOUT THE SEASON

This is a new and wonderful addition to the Mock Orange family but is far beyond anything in this line that has been brought out in the past. It is without question one of the most beautiful shrubs grown and once it becomes known will be planted on every home ground. Because of its being new the supply of this variety is scarce and high priced, but we are going to offer these at the following low prices as long as our supply of this shrub lasts. Price, 18 to 24 in., 60c each; 3 for \$1.70. Large, 2 to 3 ft. plants, \$1.00 each; 3 for \$2.50. Prepaid.

Lilac

RIBES—Alpinus

ALPINA—Five to six feet high with upright branches; foliage lustrous green; blossoms in early spring with large and showy flowers. 2 to 3 feet, 55c each; 2 for \$1.00. Prepaid.

Lilac White

MOCK ORANGE

PHILADELPHUS, SYRINGA GRANDIFLORA—Large, flowering shrub, growing to about eight feet, with spreading branches, usually upright and vigorous, flowers slightly fragrant. Rapid grower and most hardy. 18 to 24 in., 35c; 2 to 3 ft., 45c each; 3 for \$1.20. Prepaid.

LEMOINEI—Graceful shrub with slender, arching branches. The blossoms appear in three to seven inch short racemes, very sweet scented, 18 to 24 inches, 45c; 3 for \$1.20. Prepaid.

NORMA—The best all season foliage of them all. Flowers equal to Virginal and blooms in the spring. Price, 18-24 in., 50c each; 3 for \$1.40. Prepaid.

VAR. AUREA—Similar to the above variety except that the foliage is a beautiful golden color, 12 to 18 inches, 55c; 2 to 3 feet, 65c each. Prepaid.

BOUQUET BLANC—A real white bouquet of immense size. Flowers are large pure white, and quite double, borne in clusters. Very sweet scented. The bush is of arching habit and of low growth which makes it perfect for so many locations. One of the hardiest and most dependable bloomers. We can only urge you to include it with your order; we know you will not be disappointed, because it has no equal anywhere. The time, experience and patience to produce such wonderful plants as these can only be realized by those who have worked with them. 18 to 24 in., 50c; 2 to 3 ft., 75c each; 2 for \$1.40. Prepaid.

RHODOTYPHUS KERROIDES

Sometimes called the White Kerria. A very ornamental, deciduous much-branched shrub, usually from three to seven feet, handsome and distinct, and is hardy as far north as Massachusetts. Has bright green foliage. Made very conspicuous by its white flowers in May or June and black fruits in the fall. 2 to 3 feet, 55c each; 3 for \$1.50. Prepaid.

Philadelphus Virginal

French Pussy Willow

A Promise of Springtime PUSSY WILLOW— Salix Caprae

(Not the Wild Pussy Willow)

A cultivated variety of Pussy Willow that has made a sensation wherever it has been shown. Branches of this variety have been selling at retail, during the winter months in cities, at from \$1.50 to \$3.00 per dozen.

Grow Them on Your Own Lawn

Enjoy these dainty silvery flowers every winter. A beautiful round shrub in summer. Wherever you have room for a Lilac or Snowball, you have room for a Pussy Willow. Use them for tall screens or backgrounds.

Plant one or more of them this spring. Cut the ends of the branches next January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silvery pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure each winter. Prices, 2-3 ft., 60c each, 2 for \$1.00, 6 for \$5.00. Prepaid.

Philadelphus Norma

HARDY SHRUBS—Continued

SPIREA ANTHONY WATERER (F)—2 ft. Bright pink, June and July. A compact low-growing shrub with dense foliage usually deep green with occasional variegated leaves of pink and white on young growth. Flowers are borne in full flat clusters on erect stems. If these are cut away when they fade the shrub will usually bloom intermittently during the summer. Very valuable for edging in front of shrubbery or sometimes used as a dwarf hedge. Price 12 to 18 in., 60c; 3 for \$1.50. Prepaid.

SPIREA ARGUTA—One of the most beautiful Spireas because of its attractive feathery foliage and snowy masses of white flowers before the foliage appears. Is very hardy, slender and dwarf. Price: 12-18 inches, 45c each; 3 for \$1.25. Prepaid.

SPIREA BILLARDI—An erect-growing shrub with dense spikes of rose-pink flowers in July and August and again in the fall. Grows 4 to 6 feet high. Does well in moist places. Prices of strong bushes, 2 to 3 ft. high, 45c each; 3 for \$1.20. Prepaid.

SPIREA CALLOSA ROSEA—A free-blooming variety, producing large panicles of deep, rosy blossoms nearly all summer. Grows 4 to 6 feet high. Prices of strong bushes, 2 to 3 ft. high, 45c each; 3 for \$1.20. Prepaid.

GOLDEN SPIREA—A rapid-growing variety with masses of snowy white flowers in June. Young foliage bright yellow, changing to golden brown in autumn. Very desirable for group planting. Grows 8 to 10 feet high. Prices of strong bushes, 2 to 3 ft. high, 55c each; 3 for \$1.50. Prepaid.

SPIREA PRUNIFOLIA (Plum-leaved Spirea.) (F)—5-6 ft. White. April-May. This is an old-fashioned variety, flowers borne close to the slender erect branches in the spring before foliage appears. The individual flowers resemble miniature roses and usually borne in great profusion. The foliage is shiny dark green and in the fall turns bright red. Prices 3-4 ft., 55c each; 3 for \$1.60. Prepaid.

SPIREA REEVESIANA. Reeves Spirea. (F)—4-5 ft. White. May. This is one of the best of the Spirea group. White flowers borne along the stem just as the foliage appears makes a most attractive bush wherever used. The foliage appears early and remains exceptionally late in the fall. In habit it is very graceful and can be used in foundations where plants of this height are desired. Prices, 2 to 3 ft., 45c each; 3 for \$1.20. Prepaid.

SPIREA SORBIFOLIA—A fern leaved spirea, producing large, white plume like flowers in great abundance. A beautiful shrub both in foliage and in bloom. Can be used in group plantings or as single specimens. Price 2 to 3 ft., 65c each; 3 for \$1.75. Prepaid.

SPIREA THUNBERGI (Snow Garland). (F)—2½ to 3½ ft. White. April. The extra early flowering species is the pride of the Southland. It is spreading in growth with arching slender branches that are a perfect mass of minute flowers followed with exceptionally delicate green foliage. For edging purposes, it has few equals and we recommend it highly. 18 to 24 in., 65c each; 3 for \$1.70. Prepaid.

SPIREA VAN HOUTTEI (Bridal Bower or Bridal Wreath). (F)—4-6 ft. White. May. This is the most useful of the hardy shrubs. It has grown so popular that we sell more of it than any other variety we grow. The flowers are in flat clusters usually an inch or more across produced on spreading, pendulant branches often drooping to the ground. In full bloom they are a mass of white and never fail to attract attention. The foliage is an attractive green which it retains late in the year. This variety can be used in any location for hedging, grouping and mass effect. There is nothing superior in the catalog. When in doubt what to use, plant Spirea Van Houttei. Prices 18 to 24 in., 35c; 2 to 3 ft., 45c; 3 to 4 ft., 55c; 3 for \$1.60. Prepaid.

Spirea Van Houttei

SPINDLE TREE

EUONYMUS

BURNING BUSH (Corky Bark) (Alatus)—An attractive, ornamental shrub to eight feet. The flowers appear in May and June. In autumn the foliage changes to a fine rose color. 2 to 3 feet, 95c each. Prepaid.

EUROPEA—A large shrub to fifteen feet. Covered in the spring with bright yellow leaves, color a beautiful crimson scarlet in fall; stems almost a dark green. 4 to 5 feet, 80c each; 2 for \$1.50. Prepaid.

STRAWBERRY BUSH (Americana)—An ornamental, upright shrub to eight feet. The flowers appear in June, are yellowish or reddish green, followed by pink fruits which are very attractive. 2 to 3 feet, 60c each; 2 for \$1.10. Prepaid.

Spirea Anthony Waterer

SWEET PEPPER BUSH

CLETHRA

ALNIFOLIA—A native shrub, to four feet, bearing profusely spikes of yellowish-white, scented flowers in August. 18 to 24 in., 55c each; 2 for \$1.00. Prepaid.

HYPERICUM ST. JOHN'S WORT

Shrubs and herbs, with mostly yellow flowers. The form is compact and rounded, with somewhat persistent leaves.

H. MOSERIANUM—A novelty of decided merit on account of its large, glistening golden yellow flowers, produced freely from mid-summer until hard frost. It is quite dwarf in habit. 12 to 18 in., 55c. Prepaid.

H. PROLIFICUM—Shrub by St. John's Wort. This excellent shrub blooms profusely from the middle of summer until autumn, and its bright yellow flowers are especially attractive at this season. It is sub-evergreen in character. 12 to 18 inches, 55c each. Prepaid.

Spirea Billardi

We guarantee that all of our stock represents full value for the price you pay.

HARDY SHRUBS

(Continued)

SUMAC RHUS

CUT LEAF (Typhina) (var. *Laciniata*)—This variety with its deeply and finely cut leaves is very handsome, not quite so hardy as some of the other forms and not so tall growing. 2 to 3 feet, 60c each, prepaid.

Cut-leaved Sumac

STAGHORN (Typhina)—This variety grows in the driest soils and is a very desirable plant on account of its brilliant fall coloring which in dry locations, begins to show in August. The crimson fruits remain on all winter. 2 to 3 feet, 60c each; 3 for \$1.70, prepaid.

SNOWBALL VIBURNUM

ARROW WOOD (Dentatum)—A gorgeous upright, native shrub, thriving best in moist soil. It is especially hardy, doing well from New Brunswick to Minnesota. It blooms in May or June, followed by black fruit. 2 to 3 feet. 55c each; 3 for \$1.50; prepaid.

COMMON (Var. *Sterilis*)—This is the well known, common snowball of the old fashioned gardens. Besides the snow-white flowers in May, the foliage is decorative and assumes a bright color in fall. 2 to 3 feet, 65c each; 3 for \$1.80, prepaid.

HIGH BUSH CRANBERRY (Opulus)—Handsome native shrub attaining twelve feet with rather smooth, light branches and stems. The pure white flowers appear in May and June, followed by decorative fruits, which begin to color by the end of July and remain on the branches and keep their bright scarlet color until the following spring. The berries are not eaten by birds. 18 to 24 in., 50c; 2 to 3 feet, 65c each; 3 for \$1.80. Prepaid.

JAPANESE (Tomentosum, var. *Plicatum*)—One of the choicest shrubs. Foliage is abundant during the summer and fall, and its balls of pure white are borne in great profusion. Fine for specimen planting. 18 to 24 in., 65c; 2 to 3 ft., \$1.00. Prepaid.

LANTANA—This is a hardy shrub, especially for dry situations and limestone soil. The large, white flower clusters open in May and June, and are followed by red fruits. The foliage is particularly soft and heavy. 2 to 3 ft., 55c each; 3 for \$1.50. Prepaid.

LIGUSTRUM REGEIANUM

REGEL'S PRIVET—A low, dense shrub with horizontal spreading branches. The leaves are oblong and a beautiful glossy green. In the fall of the year they are covered with attractive berries. Very useful as a low shrub in foundation plantings. Price, 12 to 18 inches, 30c each; 18 to 24 inches, 55c each; 2 for \$1.00, prepaid.

SNOWBERRY— Symphoricarpus

WHITE SNOWBERRY—A perfectly hardy shrub from two to three feet high, excellent for massing in the lower parts of a bed or border. The rose-colored flowers appear in loose, often leafy racemes in July and August. The white waxy-like berries remain on until late in the autumn. 18 to 24 in., 40c; 2 to 3 ft., 55c each; 2 for \$1.00, prepaid.

RED SNOWBERRY (Coral Berry) (Vulgaris)—A rather compact bush valuable because of its abundant and persistent fruit and foliage. 2 to 3 feet, 45c each; 2 for 75c, prepaid.

Tamarix Africana

WEIGELAS —Diervilla

ROSE—A choice vigorous sort, which yields an immense crop of deep pink trumpet-like flowers in June, and bears a scattering of blossoms through the rest of the season. 18-24 in., 55c each; 2 for \$1.00, prepaid.

NANA VARIEGATA—Leaves of this sort are variegated with white; flowers are nearly white. Dwarf, 18 to 24 inch, 60c each; 2 for \$1.00, prepaid.

EVA RATHKE—The flowers are a deep carmine red, erect growing. A most profuse bloomer in spring and again in autumn. 18-24 in., 65c each; 2 for \$1.00, prepaid.

Weigelia Rosea.

Smoke Tree.

SMOKE TREE—Rhus Cotinus

PURPLE FRINGE—A bush 10 feet high with simple obvate leaves and brown bark; flowers purple in loose panicles and on long pedicels, which become profusely plumose, giving the plant a smoky appearance from which it derives its common name. Early summer. There is nothing quite like it and should be planted on every lawn. Price, 2 to 3 feet, \$1.00 each, prepaid.

WHITE (Chionanthus Virginica)—A very showy shrub, growing to large size; with large leathery, shiny leaves, and lace-like white flowers borne in gracefully drooping panicles. Although tree-like in character, the branches and heavy foliage are usually well furnished close to the ground, making a broad and rounded bush of noble proportions. 1½ to 2 feet, \$1.00 each. Prepaid.

TAMARIX

These plants are very beautiful all the year, in winter for their coloring of the bark and in summer for the light green, feathery foliage and large loose panicles of purplish flowers.

AFRICANA—Is an upright grower. Blooms in May, 2 to 3 ft., 40c each; 3 for \$1.10, prepaid.

HISPIDA—A graceful shrub, upright branches, flowers pink, appearing in August, 2 to 3 feet, 55c each; 3 for \$1.50, prepaid.

HEDGE PLANTS

ALTHEA

ROSE OF SHARON—These free flowing shrubs make wonderful hedges and once known will be planted more often. They can be kept trimmed quite low, or can be allowed to grow tall as a screen. A hedge of them in bloom, with all colors of flowers is a wonderful sight. Price, 18 to 24 inch plants, 25 for \$3.75; \$12.00 per 100. Prepaid.

NORWAY SPRUCE

This spruce is a rapid grower and is often used as a hedge fence. It can be planted most effectively in groups on the lawn, but far enough apart to give each tree an opportunity to expand itself in its beauty. For hedge purposes plant 15 inches apart. Price, thrifty trees, 10 to 15 in., shipped without ball of earth, \$25.00 per 100. Prepaid.

NOTE: Sold only in lots of 10 or more.

A Fine Hedge of Hydrangeas. Write for Prices.

FINEST HEDGE GROWN

In our opinion the Japanese Red Leaved Barberry makes the finest hedge that can be grown. They are low growing, compact in habit, stand shearing well, and their bright color all summer long makes it a new and attractive plant. At the low price quoted on the inside front cover of this catalog, this new plant is within the reach of everybody for hedge purposes. Plant 1 foot apart in single row.

IBOLIUM PRIVET

Do you want to enclose your home grounds with a fence that will add beauty and attractiveness to the surroundings, and will never freeze or rot down or rust out; but will become more beautiful and substantial each year?

Many plants or shrubs may be used with happy results and pleasing effects in making a hedge fence.

One hundred plants set eight inches apart, the proper distance for planting, will make a fence 66 feet long. Using our 12 to 18 inch size would cost only \$10.00. This is much less than any other fence would cost.

In addition to costing less than any other fence you could buy, it is superior to any fence you could build. If they are given fairly good soil they will grow dense and compact right down to the ground. It is free from insects or injurious diseases of any kind and may be pruned to any desired form or shape. Our plants are extra fine this year, are well branched, especially for hedge purposes and the price is very low. We will guarantee the quality of our plants to be equal to the best that can be purchased anywhere.

Plant in either Spring or Fall. If planted in single row, space the plants 8 inches apart. If planted in double rows, space the plants 8 inches zig zag from one row to the other.

2-Year Plants, 12-18 inches, per 100.....	\$8.00
2-Year Plants, 18-24 inches, per 100.....	10.00
2-Year Plants, 2-3 feet, per 100.....	12.50

Prepaid.

JAPANESE BARBERRY

BERBERIS THUNBERGII—We consider the Japanese Barberry the best hedge plant in existence. It is beautiful throughout the year; its abundant crop of bright red berries makes it even more attractive in the winter than the summer. Its compact growth and thorny branches make a defense hedge that will turn cattle after five years growth. As an untrimmed hedge it requires no attention except an occasional cutting of a few straggling branches. The natural growth is so dense and even that it forms a perfect hedge without shearing, but if a formal hedge is desired, it can be made so by shearing; hardy, of easy culture, and will grow in any soil or situation. For a hedge, plant in single row, 15 inches apart.

During the growing season, the foliage of the plants is attractive, because of the new growth, light green in color, is in sharp contrast to the foliage of the old wood, which is a glossy dark rich green. In the fall, the foliage turns to bright orange and scarlet, and persists until November or December, according to the locality. The Japanese Barberry is hardy almost anywhere in this country; and it will thrive in almost any situation, even in partial shade. Poor soil is no barrier to its successful cultivation. Price, 10 to 15 inch plants, 25 for \$4.25, 50 for \$8.00, 100 for \$15.00. Prepaid.

CALIFORNIA PRIVET

50 FEET OF HEDGE \$6.00

Set plants 6 inches apart if planted in a straight row, or 12 inches apart if planted in a double row. Of all hedge plants this is the most popular, and more of it is planted than all others combined. It is of free growth and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. Its foliage is a rich, dark green, nearly evergreen, remaining on the plant until mid-winter. Nice plants, 25 for \$1.75; \$6.00 per 100. Large two-year plants, 25 for \$2.25; \$8.00 per 100. Selected plants, 25 for \$2.75; \$10.00 per 100. Prepaid.

AMOR RIVER PRIVET

Hardest of all hedge plants. Beautiful upright growth and makes a very compact beautiful hedge. Holds its foliage till middle of October or later. 18 to 24 inches, 25 for \$2.25, \$8.00 per 100; 2 to 3 feet, 25 for \$3.40; \$12.50 per 100. Prepaid.

SPIREA

Eminently suitable for forming fine hedges. A more graceful object than a Spirea hedge in full bloom is difficult to find. A splendid hedge is shown on page 20. 12 to 18 in., dozen \$2.00; 100, \$15.00; 18 to 24 in., dozen \$3.00; 100, \$20.00. Prepaid.

A Hedge of Ibolium Privet

Clematis Jackmanii

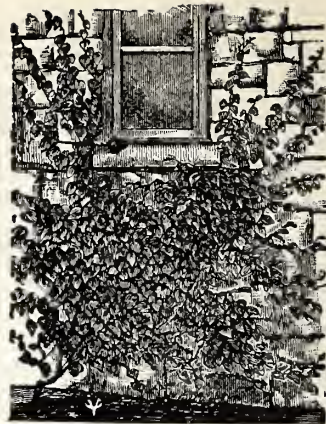

HARDY VINES

AMPELOPSIS QUINQUIFOLIA

(AMERICAN IVY)

Use them for covering unsightly buildings, stumps, walls, fences, trees, etc. Grow quickly and easily, make a dense mat of leaves which hang in clusters of three. We are quoting these at a special price as follows: Two-year-old plants, 45c each; 3 for \$1.25. Prepaid.

BOSTON IVY (Veitchii)—This vine undoubtedly stands higher in the estimation of the people than any other. Once it is established it grows rapidly and will stay indefinitely, needing only an occasional trimming to keep it within bounds. It is not attacked by disease or insects and the foliage is not injured by the smoke and dirt of cities. The glossy leaves turn to a brilliant orange-scarlet in the fall. 2-year-old, 60c each; 3 for \$1.45. Prepaid.

Boston Ivy

MADERIA VINE

BASELLOIDES—A beautiful rapid-growing vine with dense foliage. The small white flowers are borne in great profusion and are very fragrant. It is excellent for summer screens and shade for porches. Succeeds best in a sunny position. 5 for 30c; 10 for 50c. Prepaid.

FALSE BITTER SWEET

SCANDENS CELASTRUS—Hardy ornamental vine. Very effective by their bright-colored fruit remaining usually throughout the winter. They are valuable for covering trellis-work, trees or rocks and walls. They grow in almost any soil and situation. Fruit is about one-half inch in diameter, orange-yellow, with crimson seed. 40c each; 3 for \$1.10. Prepaid.

CLEMATIS

PANICULATA—This Clematis is by far the most popular of all the species in the American gardens. It is extremely showy when covered with the small white fragrant flowers, which appear late in the season. Beautiful, shiny, green foliage. Price: 2 year old No. 1 plants, 55c each; 2 for \$1.00. Prepaid.

JACKMANII—One of the best known of all the Clematises. The velvety-purple flowers, when expanded, are four to six inches across, very velvety and distinctively veined. 2 year, \$1.00 each. Prepaid.

MAD. ED. ANDRE—This is the nearest approach to a bright red Clematis. It is a very free bloomer and very satisfactory. 2 year old, \$1.00 each. Prepaid.

HENRY VII—Large flowering white Clematis. A strong grower and free bloomer. 2 year old, \$1.00 each. Prepaid.

Dutchman's Pipe Vine

DUTCHMAN'S PIPE

ARISTOLOCHIA SIPHO—A very vigorous growing vine with large deep green leaves and green twigs, producing in abundance a purplish blossom much resembling a pipe. Grows very dense. Price, 2 year old plants, 75c each; 2 for \$1.35. Prepaid.

Trumpet Creeper

Clematis Paniculata

HONEYSUCKLE

—LONICERA

JAPONICA, VAR. HALLIANA (Hall's Japan Evergreen Honeysuckle)—Honeysuckles are well adapted for the covering of walls, arbors, etc., are very ornamental as the leaves remain on during the winter. The flowers are white, turning to yellow and are very fragrant. 35c each; 6 for \$2.00. Prepaid.

KUDZU VINE

PUERARIA—A hardy vine with large, tuberous starchy roots making a most remarkable, vigorous growth of slender, hairy stems, leaves are variously lobed, vines will grow to 60 feet in a season, producing a profusion of large leaves. 35c each; 2 for 65c. Prepaid.

WISTARIA

CHINESE WISTARIA (Chinensis)—This is one of the best and commonest of hardy climbers. Has pale green pinnate leaves and bears profusely dense, drooping clusters purplish, pea-shaped flowers. Blooms in May. 2 year, 60c each; 2 for \$1.00. Prepaid.

WHITE WISTARIA

This differs from the purple variety only in color of flowers which are pure white, forming a striking contrast. It is attractive in growth and possesses all the good points of the blue variety. Very sweet scented. 2 year, 60c each; 2 for \$1.10. Prepaid.

TRUMPET CREEPER

A beautiful orange colored flower, blooms profusely and a fast grower. 2 year old plants, 45c each; 2 for 80c. Prepaid.

EVERGREEN VINES

ENGLISH IVY—A hardy evergreen climbing vine with dark green leaves. It is a true evergreen and retains its bright green leaves all winter. Price: 55c each; 2 for \$1.00. Prepaid.

EUONYMUS RADICANS—A hardy evergreen vine, or will form a spreading shrub where it cannot climb. Valuable for covering graves, especially desirable for shady locations. Price, 3 year old plants, 65c each; 2 for \$1.00. Prepaid.

EUONYMUS RADICANS VARIEGATA—Attractive dark green leaved plant, with creamy white and pink variegated edges. Of slow growing habit and very hardy. For covering walls or house foundations it has no equal. Makes a good undergrowth and ground cover for evergreens, or an attractive edging or border. Price, 2 year field-grown plants, 60c each, 3 for \$1.50. Prepaid.

Wistaria Chinese

Euonymus Radicans

Euonymus Variegata

HYBRID TEA ROSES

STRONG 2-YEAR-OLD BUDDED AND GRAFTED PLANTS, 60c EACH, 3 FOR \$1.70, PREPAID.

If you want lots of roses this summer, get a dozen of our Hybrid Tea Roses this Spring. These roses are extra choice, heavy, field grown plants, full of vitality and they cannot fail, if handled properly, to furnish you with a wealth of blooms the first year.

Ophella

Gruss an Teplitz

Kaiserin A. Victoria

COLUMBIA (H. T.)—It is a big Rose. The color is a true pink, about the shade of a perfect Shawyer, deepening as it opens to glowing pink.

ETOILE DE LYON—Bright sulphur-yellow; fine form, large size; a fine yellow Rose.

ETOILE DE FRANCE (H. T.)—Color a lovely shade of clear, red-crimson velvet.

GRUSS AN TEPLITZ—The sweetest, richest crimson hybrid Tea Rose. The intense, dazzling color of this rose is found in no other variety. Fiery crimson, shaded with a dark velvety sheen, totally unlike any other color in the world. Double flowers. Produced in wonderful profusion throughout the whole growing season; in fact, it is always in bloom. Perfectly hardy everywhere. Incomparable for fragrance.

LOS ANGELES—Flowers large and continuous, in color a flame-pink, toned with coral and shaded with translucent gold at the base of petals.

LADY HILLINGDON—Buds of remarkable quality and elegance, of good size, opening into handsome flowers of clear apricot-yellow. Plant relatively hardy, of much vigor, and with an autumn-blooming habit.

LUXEMBURG—A fine, large, fully double rose of vigorous branching habit, and unusual freedom for the color, which is a rich golden yellow.

OPHELIA—Salmon-flesh, shaded with rose, large, and of perfect shape; of excellent habit, the flowers standing up well on long, stiff stems and produced in great profusion. Excellent for forcing and a fine decorative variety.

PINK KILLARNEY—This, the original introduction, is a beautiful Hybrid Tea Bush Rose; strong, sturdy and upright, with fine, heavy insect proof foliage, bearing flowers that are simply exquisite in form and color, the bud is exceedingly long and the flowers immense in size; color deep, brilliant, sparkling shell-pink; hardy everywhere. The bush is magnificent in growth, good size and bears its beautiful burden of flowers all summer.

HYBRID PERPETUAL ROSES

**AT PREPAID PRICES
LARGE TWO YEAR FIELD
GROWN BLOOMS FIRST
YEAR**

Roses are the most popular flowering plants grown, as either plants or flowers. They may be properly and effectively used for a great many purposes. Everyone should plant roses. There is no home, worthy of the name, where space could not be found for from ten to fifty rose bushes and there is no improvement that can be made at so small expense that will so quickly enhance the beauty, desirability and value of the property as a good rose planting.

AMERICAN BEAUTY—The well-known red forcing Rose.

ANNA DE DIESHACH—The famous 'Glory of Paris.' Bright, deep clear pink, of largest size, fine bud.

CLIO—Flesh color, shaded in the center to rosy peach. Large, fine globular form; free bloomer.

FRAU KARL DRUSCHKE, or WHITE AMERICAN BEAUTY or SNOW QUEEN—The very highest type of its class and the best snow-white Rose ever introduced. It is an extraordinary strong grower, and has the vigor and hardiness of an oak. Flowers are immense in size and produced with great freedom. The color is a true paper white, the standard by which all white roses are judged.

GENERAL JACQUEMINOT—Crimson; large, full. Very fragrant. Excellent.

J. R. CLARK—The color is unique among Roses, being deep scarlet shaded blackish-crimson; flowers are large and beautifully-formed.

KAISERIN AUGUSTA VICTORIA—Creamy white and sweetly fragrant; buds are large and pointed and flowers very full and large. Very hardy and continuous bloomer.

MAGNA CHARTA—Bright rose, very large and double, good form and fragrant, extra.

MARSHALL P. WILDER—A great many persons will not give up the contention that this is the ne plus ultra in red roses. Deep, rich glowing red.

MRS. JOHN LAING—Color clear bright, shining pink; exquisitely shaded. Awarded gold medal, N. R. S.

White Killarney

Columbia

Radiance

PREMIER (Monthly Blooming)—Glowing pink. Truly a big rose that is ideal among the Ever-bloomers; stiff stems; flowers upright and what is more remarkable, the stems are almost free from thorns.

RADIANCE—The color is a splendid even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower from early spring until freezing weather. One of the best hardy outdoor garden roses known.

RED RADIANCE (H.T.)—An even better Rose than its parent, Radiance, in habit, bearing big, globular flowers of deep rose-red on strong, individual canes which are freely produced all summer until frost.

RED COLUMBIA (H.T.)—A brilliant scarlet-crimson of exquisite shade, a sport from Columbia; semi-double, one of the freest bloomers in existence; produces beautiful foliage in profusion.

SUNBURST—The color is orange-copper or golden-orange and golden yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Some call the color cadmium-yellow. It is the yellowest of all Roses in the everblooming class.

WILLOMERE (Per.)—A robust garden Rose of bushy habit, with beautiful buds, very large flowers and lustrous green foliage.

Color rich shrimp pink, shaded yellow at center and toning to cream-pink toward base of petals.

WHITE KILLARNEY—Branches of it during the winter give the appearance of a bank of snow. It is pure white in color, long in bud, of fine form.

PRICE Any of Above Varieties **\$1.70**
60c each, 3 for
2 YEAR FIELD GROWN, PREPAID

WONDERFUL NEW TEA ROSES

THE NEW TALISMAN—Without question, the most wonderful new rose that has been brought out for a number of years. There is no rose that approaches it and everyone that has seen it has marvelled at its exquisite coloring.

No illustration can do this wonderful new rose justice. The most vividly colored rose ever produced. A gorgeous blending of yellow, apricot and gold. A rose beyond description. It was awarded Gold Medals at all the leading Rose Shows throughout the country. Strong, two year, field grown bushes, \$1.75 each; 2 for \$3.25. Prepaid.

SOUV. DE CLAUDIUS PERNET—The most satisfactory yellow rose ever produced. A decided and comparatively unfading sun-flower yellow even deeper toned at center. Its flower form is large and full with elongated petals; the buds long and pointed. In growth it is vigorous, erect and branching, with brilliant foliage and almost thornless stems. 2-year-old, 90c each; 2 for \$1.75. Prepaid.

ROSA HUGONIS A NEW BUSH ROSE FROM CHINA

ROSA HUGONIS—Like many other rare floral gems from the Orient, this variety is spectacular in its exotic beauty. Imagine a many branched shrub, 6 to 8 feet tall, rearing slender sprays in all directions, gracefully arching beneath loads of bright yellow, single flowers, an inch and a half in diameter—and you have Rosa Hugonis at its best. The flowers are borne on the previous season's growth and appear very early in the spring, before the foliage. Later in the season it throws up many new branches (next season's flowering wood) and these branches are of a beautiful deep red color, which makes the shrub a garden attraction almost throughout the growing season. Strong field-grown plants, each 75c; 2 for \$1.25. Prepaid.

Ulrich Bruner (See page 18)

NEW AND HARDY CLIMBING ROSES

AMERICAN PILLAR (H.M.)—A single flowering variety of great beauty. The flowers are of enormous size, three to four inches across, of a lovely shade of apple-blossom pink, with a clear white eye and clusters of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten.

BESS LOVETT (Bright Red)—Resembles Climbing American Beauty in bloom, but much brighter and more fragrant. The flowers are clear, bright red, of good size, and of double, full cupped form, highly fragrant, vigorous grower.

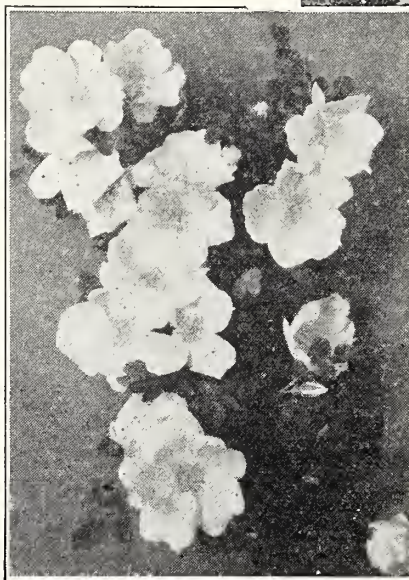

CHRISTINE WRIGHT (H.W.)—The flowers are double, from three and one-half to four inches in diameter, borne singly

Doctor Van Fleet (Climbing)

Gardenia (Climbing)

Rosa Hugonis

and in clusters, of perfect form, beautiful in the bud, and in the fully expanded flower; in color a most refreshing bright wild-rose pink.

CRIMSON RAMBLER—Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson clusters during June and July. It is the supreme novelty among climbers and the forerunner of the splendid array of "Ramblers".

CLIMBING AMERICAN BEAUTY—The famous American Beauty Rose in climbing form. Has all the characteristics of its relative; including form and fragrance. Healthy foliage and has strong climbing habit of growth; the abundant bloom being in prime before the June show of the bush type. The demand for this type has increased so rapidly it is hard to keep up in its propagation.

DOCTOR VAN FLEET—One of the newest type of climbers and very hardy. Flowers when open run four inches or more in diameter in which it compares with the Tea class. Center built high, petals undulated and cupped. Color is a remarkably delicate shade of flesh-pink. Admirable cutting variety with stems 12 to 18 inches long.

DOROTHY PERKINS—A most beautiful shell pink. The flowers are borne in large clusters of small double bloom and very sweet scented. Foliage smoother and darker than the Crimson Rambler. This is undoubtedly the thriftiest, showiest and most practical of the older pink ramblers, and trails its riotous clusters over more verandas, windows and trellises than any other variety.

flowers are borne in large clusters of small double bloom and very sweet scented. Foliage smoother and darker than the Crimson Rambler. This is undoubtedly the thriftiest, showiest and most practical of the older pink ramblers, and trails its riotous clusters over more verandas, windows and trellises than any other variety.

EXCELSA—A sensational new hardy climbing Rose, sometimes called "Red Dorothy Perkins." This great new Rose is nearly evergreen and is absolutely hardy. The flowers are very double, produced in immense trusses of thirty to forty flowers to each truss. Color intense crimson—new and distinct. A gorgeous sight when in bloom.

GARDENIA (H.W.)—Bright yellow, cream color when open; very fragrant and free; early flowering. This is the hardy Marechal Niel; double yellow flowering.

MARY WALLACE—This is Dr. Van Fleet's masterpiece. The trade is slow in taking hold of this charming pillar rose. Hardy as far north as Central Ohio. Blooms two or three times during the summer months. A pillar rose supporting itself in a bushy growth 6 to 8 feet high. Bright clear rose-pink with salmon at base of petals. The largest Hybrid Wich-uriana in existence.

Christine Wright (Climbing)

Mary Wallace (Climbing)

PAUL'S SCARLET CLIMBER—A wonderful Rose for trellis or pergola. Winner of Gold Medal as best new climbing rose at National Rose Society's Exhibition. Flowers are scarlet, shaded crimson. Corresponds to the Climbing American Beauty and Dr. Van Fleet as to size, shape and habit. Blooms very long, holding flower after many June bloomers have dropped their petals.

YELLOW RAMBLER—Flowers deep golden yellow. Very fragrant.

ROSARIE—Deep glowing pink flowers in innumerable clusters.

SHOWER OF GOLD—(Golden Yellow) (Hardy June Blooming). (Improved Yellow Rambler). Color deep golden yellow with orange shadings. Beautiful metallic foliage. A fine yellow Rambler.

THOUSAND BEAUTY—Clusters of pink flowers in great profusion. Flowers are at first pink turning to carmine rose.

PRICE OF ALL CLIMBING ROSES ON THIS PAGE

45c each; 6 for \$2.50; 10 for \$4.00.
2-year-old plants, prepaid.

Dorothy Perkins (Climbing)

HARDY PERENNIALS OLD FASHIONED FLOWERS

AT PREPAID PRICES

Hardy perennials, or as they are often called, "Old Fashioned Flowers" should be planted in every garden. They add grace to the hardy border and furnish cut flowers all through the summer. The varieties listed are all perfectly hardy, and do not have to be replaced each year as is the case with annuals.

ACHILLEA

MILLEFOLIUM CERISE ROSEUM—Beautiful cut-leaved foliage. Flowers deep rose, colored and good for cutting.

Eighteen inches. April to October. 17c each; 3 for 50c. Prepaid.

PTARMICA (The Pearl)—White flowers larger than above variety. It blooms all summer. Slightly more dwarf. 15 in., 27c each; 2 for 50c. Prepaid.

STOKES ASTER

The plant grows from 18 to 24 inches high, bearing freely from early June until late in October, its handsome lavender-blue centaurea-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position. 22c each; 3 for 60c. Prepaid.

ASTER

ST. EGWIN—Dense and bushy and blooms from the ground up to the top of the plant. Delicate pink color. 17c each; 3 for 50c. Prepaid.

BUTTERFLY WEED

ASCLEPIAS TUBEROSA—Beautiful bright orange flowers 1 to 2 feet high. Very hardy blooms. July and August. 17c each; 3 for 50c. Prepaid.

COLUMBINE

AQUILEGIA ENGLISH LONG SPUR—A fine strain, producing distinct strains of Purple, Blue, Red and Yellow flowers. Mixed Plants. 28c each; 3 for 50c. Prepaid.

CHRYSAETHA (Yellow-Flowered Columbine)—Flowers are primrose yellow, long spurs. Three to four feet. April to September. 17c each; 3 for 50c. Prepaid.

DIANTHUS OR SWEET WILLIAM

DIANTHUS BARBATUS—The old-fashioned favorite. A fine plant, producing great masses of bloom of extremely rich and varied colors. Flowers lasting and fine for cutting. 17c each; 3 for 50c. Prepaid.

DIANTHUS—Pink Beauty. 17c each, 3 for 50c. Prepaid.

DIANTHUS—Scarlet Beauty. 17c each, 3 for 50c. Prepaid.

DIANTHUS—Velvet Black. 17c each, 3 for 50c. Prepaid.

DIANTHUS—Holborn Glory. 17c each, 3 for 50c. Prepaid.

DIANTHUS—Newport Pink. 17c each, 3 for 50c. Prepaid.

DIANTHUS—White. 17c each, 3 for 50c. Prepaid.

CANTERBURY BELLS

Large open bell-shaped flowers in a variety of colors. 15c each; \$1.50 per dozen. Prepaid.

HAEBELL (Campanula Carpatica)—A pretty, compact species; flowers 1 inch in diameter. Blue and white. 17c each; 3 for 50c. Prepaid.

JAPANESE BELL FLOWER

PLATYCODON—A valuable perennial forming a dense branching bush of upright habit. One to two feet with neat foliage. It blooms from July until frost. Large bell shaped, deep blue flowers. 20c each; 3 for 50c. Prepaid.

CHAMOMILE

Well known perennials, esteemed for their lavish bloom and exceedingly decorative value in late fall. Yellow. 17c each; 3 for 50c. Prepaid.

COREOPSIS

LANCEOLATA—Valuable border plant, because of their profusion of showy yellow, hardy and of the easiest culture. One to two feet. June to September. 26c each; 2 for 50c. Prepaid.

CHRYSAETHUM

HARDY VARIETIES
Well known perennial, esteemed for its lavish bloom and exceeding decorative value in late fall. Red, white, pink, yellow. 18c each; 3 for 50c. Prepaid.

HARDY CARNATION GARDEN PINKS

A fine collection in various colors. The good old-fashioned "Pinks" so frequently found in Grandmother's garden. Of dwarf habit. The foliage is attractive throughout the year and they are especially useful for edging perennial borders.

DOUBLE MIXED—15c each, \$1.50 dozen. Prepaid.

DOUBLE PINK—20c each, \$2.00 dozen. Prepaid.

DOUBLE WHITE—15c each, \$1.50 dozen. Prepaid.

SINGLE MIXED—12c each, \$1.20 dozen. Prepaid.

BOCCONIA CORDATA (PLUME POPPY)

Six to eight feet. Immense flat, deeply indented leaves of silvery green on pearl-pink stalks. Flowers creamy white, produced in large, upright panicles, which persist for months, darkening to rusty bronze. This is a splendid plant to point the angles of the tallest perennial backgrounds, its neutral colors associating well with any other flowers, and its stems and foliage at all times highly ornamental. 25c each; 3 for 65c; \$2.50 per dozen. Prepaid.

Achillea

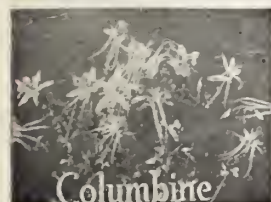

Aster

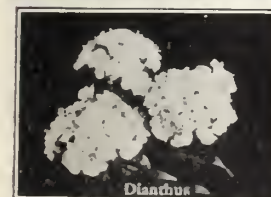

Stokes Aster

Butterfly Weed

Columbine

Dianthus

DAISY PERSIAN

PYRETHRUM

The pretty, fern-like foliage in the Spring, followed by a profusion of handsome blooms in summer, makes the plant very desirable. Unequaled as cut flowers. Hardy under any conditions. 17c each; 3 for 50c. Prepaid.

BLEEDING HEART

DICENTRA SPECTABILIS (Bleeding-heart)—The Bleeding-heart is one of the choicest memories of the old-fashioned garden. Easily cultivated in borders or the wild garden. One of the best of flowering perennials. Its long racemes of graceful heart-shaped pink flowers are always attractive. Valuable for planting in shade. 55c each; 3 for \$1.60. Prepaid.

DICENTRA (Bleeding Heart)—Eximia. Compound racemes of deep rose, the heart-shaped flowers tapering to a long slender neck. Foliage is especially attractive and bloom persistent all summer. Price: 20c each; 2 for 35c. Prepaid.

Bleeding Heart

Canterbury Bell

Japanese Bell Flower

Chamomile

Coreopsis

Dianthus

NEW HYBRID DELPHINIUMS

Imported Strains

Perhaps no other flower has in recent years undergone the transformation and improvement as has the Delphinium.

These superb new varieties, in all shades of blue, lavender, violet, and purple, are truly wonders of the floral kingdom.

In our plantings, we have had many flowers this year, with a blooming stem 6 feet or more in height, and up to 3½ feet of flower on the stem.

LIST OF VARIETIES

BLUE BOY—A new introduction of rich deep blue with white eye. The flowers are single, very large, densely massed on long stems. It is one of the thriftiest of the new Delphiniums, which, with its deep blue color, makes it a very desirable variety. Clumps, 50c each, 3 for \$1.25. Prepaid.

MILLICENT BLACKMORE—This is one of the most splendid new varieties. The long spikes are of perfect form, the pipes beautifully placed and enormously large. The color is a soft combination of blue and mauve, with a large black center. Clumps, 75c each; 2 for \$1.25. Prepaid.

WONDERFUL HYBRIDS—Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among

these new hybrids are flowers of huge size in both single and double forms. This strain has been raised from seed saved from the finest named kinds in creation. Visitors at our nursery proclaim them the best they have ever seen. Those who wish to perfect their already much prized borders cannot afford to overlook these wonderful hybrids. Mixed colors, 28c each; 3 for 75c. Prepaid.

BELLADONNA—A sky-blue variety. June to October.

CHINESE (Chinese Larkspur)—A very pretty variety with fine feathery foliage and intense blue flowers.

FORMOSUM—The old favorite dark blue with white center; 3 to 4 feet high. Very vigorous, free-flowering, one of the best.

Price any of above 3 varieties, 27c each; 3 for 75c. Prepaid.

Fox Glove

Golden Glow

Helianthus

HIBISCUS

HIBISCUS

MALLOW MARVEL—A beautiful deep red color. Very effective. 20c each; 3 for 50c. Prepaid.

WHITE CRIMSON EYE—This is probably the best known and the most planted of the Hibiscus. 20c each, 3 for 50c. Prepaid.

GAILLARDIA (Blanket Flower)

GRANDIFLORA—Probably one of the most universal flowers planted among the hardy perennials. Conspicuous for their golden profusion of bloom. Flowers intense, blood-crimson, margined with golden yellow. Eighteen to twenty-four inches. 17c each; 3 for 50c. Prepaid.

HOLLYHOCKS

DOUBLE—Immense double and semi-double flowers; all shades and colors mixed. 18c each; 2 for 35c. Prepaid.

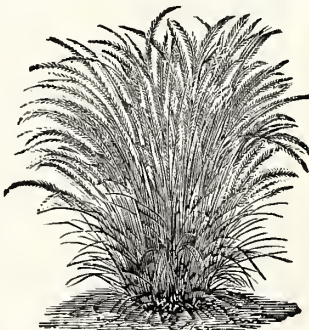

Hardy Sweet Pea

HARDY GRASSES

EULALIA ZEBRINA (Zebra Grass)—The long blades of this variety are marked with broad yellow bands across the leaf. Fine for lawns. 17c each; 3 for 50c. Prepaid.

EULALIA GRACILIMA—Plume Grass with very narrow leaves and long plumes. 17c each; 2 for 30c. Prepaid.

Eulalia Gracilima

Hollyhocks

DAISY SHASTA

ALASKA—A splendid form of the Shasta Daisy. The whole plant is gigantic, but compact and graceful; flowers white, four and five inches across. Very free flowering; small yellow discs. Good for cut flowers. 17c each; 3 for 50c. Prepaid.

PRIMROSE

CORTUSOIDES—A distinct Siberian species, with soft, wrinkled, heart-shaped leaves. Flowers in early Summer, deep rose, prefers light, rich, well drained soil, in a sunny position, in border or rocky. 25c each; 2 for 45c. Prepaid.

FUNKIA

HOSTA: PLANTAIN LILY—The Plantain Lilies are among the easiest plants to manage; their broad, massive foliage makes them attractive subjects for the border even when not in flower. They succeed equally well in sun or shade. 25c each; 2 for 35c. Prepaid.

PERENNIAL FLAX

LINUM PERENNE—A very desirable plant for the border; grows about 2 ft. high and filled with flowers all summer. We can furnish either White or Blue. 17c each; 3 for 50c. Prepaid.

GYPSOPHILA OR BABY'S BREATH

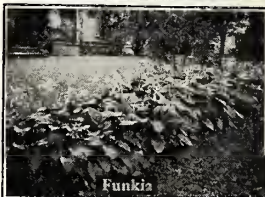

Very branching or spreading slender perennials of very easy culture, and very desirable where a mass of delicate misty white bloom will fill a bare place. 17c each, 3 for 50c. Prepaid.

BRISTOL FAIRY

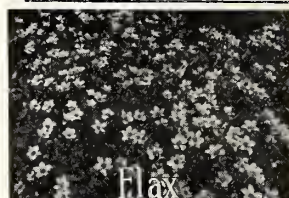

A sensational new development of the double flowered Gypsophila, adopted immediately by florists as a very valuable cutting subject. The bush itself is sturdier and more expansive than the type, with much larger florets in fuller panicles; the blooming season naturally longer, and possible of continuous all-summer show if earlier bloom is removed. Pure white, slightly blushed in cool weather. 40c each; 2 for 75c. Prepaid.

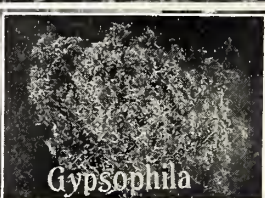

Evening Primrose

Funkia

Flax

Gypsophila

Bristol Fairy

HEMEROCALLIS

YELLOW DAY LILY—Popular hardy plants; belong to the Lily family. They succeed everywhere and should always be included in the border of old-fashioned hardy plants. 17c each; \$1.75 dozen. Prepaid.

LUPINUS OR LUPINES

The Lupinus produces beautiful long spikes of pear-shaped flowers a foot long on stems 3 feet high. They are perfectly hardy and very showy. We can supply them in the following colors: White,

Rose, Mixed. 17c each; 3 for 50c. Prepaid.

POLEMONIUM

(Jacob's Ladder) — A plant of easy culture. Pretty blue bell-shaped flowers with golden antlers. 27c each; 3 for 80c. Prepaid.

LOBELIA

CARDINAL FLOWER—Rich fiery red flowers; strong plants often producing 10 to 18 spikes in August and September. 17c each; 3 for 50c. Prepaid.

PERENNIALS

—Continued.

Iberis

OSWEGO TEA

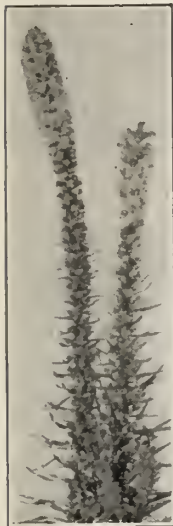

MONARDA DIDYMA—A bushy plant growing about 2 feet high, covered with round heads of deep red flowers. Its petals are similar to the Cactus Dahlias, also known as Bergamot and Mint on account of the delicious fragrance of their leaves when crushed. 17c each, 3 for 50c. Prepaid.

Mourning Bride

Oswego Tea

Liatris Spicata

RUDBECKIA LACINATA GOLDEN GLOW (T) — Aug. and Sept. Large double golden, yellow, Dahlia-like flowers. 17c each; 3 for 50c. Prepaid.

PURPUREA—An entirely distinct variety. The flowers are a peculiar formation as well as color, which is reddish purple with large cone-shaped center in brown. 20c each; 3 for 50c. Prepaid.

Maltese Cross

PYRETHRUM HYBRIDUM PAINTED DAISIES

—Pyrethrums are of low, compact growth with lace-cut foliage of beautiful green and are excellent for edging or for general planting and in solid beds. The flowers resemble that of a Daisy in shape, are of large size, and the color ranges from pure white and the various shades of pink and red to deep purple. 17c each; 3 for 50c. Prepaid.

PHYSOSTEGIA VIRGINICA

—A unique and attractive American plant that stands apart from all other hardy plants. For massing or planting with appropriate varieties in the hardy border. It is perfectly hardy and possesses a constitution equal to that of Golden Glow. Begins to bloom about the first of July and if kept cut, will flower more or less for about three months. Can be supplied in pink or white. 17c each; 3 for 50c. Prepaid.

MOURNING BRIDE SCABIOSA JAPONICA

—Handsome border plants and should be planted in every garden. Lavender blue flowers from July to September that last a long time when cut and put in water. 17c each; 3 for 50c. Prepaid.

Linum

Iris

PENTSTEMON

BARBATUS TORREYI (B)

—June to Sept. A very valuable late flowering variety with beautiful bright flowers; thrives also in partly shaded places. Price, 20c each; 3 for 50c. Prepaid.

Sweet Williams

Oriental Poppy

LYCHNIS

CHALCEDONICA (Maltese Cross)—Heart-lobed stars of brightest vermillion, arranged in large flat panicles. 2 year, 15c each; \$1.50 dozen. Prepaid.

BLAZING STAR

LIATRIS (Blazing Star)—Pycnostachya—choice and bold specie from 3 to 5 ft. tall. Grow and produce flowers in poorer soil, than most garden plants but prefer a rich garden soil, and require no special attention. Nothing can be planted that will attract more attention on account of its unusual appearance; beautiful as well as odd. Blooms in mid summer and throws up long spikes of rich rose purple flowers which last a long time and very attractive to butterflies. 17c each; 3 for 50c. Prepaid.

POPPIES

ORIENTAL (Assorted)—These are the regal representatives of this popular genus growing 3 to 3 1/2 feet high, and far surpassing in splendor of bloom all the annual and biennial kinds. Flowers in May and June. 17c each; 3 for 50c. Prepaid.

ICELAND (Assorted)—The plant is of neat habit, forming a tuft of bright green, fern-like foliage from which spring, throughout the entire season, a profusion of slender leafless stems 1 foot high, each graced with charming cup-shaped flowers. 17c each; 3 for 50c. Prepaid.

JAPANESE IRIS

Of all Iris, the Japanese has, without question, the most wonderful bloom. The flowers are borne on long graceful stems, and for foliage effect, or cut flowers this species is far superior to the common kinds. We are offering only two varieties which are noted for their free blooming habit.

PURPLE GOLD HANDED—A beautiful deep shade of purple with a gold band across the petals. An attraction to any garden. Price, 27c each; 3 for 80c. Prepaid.

BLUE—A bright blue flower, which holds its color and remains fresh a long time after it is cut. Price, 27c each; 3 for 80c. Prepaid.

FINE GERMAN IRIS

Of late years, many new and beautiful varieties of German Iris have been introduced. Here is your chance to secure good sorts at a real low price. 27c each; 3 for 80c. Prepaid.

FINE NAMED SORTS, 27c EACH; 3 FOR 75c. PREPAID

CAPRICE—Pink.
VIOLENCIA—Violet.

MRS. LINGAARD—White and large. 20c each; 3 for 50c. Prepaid.
RHINELANDER—Beautiful salmon-pink; immense size. Price 17c each; 3 for 50c. Prepaid.

Phlox

RYNSTROOM—Big trusses, rosy-pink flowers. Price, 27c each; 3 for 80c. Prepaid.
SUBULATA—Moss or Mountain Pink, and an early spring flowering type with evergreen foliage. Valuable for covering ground or graves. Price, 17c each; 3 for 50c. Prepaid.
BRIDESMAID—White, crimson eye. Price, 15c each; \$1.50 per dozen. Prepaid.
MISS LINGARD—The best phlox in cultivation. Immense heads of pure white flowers in June, September and October. Prices, 17c each; 3 for 50c. Prepaid.

Rhinelander

TUNICA

SAXIFRAGA — A neat tufted hardy perennial plant, growing but a few inches high, and bearing throughout the entire season numerous elegant pink flowers. Will thrive anywhere, but is especially adapted for the rockery or the margin of the hardy border, blooms the first season. 20c each; 3 for 50c. Prepaid.

ROCKY MOUNTAIN SAGE

SALVIA AZUREA — A species from the Rocky Mountains, which produces during August and September pretty sky-blue flowers in the greatest profusion. They have been admired very much by the many visitors to our nurseries this summer. 17c each, \$1.75 dozen. Prepaid.

Rudbeckia

MADAM JULES ELI—This is one of the new standby varieties and needs no introduction. You can make no mistake by planting this Peony because the bright red flowers are always a source of much pleasure and enjoyment. Used as specimen plants their bright red flowers lend just the right amount of color to any lawn or garden. 75c each; 2 for \$1.35. Prepaid.

MODEL OF PERFECTION—A beautiful rose type Peony of hydrangea-pink tinted violet-rose. The blooms are large and compact, making a very showy plant when in full bloom. We sold many of this variety last year, and all of our customers who planted them were enthusiastic in their praises of this beautiful flower. 55c each; 3 for \$1.35. Prepaid.

Peony

Saxifraga

YUCCA

(ADAM'S NEEDLE)

FILAMENTOSA—Among hardy plants there is nothing more effective and striking for isolated positions on the lawn or on dry banks where few other plants thrive. It is also indispensable for the rockery. Its broad, swordlike, evergreen foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and handsome subject wherever placed. Should be planted in Spring. 20c each; 2 for 35c. Prepaid.

Tritoma

PEONIES

FESTIVA MAXIMA—Rose type. Probably no other Peony is as widely grown as this variety, and none of the whites are as well and favorably known. While the blooms are very fragrant and the stems of a good length, this flower is especially adapted for cut flowers when bouquets are hard to obtain because of the earliness of the season. Color snow-white, center petals of purplish carmine. Include this one. 55c each; 3 for \$1.35. Prepaid.

The Earliest Peony of the Season

OFFICINALIS RUBRA—A brilliant crimson rose-type Peony, blooming three weeks before the earliest of the other varieties. An old favorite of our grandmothers' gardens, and no new Peony has appeared to take its place as to early blooming qualities. It is a sure bloomer, blooming every year, and a wonderful addition to your garden. \$1.00 each; 3 for \$2.75. Prepaid.

BEAUTIFUL PEONIES

Late years have seen many improvements in the size, shape, color and free-flowering habit of this wonderful plant, and below we offer three choice double varieties in three colors. Plant in the late Fall or early Spring.

1ST PRIZE WHITE—A good sized double white flower and free bloomer. 52c each; 3 for \$1.40. Prepaid.

1ST PRIZE PINK—Beautiful shade of pink, double flower, beautiful foliage. 52c each; 3 for \$1.40. Prepaid.

1ST PRIZE RED—Very vivid coloring, massive flowers and very spicy. 52c each; 3 for \$1.40. Prepaid.

BEST HOUSE PLANTS

FERNS

THE OSTRICH PLUME FERN—One of the few feathery foliage ferns which everyone can successfully grow. One of the best.
VERONA—Will thrive under all ordinary conditions. Fronds are very fine and filmy. Nothing daintier.
TEDDY, JR.—Produces many new fronds which are broad, beautifully tapered from base to tip. Symmetrical spread.
FLUFFY RUFFLES—(*Nephrolepis Superbissima*). Dark feathery foliage. Dense, compact growth gives the appearance of a fern within a fern.
BOSTON FERN—This variety is the most popular of all ferns. The graceful rich green fronds often measure from six to eight feet in length.
ROOSEVELT—Dense, massive fronds.

PRICE ANY ABOVE FERNS, PREPAID

2½ inch Pots, Greenhouse Grown
 18c each; 3 for 45c. Prepaid.

Fern

Chrysanthemum

Fern

CHRYSANTHEMUMS

CHRYSOLOREA—A very fine yellow. Medium to tall in growth. Foliage heavy. Considered the finest early yellow variety ever introduced.

CHIEFTAIN—A globular incurved, full and round; good rose-pink on stiff stems with foliage that is just right; an easy grower. Chieftain is among pinks what Major Bonaffon is among yellows.

GLADY'S PIERSON—Golden bronze and mahogany. Large and full for its type. Blooms from early to late; grown to single stem it is fine. Incurving, perfectly filled blooms.

HARVARD—A particularly attractive flower; fine for exhibition; color is very dark crimson; grand stem and foliage.

SNOW-WHITE—A fine early white. Form, foliage, stem, and color make it a very valuable second early; a splendid grower, pure white always, round incurved form.

PRICE ANY OF ABOVE

2½ inch Pot Plants
 15c Each; 5 for 65c.
 Prepaid.

SINGLE PETUNIAS

The Petunia is one of the finest bedding plants for massing, mixed borders, or for vases. The brilliancy and variety of its colors, combined with the duration of its blooming period, render it invaluable for garden decoration. Our collection is unsurpassed for brilliancy of color and size of bloom.

Price, 12c each; 6 for 65c; 12 for \$1.25. Prepaid.

ROSE OF HEAVEN—Of compact, bushy growth, 15 inches in height, covered through the entire season with large open throated flowers. Throat silvery-white, outer edges heavily shaded soft rose-pink.

SINGLE PETUNIA—Bright red.

SINGLE PETUNIA—Brilliant blue.

Chrysanthemum

Chrysanthemum

CHRISTMAS CACTUS

"Never Fails to Flower."

Purplish Scarlet Blooms.

An early flowering variety, with long drooping flowers, borne in great profusion. Stems branching and hanging in bunches. It grows and blooms with the greatest ease, requires absolutely no care, living for months without water, increasing in value yearly. Price, 25c each; 2 for 45c. Prepaid.

VINCA VINES

VINCA, TRAILING—(Variegated Periwinkle). A beautiful variegated trailing vine, admirably adapted for hanging baskets and vases. Leaves glossy green, broadly margined a creamy white; flowers blue.

2½ inch plants 15c each;
 3 for 40c. Prepaid.

Fern

FUCHSIAS

The secret of success with Fuchsias is to keep the plants properly watered and nourished to stimulate fresh, continuous growth and consequently flowers.

PURPLE PRINCE—This double Fuchsia is of extraordinary merit. Violet-blue corolla; very dark rich red sepals, waxy luster. Plant of fine form, easy to grow, continually in bloom. Positively one of the grandest varieties ever offered.

BLACK PRINCE—This is without question the very finest single Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant of easy culture.

Price any above 2½ in. Pot Plants, 15c each; 3 for 45c. Prepaid.

GIANT FLOWERING PANSIES

It is impossible to do justice to these lovely flowers in a printed description. Cold type cannot convey an idea of the indescribable richness, the varied and exquisite coloring, the large size, perfect form and great substance of the blossoms.

The plants we offer are from seed or selected flowers of the Giant Timardeau, Bugnot and Cassier strains in the following named colors: brilliant fine red, margined striped golden, purple, black, white, violet and gold.

Price, 6 for 40c; 10 for 60c. Prepaid.

Pansy

BEST HOUSE PLANTS

FLOWERING BEGONIAS

2½ inch pot plants, 20c each; 3 for 55c. Prepaid.
BEEFSTEAK BEGONIA (Feastii)—A low, spreading Begonia, with perfectly circular leaves, red beneath, and dark, glossy green above, and of heavy texture. The finest pot Begonia we have for house culture.
THURSTONI—The under side of the leaves is a rich purplish-red, the veinings very prominent, while the face or upper side is a bronzy-green, shaded with crimson and olive, with a peculiar glossy-metallic luster over all. Flowers rosy-white, in large clusters well above the foliage. The plant has a fine foliage.
HARDY BEGONIA EVANSIANA—Here is one of our best house and garden plants; a rapid, healthy grower, very profuse bloomer with beautiful foliage and clusters of pink flowers. The plant re-establishes itself in the spring from root tubers.

MAMMOTH REX BEGONIA

The broad leaves, high coloring and exquisite markings of Rex Begonias make them invaluable as decorative plants for house culture. Give them a soil composed of warm, moist atmosphere and shady situation. Do not allow the sun to strike the leaves while wet. 2½ inch pot plants, 25c each; 3 for 70c. Prepaid.

WATER MELON BEGONIA

Variegated foliage white and green, waxy like frosted silver. Excellent house plant. 22c each; 3 for 65c. Prepaid.

SUPERB FRENCH HYDRANGEAS

These Hydrangeas are very vigorous, healthy and rapid growers, and are practically a summer and winter flowering plant, requiring only a short rest between seasons. This species of Hydrangeas is generally hardy in the South and throughout the Middle States with some protection during winter months, and here they will flower profusely from June to October. In our Northern States they will give better results when used as pot plants.

BOUQUET ROSE—This very attractive variety produces deep rosy amber flowers which turn to bright red.

LA FRANCE—Immense trusses of well formed delicate rose blooms are produced in abundance.

MAD. EMILE MOULLERE—Exceptionally large flowers of pure white with rosy carmine eyes are frequently over two inches in diameter.

RED MONARCH—Darkest red variety. Fine grower.

Price any above, 2½ in. pot plants, 20c each, four for 75c; dozen for \$2.00. Prepaid.

HIBISCUS

GRANDIFLORUS—Rich, glossy foliage, blooms profusely through the summer; literally covering the plants with scarlet-crimson single flowers.

PEACHBLOW—One of the finest plant novelties offered in recent years; flowers double, from 4 to 5 inches in diameter, charming, rich, crimson center. This is an entirely new and most beautiful shade.

MINIATUS SEMIPLENUS—Semi-double flowers; light vermilion scarlet; petals waved and recurved; flowers noticeable for the absence of formality, but very handsome.

Price any above, 2½ inch pot plants, 18c each; 3 for 50c. Prepaid.

Sansevieria Zeylanica

Hydrangea

SNAKE PLANT

(Sansevieria Zeylanica)

This beautiful house plant is well adapted for decoration of sitting rooms, halls, etc., as it stands dust and neglect of watering with impunity. Leaves grow to a length of from three to four feet beautifully striped crosswise with broad white variegations on a dark green ground. A rare and beautiful plant, and should be abundantly grown for positions out of sunlight, where other plants do not thrive.

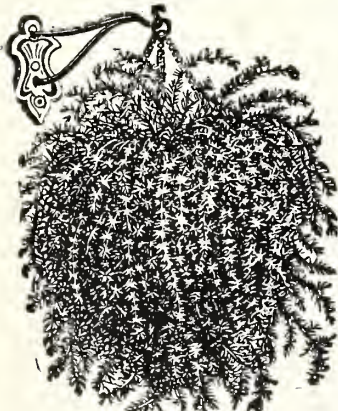

Price, 2½ inch pot plants, 25c each; 3 for 45c. Prepaid.

Rex Begonia

Begonia

Asparagus

ASPARAGUS SPRENGERII

(Feather Fern)—Especially valuable for window box and hanging basket planting, for vases and as specimens when grown in pots or as tub plants. When used for cut-flower work, the foliage retains its freshness for an unusual length of time.

PRICE—2½ inch Pot Plants, 15c each; 3 for 40c. Prepaid.

ASPARAGUS PLUMOSUS

(Lace Fern)—Fronds are bright green, gracefully arched and as finely woven as the finest silken mesh. Their lasting quality when cut is remarkable, as they often retain their freshness for weeks.

PRICE—2½ inch Pot Plants, 15c each; 3 for 40c. Prepaid.

Asparagus

BEAUTIFUL BEDDING COLEUS

There is nothing in the line of bedding plants that can ever take the place of Coleus. Used in solid clumps or as edging to Canna beds, etc. Price, 10c each, \$1.00 per dozen. Prepaid.

Price of Coleus by the hundred when sent by express, \$8.00.

BECKWITH'S GEM—Beautiful fancy variety with large leaves of heavy texture and finely scalloped edges; center of leaf dark velvety maroon, bordered with fiery-red; edge of green, changing to creamy-yellow at the point of leaf.

FIRE CREST—The major portion of the foliage is a bright carmine-crimson shade; edge is slightly marked golden-yellow, which heightens the coloring; center of leaves blotched deep bronze.

GOLDEN BEDDER—Clear yellow when well developed; edge somewhat crinkled; center rib of lighter yellow.

GLORY OF AUTUMN—Most vivid autumnal colorings in great variety on every plant, each leaf defined by a heavy beaded border of apple-green.

RED CARPET—Center of leaf wine color, broad margin spotted dark maroon.

DOUBLE FLOWERING GERANIUMS

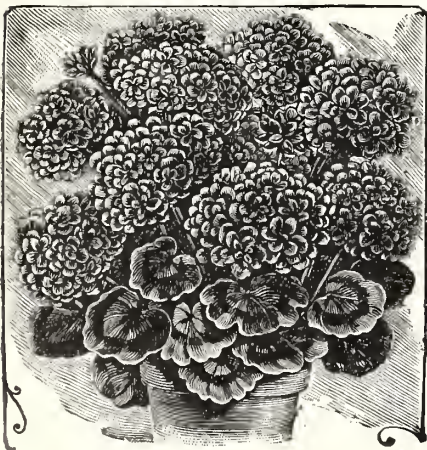

The richly colored Double Geranium is unquestionably the most popular of all plants. May be used effectively either as a bedder or pot plant.

BEAUTE POITEVINE—Semi-double. One of the very finest of the Brunt race. The color is a brilliant salmon, shading to apricot in the center; trusses colossal, florets two and one-fourth inches in diameter.

RADIO RED—A strong, vigorous grower, truss of the largest size and borne well above the foliage on very strong stalks; color of the richest scarlet, one of the most profuse-blooming bedders; foliage very broad and strong. Stands the sun better than almost any other Geranium.

S. A. NUTT—This is the darkest and richest double Geranium grown. It is very bright, dark, deep, rich velvety maroon, an excellent bedder and a perfect pot plant.

Price any above, 2½ in. Pot Plants, 15c each; 3 for 45c; 10 for \$1.40. Prepaid.

Geranium Radio Red

Hibiscus

Coleus

APPLES MOST PROFITABLE FRUIT GROWN

It is a recognized fact that of all fruits the apple is the most important, as it may be had fresh the year round, which is not the case with any other fruit. Apples are no longer considered a luxury, but have become a staple article of food and the demand for them is increasing faster than the supply. Farmers and fruit growers have found that orchards well cared for have given larger net returns per acre, during a series of years, than any other crops they have grown. There never has been a time when an orchard could be planted with a greater assurance of profit than now. The varieties listed are those which have stood the test. You may make your selection from this list with the assurance that you are getting the benefit of years of experience of others in this line.

BALDWIN

The apple of general popularity. It bears most abundantly. The Baldwin is a staple on the market everywhere. It is well known to every fruit grower and housewife in the north-western United States. A bright red winter apple, rich, sub-acid, excellent because of its dessert and cooking qualities.

Jonathan

BANANA

This apple is not as generally planted as its merits would warrant, and we recommend it both for home and market. Fruit large, clear pale yellow with beautifully contrasting pinkish-red blush; attractive in appearance, of good dessert quality.

DUCHESS OF OLDENBURG

The most profitable mid-summer apple. Downing has the following to say of the Duchess: "This handsome Russian apple proves one of the most hardy and profitable varieties in cultivation, especially in our northwestern sections."

DELICIOUS

Large, with surface almost covered with a most brilliant beautiful dark red; in quality it is unsurpassed; in flavor it is sweet slightly touched with acid, but only enough to make it all the more pleasing; flesh is fine grained crisp, juicy, delicious; in keeping qualities, it ranks with the best.

GRIMES GOLDEN

The BEST and most widely planted yellow apple. The tree is hardy and productive. It can be used to an advantage as a filler as it comes into bearing rather early. Few apples have proven more profitable in the commercial orchard. The fruit is of medium size, tender, rich, aromatic, sub-acid, good to very good for eating raw or cooking.

Baldwin

Duchess

Winesap

ROME BEAUTY

The great profit maker. An old apple, but one that steadily grows in popularity, and is a money maker for growers all over the country. It has an established place in the markets and no orchard should be without this apple. It is large, mottled and striped in different shades of red.

STAYMAN'S WINESAP

Champion of all Winesaps. Succeeds wonderfully anywhere. The fruit is medium to large; attractive green and yellow, almost hidden by dark red stripes. Flesh yellow, juicy, quality the best, ranking with the Yellow Newton and the Grimes Golden.

WOLF RIVER

A large, handsome apple, and originated on the banks of the Wolf River at Fremont, Wis. Very hardy variety, strong, vigorous grower with spreading habit. White flesh, tender, juicy and pleasant to taste. It has a mild sub-acid, with a peculiar spicy, slight quince-like flavor.

Yellow Transparent

EARLY HARVEST

Much prized by the housewife. The Early Harvest has been in cultivation for more than one hundred years and this is a proof of its excellence. It is a very early variety, ripens in July and August. It is desirable for the home orchard because of its earliness and its excellence for dessert and culinary purposes.

JONATHAN

A general favorite everywhere. The Jonathan originated in New York state and belongs to the Spitzenburg class. It is a medium sized apple, brilliant red; very highly flavored, juicy, fine-grained, tender, mild, sub-acid. Quality is fine for home use and for marketing.

MAIDEN BLUSH

This old-time tested apple is one of the most beautiful and productive of the Fall apples. It is of good uniform size. The color is a bright lemon yellow, with a deep crimson blush spreading over one cheek. The flesh is white, crisp, tender, very juicy.

NORTHERN SPY

Large, striped crimson in the sun, juicy, rich and aromatic, retaining these qualities until late spring or summer. The tree grows rapidly, bears well as it blooms later than most varieties. Valuable as an aphid-resisting sort.

RAMBO

The Rambo needs no description; one of the old favorites that has its place in the farm as well as the commercial orchard. Fruit of medium size, greenish yellow, partly covered with red in the sun.

APPLES—Continued

WINESAP

One of the old standbys. It is one of the very best keepers. Medium size, smooth and a fine dark red; flesh yellow, crisp, tender, very juicy, aromatic, firm and very good. Popular with fruit stores because it always holds up and is one of the leading export apples.

YORK IMPERIAL

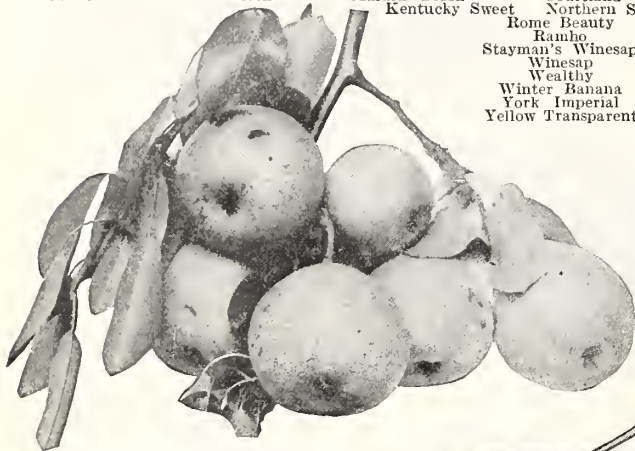

An important commercial apple. Can be kept till new crop comes. Medium sized, round, irregular; greenish yellow overlaid with bright red stripes; flesh tender, firm, crisp, juicy extra good flavor. Tree is a vigorous grower.

ONE YEAR OLD APPLE TREES

In order to supply our constantly increasing demand for one-year-old apple trees, we have grown and herewith present to our patrons a list of varieties we can supply in one-year-old trees. The popularity of the one-year apple trees has grown out of the experience of commercial orchardists who choose this size altogether.

LIST OF VARIETIES OF ONE YEAR OLD APPLES

Baldwin	Delicious	Duchess	Early Harvest	Grimes Golden

Seckle

LIST OF VARIETIES

ANJOU (Buerre d'Anjou)—Rather large, flesh yellowish-white, fine grained, melting, with a rich, excellent flavor. Good keeping qualities.

BARTLETT—One of the most popular sorts, both for home and market. It is large, handsome waxen yellow, with red blush; flesh buttery, rich and juicy, highly flavored. One of the best varieties for canning. Ripens in August and September.

CLAPP'S FAVORITE—Fruit handsome, large, long, yellow, spotted dull red where exposed to the sun; flesh fine-grained, juicy, rich, sweet flavored. It resembles the Bartlett. The tree is a vigorous grower, hardy and productive. Ripens in August.

DUCHESS D'ANGOULEME—This is the largest among our really good pears. The skin is a dull greenish-yellow; flesh white, melting, juicy and well flavored. The tree is a vigorous grower and a reliable bearer. A profitable market variety and fair for home use. Ripens in October and November.

FLEMISH BEAUTY—One of the best varieties of pears for the southwest, on account of its hardiness. The tree is a strong grower, an annual and abundant bearer, and is usually successful over a large range of country. The fruit is large; the skin pale yellow; the flavor is sweet and melting. Ripens in September and October.

KIEFFER—On account of the excellent keeping qualities it is one of the best and most profitable market varieties. Fine for canning or preserving. For commercial orchard it is undoubtedly one of the best. The trees are not troubled with scale and seldom fail to bear a good crop. Trees bear young. October and November.

SECKLE—This well known little pear has attained the rank of standard in quality on account of its rich delicious flavor; very popular for dessert. August and September.

SHELDON—A pear of the finest quality; rich and highly aromatic. The fruit is greenish russet with a red cheek; large size and somewhat flattened shape. Ripens in September.

PREPAID PRICES ON PEARS

Standard Pear Trees, 3-4 feet	\$0.65	\$2.98	\$5.48
Standard Pear Trees, 4-5 feet	.75	3.58	6.58

WEALTHY

The best money maker of its season. Bears early. Tree has proven hardy, vigorous and healthy. The fruit is a brilliant red, distinctly marked with narrow stripes and splashes of deeper red. The quality of the fruit is superb.

YELLOW TRANSPARENT

The earliest summer apple. The greatest home or market apple, the money-maker of summer apples, known to net over \$750.00 per acre annually. By many this is considered the best of all extra-early apples. It always brings the best prices.

CRAB APPLES TRANSCENDENT

This is the largest and best of the Siberian Crabs. The tree is extremely hardy, good grower, and usually very productive. The fruits are about one and a half to two inches in diameter. Bright yellow striped with red, flesh crisp, juicy and subacid. August to September.

WHITNEY

The tree is a hardy, thrifty, upright grower, and comes into bearing when young; it is a very productive variety. The flesh is yellowish, crisp, juicy and splendid for eating and cider. August and September.

4 to 5 feet	.50	4.25	10.00	30.00

PEARS

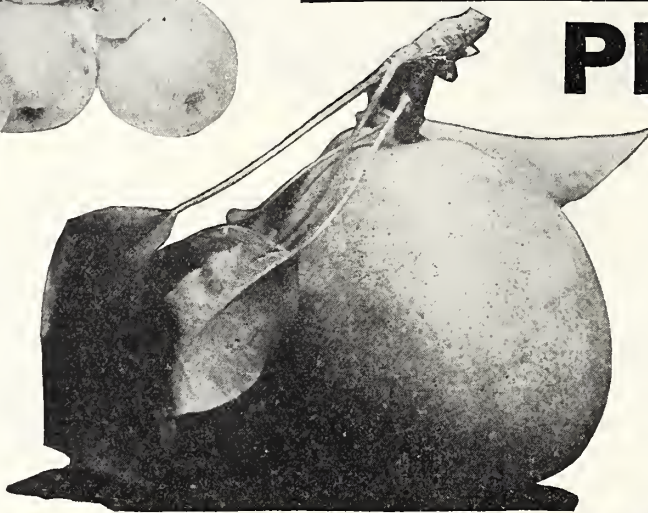

THE QUALITY FRUIT

The Pear is closely related to the apple and like the apple thrives on many soils. It is noted for its delicate, mild, sweet and delicious flavor, and the melting, buttery, juicy texture of the flesh, surpassing the apple in these respects.

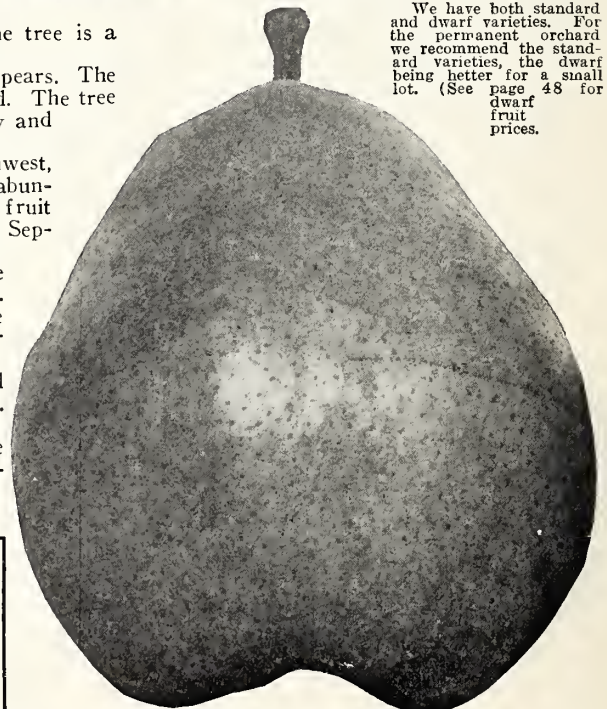

The Pear is a highly profitable fruit, and especially so in markets that pay for quality as well as looks. It is easily grown, being nearly free from insects and fungus diseases.

Our pear trees are of the finest quality for transplanting for they are well-developed, stocky trees. In the course of five years they will be bearing a fine crop of fruit.

We have both standard and dwarf varieties. For the permanent orchard we recommend the standard varieties, the dwarf being better for a small lot. (See page 48 for dwarf fruit prices.)

Sheldon

Duchess

PEACH TREES

The nature and quality of the Peach is so well and universally known that it needs no word of introduction or commendation from us. Its importance as one of the necessary luxuries of the home is keenly felt by every family and was never more emphasized than at the present when the scarcity and high prices put it beyond the reach of every one, who does not have his own trees.

Though peach growing is fast becoming a great industry and large numbers of trees are being planted, the supply is nothing like equal to the demand. Every one who owns a farm should plant a few peach trees for home use, or a larger number for commercial purposes. If he owns only his home he should plant a few trees in the back yard and produce peaches enough for his own family's use.

It is better to plant a few peach trees every year, in the home garden as the younger trees as a rule bear fruits of better quality and in that way you have trees coming into bearing each year. It is well to plant a good assortment of early, medium and late varieties thus insuring a long season of delicious fruit for canning, table or for market.

No difference whether few or many trees are planted, they are sure to pay large dividends.

All of our varieties are standard quality but we especially recommend to our patrons those we describe most fully, because we know that these varieties will give them the best returns.

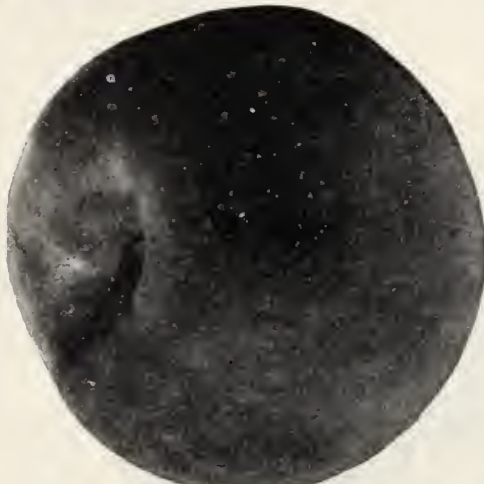

Champion

J. H. HALE

This remarkable peach, discovered as a chance seedling, by J. H. Hale, is a wonderfully fine peach, magnificent in appearance and delightful in flavor. The tree is enormously productive and the fruit is of larger size than the Elberta. Color a deep, golden yellow overlaid with bright carmine. Smooth, solid, thick skin, a peach without the fuzz, absolutely distinct in this respect, it stands in a class alone.

NEW PROLIFIC

Very popular market sort. Large yellow freestone. Flesh firm, juicy and fine flavor. September.

J. H. Hale

ROCHESTER

A yellow freestone variety having the exceptional merits of being early (ripening about Aug. 10), extraordinary sweetness and early bearing. Fruit is large, yellow, sweet, juicy and of delicious flavor; keeping and shipping well; skin prettily blushed. Tree is strong growing and hardy, an annual and prolific cropper.

PRICES OF FIRST CLASS PEACH TREES BY EXPRESS

2 to 3 ft., each, 28c; 5, 98c; 10, \$1.90; 25, \$4.50; 100, \$17.50.
3 to 4 ft., each, 33c; 5, \$1.45; 10, \$2.69; 25, \$6.25; 100, \$24.00.

QUINCES

LIST OF VARIETIES

CHAMPION—A strong, rugged exceedingly productive tree which begins to bear when two years old. The fruit is large, oval, of a rich color and excellent quality. It ripens late and keeps well until January.

APPLE or ORANGE—Large, round, bright golden yellow; cooks quite tender, and has an excellent flavor. Valuable for preserving and for market. An abundant bearer. One of the finest late varieties.

PRICE, QUINCE TREES BY EXPRESS

	Each	5	10
3 to 4 feet, by express.	\$0.85	\$4.00	\$7.50
4 to 5 feet, by express.	1.00	4.50	8.50

BELLE OF GEORGIA

A large freestone peach, a most excellent variety, ripens early and most attractive in color and shape, with a light red cheek. Flesh is white, firm and delicious; in all ways the quality is very fine.

CHAMPION

One of the finest freestone peaches. The fruit is large, creamy white, with a red cheek. The flesh is sweet, juicy, very high quality, and of excellent flavor. It is one of the showiest peaches in the market, is a good shipper and an excellent seller.

CARMEN

A fine market variety, being the first real freestone of the season. Large, yellowish white. Flesh is creamy white, is tender, rich and juicy.

CRAWFORD'S LATE—A very large yellow freestone of the finest quality. Ripens early in September.

ENGLE'S MAMMOTH—Late yellow freestone, resembles Crawford's Late, but is more productive. September.

ELBERTA

The old reliable peach, of which more are planted and from which more money has been made than from any other variety. The fruit is extra large; golden yellow, with brilliant shades of red; firm, juicy, rich and sweet. In fact it is the most popular of all the freestones. The tree is vigorous, sturdy—and hardy; thrives in widely different localities.

EARLY ELBERTA

Ripens about a week earlier than Elberta; otherwise the same, or a trifle better quality.

EARLY CRAWFORD

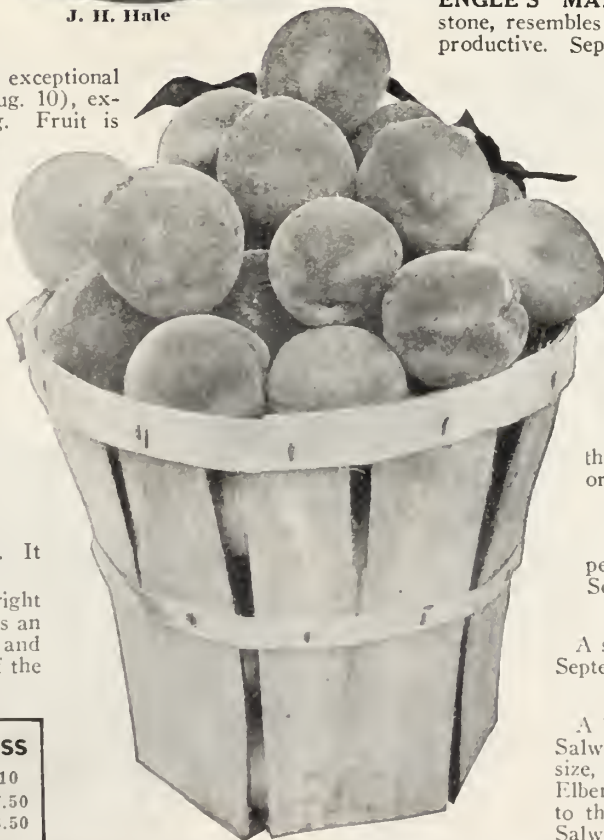

A magnificent large yellow peach of good quality. Early in September.

LATE CRAWFORD

A superb, large yellow peach. Late September.

SALBERTA

A highly successful cross between Salway and Elberta, conserving the size, quality and productiveness of Elberta for the more profitable two to three weeks later picking due to Salway's influence.

Elberta

CHERRY TREES

A good cherry orchard for commercial purposes is one of the most profitable ventures a farmer can undertake, because there is no other fruit so much in demand at such good prices. The trees are very thrifty and prolific, bearing large crops annually.

The fruit is easily picked and it is always in great demand in its season, brings prices amply sufficient to repay the investment and give fancy profits. No home orchard is complete without some cherry trees.

There is no fruit which makes more delicious preserves and housewives appreciate the value of a good supply of canned cherries for winter pies, puddings, and other desserts. Cherry trees are naturally hardy and are infected by fewer diseases than any other fruit tree. The so-called sour varieties are hardy, vigorous and frost resisting and are never troubled with scale but spraying is of course beneficial to the trees. They are easily grown wherever apples succeed, and are late bloomers.

Few trees will bear such an abundant amount of luscious fruit every year with as little expense. The trees succeed best when planted in sandy or gravelly loam; avoid low or wet ground.

Our cherry stock is the best selected varieties and as fine as can be produced. They are all budded on imported Mahaleb stock, which makes the best and longest lived trees.

GOVERNOR WOOD

The standard of quality among the sweet cherries. The large, light red fruit hangs well on the tree and does not rot easily. The fruit buds are hardy and the tree is a stout, healthy grower, and an abundant bearer. June.

YELLOW SPANISH

Large, handsome, sweet cherry with light red cheek, firm and delicious. Tree vigorous in growth and productive. Late June.

BLACK TARTARIAN

A beautiful, purplish cherry of superb quality, rich and juicy. This remarkable tree makes a beautiful erect growth. A prolific bearer. Late June and July.

DYEHOUSE

Bright, red, prolific bearer. The fruit is mildly sub-acid, excellent variety for canning, good shipper. Free and vigorous. Last of May.

LARGE MONTMORENCY

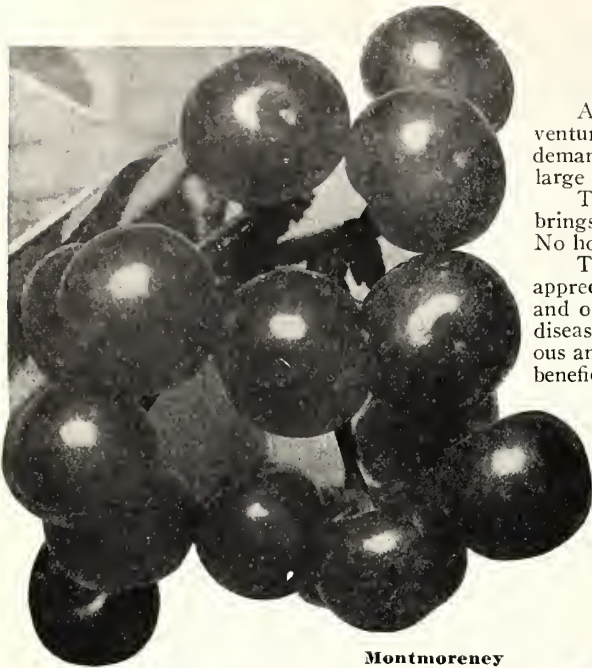

Several different strains come under this variety or name; all of them are good, but we consider this particular strain one of the very best of the sour cherries, and it should be largely planted in every orchard. The fruit is large, dark red, and handsome.

EARLY RICHMOND

Unsurpassed for cooking. The tree is a free grower and reliable producer. The fruit is medium, dark, red, juicy and has an acid flavor. June.

PREPAID PRICES ON CHERRY TREES

2 to 3 feet, each, 40c; 5, \$1.87; 10, \$3.60; 25, \$8.75. 2 year old, 3 to 4 feet, 65c each; 5, \$3.05; 10, \$5.48; 25, \$13.00; 2 year old, 4 to 5 ft., each 75c; 5, \$3.55; 10, \$6.55; 25, \$15.75.

Montmorency

PLUMS

A BEAUTIFUL AND ORNAMENTAL TREE FOR A CITY LOT

Plum trees often called the poor man's tree because they require so little room to grow and are always such prolific bearers. The market's demand for high grade plums is almost unlimited, and for dessert, cooking and canning no fruit is more delicious.

ABUNDANCE

A beautiful yellow, heavily overspread with purple-carmine; large to very large; the flesh is yellow, very juicy, sweet and quite firm; skin tough. The tree is a strong, thrifty grower, very hardy and prolific. The fruit stands shipping well to distant markets. July.

Early Richmond

BRADSHAW

Remarkably good early plum. This variety is a very large dark red. The flesh is yellow, juicy and good. A valuable market variety. The tree is an erect, vigorous grower. Middle of August.

GERMAN PRUNE

One of the oldest varieties. The tree is vigorous in growth and productive. Large, purple fruit that is firm, sweet and delicious. A freestone. September.

LOMBARD

A favorite for canning and culinary purposes. Of medium size, oval, violet-red. Flesh is yellow, juicy, pleasant and good. Adheres to the stone. Good market variety. The tree is strong and productive, bearing when quite young. Ripens late in August.

MOORE'S ARTIC

Purplish black plum with a thin bloom. Small to medium; flesh juicy, sweet and fine flavored. Healthy, regular and abundant bearer. August.

Moore's Arctic

REINE CLAUDE

Fine variety for canning. Fruit is large, roundish oval, greenish yellow, spotted with red; flesh yellow, juicy, rich, and of the finest quality.

SHIPPER'S PRIDE

A large, showy plum, frequently reaching a diameter of two inches. It is a dark purple in color of the Damson type. The flesh is sweet and firm. Good shipper. September.

YELLOW EGG

A beautiful yellow egg-shaped plum of the largest size, the flesh is yellow, and is somewhat coarse; always clings to the stone. This is an excellent variety for canning and always brings a good price on the market. The tree is a prolific bearer and a good grower. Late August.

DWARF FRUITS

The dwarf fruits are not nearly so common or well known as they are in Europe or as they should be here. The fruits are just the same as on the standard varieties. The only difference is, the trees or plants do not take so much room as many of them may be trained on the fence, or even along the side of the building if necessary. They also come into bearing much earlier than the standard sorts. It is possible to plant three to five hundred dwarf trees on a quarter of an acre of ground, where less than a dozen standard varieties would flourish. The dwarf fruit trees also work more readily into a scheme of more or less ornamental gardening, where fruits are combined with flowers, especially if some sort of formal gardening is attempted. The cordon, espalier and pyramids exactly suit these demands.

DWARF APPLES

Dwarf Apples are produced by grafting the variety desired onto the dwarf parasite stock, raised for this purpose. Plant one-year-old trees. They will develop into any shaped tree you wish to train them and will produce the fruit in a very few years. In fact, one-year-old trees often produce fruit in the nursery rows the second year.

DWARF APPLE TREES—3 to 4 feet, 55c each; 4 for \$2.00. Prepaid.

VARIETIES—Jonathan, Wealthy, Wolf River, Red Astrachan, Baldwin, Fallawater, Early Harvest, Delicious, Rome Beauty, Yellow Transparent, Grimes Golden. Plant in spring or late fall, 6 to 8 feet apart.

DWARF CHERRIES

We are able this year to furnish the Dwarf Cherry, which is a very welcome addition to our list. The Dwarf Cherry makes a beautiful compact small tree that is very ornamental. They bear very early in life and their fruit is of an exceptional high quality. All dwarf fruits are becoming more popular each year because they are so well adapted to the small city lot. Dwarf Cherries can be planted about ten feet apart and they make a beautiful hedge.

DWARF CHERRY TREES—Two-year-old, 3 to 4 feet, 75c each; 5 for \$3.50. Prepaid.

VARIETIES—Montmorency and Early Richmond.

DWARF PEARS

The Pear is very profitably grown as a "dwarf." These pears differ from the standards inasmuch as they are propagated on a quince root, which makes it slow growing and dwarfish. The fruit is the same in either case. The quality and appearance of the fruit will convince anyone that they are excellent to plant.

DWARF PEARS—Select trees, 2 and 3 years old, 3 to 4 feet, 55c each; 4 for \$2.00. Prepaid.

VARIETIES—Duchess, Kieffer, Flemish Beauty, Clapp's Favorite. Plant spring and fall, 8 to 10 feet apart.

DWARF PEACHES

For quick bearing fruits we have nothing that will equal a Dwarf Peach Tree. They are very beautiful when in bloom and give the appearance of a tall shrub rather than a tree. They are very good bearers of a high quality fruit. Just the thing for tall screens or for backgrounds in your shrubbery planting.

DWARF PEACHES—One-year-old trees, 3 to 4 feet, \$1.00 each; 4 for \$3.00. Prepaid.

VARIETIES—Elberta and Rochester.

MAKE MONEY BY GROWING

YOUNGBERRIES

The Youngberry has achieved the greatest success ever scored by any of the berry family. It not only bears very heavily, but the fruit is easy to handle, is very attractive, ships well, keeps well, cans well, and has so many commercial possibilities, and fits in so well in the home garden, that everybody should be interested in having a few vines or a commercial planting.

The Youngberry (Young Dewberry) is the result of the careful and patient efforts of Mr. Young in crossing the phenomenal (Loganberry) and the Texas Dewberry. He has given the world its choicest bush berry with characteristics in size, appearance, flavor and general usefulness that have opened new possibilities in berry culture.

QUALITY COUNTS AND MAKES THEM SELL

Youngberries are universally liked and easily grown. They are among our largest berries of dark wine color, have a minimum of seeds, are highly flavored, and yield a rich looking, cherry colored juice. In the home garden you will find that more fruit will be produced from a few Youngberry bushes than most any other that will grow in the same amount of space.

Youngberries thrive where any other bush fruit grow but do best in states the same latitude as Ohio and South.

20,000 BASKETS TO THE ACRE

The Youngberry has been tested and for three seasons the yield has been measured at 20,000 boxes per acre.

Figure it out for yourself. Growers received 10 to 12½ cents per basket at roadside stands. At only 5 cents per box the return is \$1,000 per acre.

The Youngberry thrives in California, throughout the Coastal states, and in all other berry growing climates.

On account of the size of the berries much labor cost is saved in picking. The high production per acre from the prolific vines, low picking costs and the Youngberry's steady acceptance by the market, all indicate that Youngberry growing has large and dependable commercial possibilities. And any home garden grower will find that more fruit will be produced from a few Youngberry bushes than most anything else that will grow in the same amount of space.

BIG CANNING COMPANY TESTS YOUNGBERRIES

One of the largest nationally known canning companies made a test run on Youngberries and pronounce them superior in color, flavor and richness of juice. When quantity production is reached the canners will be glad to get them.

Price, 25c each; \$2.00 per dozen, prepaid. \$12.00 per 100 by express not prepaid.

YOUNGBERRY

FINE GRAPES

AT PREPAID PRICES

One of the most satisfactory crops that can be grown because it can be depended upon practically every year, and can be grown almost any where, but to produce the finest specimens, they should be cultivated and pruned.

AGAWAM—Deep red or maroon. The large meaty berries which are borne in extra large, loose-shouldered bunches, are juicy and of a delightful aromatic flavor. Ripens about with Concord or a trifle later. Vine a strong healthy grower. 1 year, each 20c; doz., \$2.15; 2 years, each, 25c; dozen, \$2.50. Prepaid.

BRIGHTON—This variety has been regarded as the highest in quality of all hardy grapes. The berries are wine red, like Caco, but not so large though the bunch, if anything, is larger. Ripens in midseason. 1 year, each, 20c; dozen, \$2.15. 2 year, each 25c; dozen \$2.50. Prepaid.

CONCORD—From sheer merit the Concord has become the most popular grape in the United States. Taking the country as a whole, more Concords are now in bearing than of any other variety. No other grape succeeds over such a wide area or in so many different soils. It is the standby in grapes. New varieties may come, but they have to work hard to reach the Concord standard for market purposes. Matures early, keeps well, ships well and sells well. Bunches big, berries are juicy, sweet and delicious. Concord overcomes local grape troubles and is safe to plant. Price, 1 year, each 20c; dozen, \$2.25; 100 for \$10.00. 2 year, each, 25c; dozen, \$2.75. Prepaid.

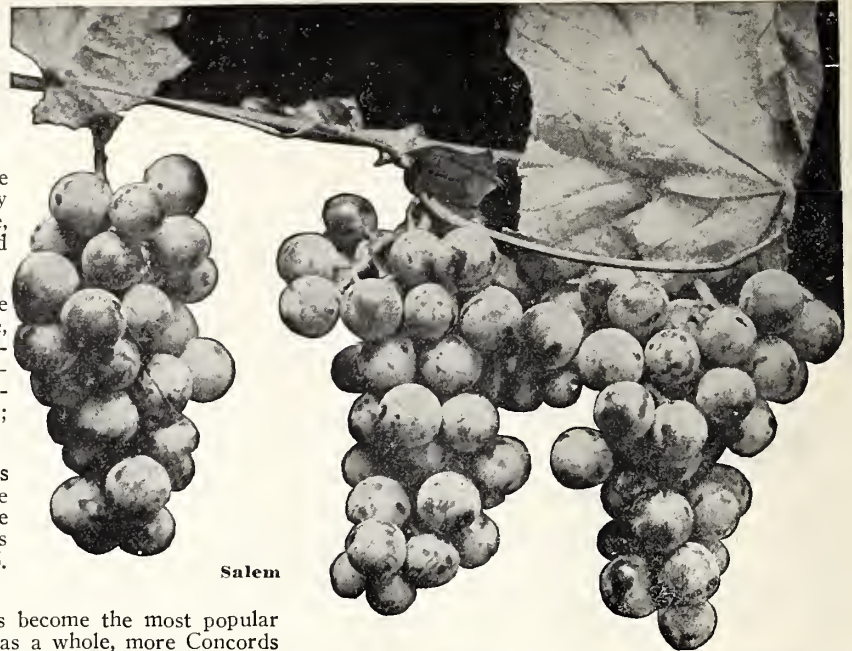

CATAWBA—If you asked some of the big Grape growers "Which is the best red variety?" the answer would be "Catawba." There would be good reasons for the answer too. It is last to ripen; the bunch and berries are large; the flesh is juicy, pulpy, and possesses a delightful sugary flavor. Price, 1 year, each, 20c; dozen, \$2.15. 2 year, each, 25c; dozen, \$2.50. Prepaid.

MOORE'S EARLY—The most reliable very early variety and is proving immensely profitable to commercial growers. Medium bunch, berry large, jet black with purple bloom, ripens fully two weeks earlier than Concord. 1 year, each, 20c; dozen, \$2.25. 2 years, each, 25c; dozen, \$2.75. Prepaid.

NIAGARA—The standard white Grape. Both bunch and berries are large to very large, handsome, and well formed. The flesh is firm, juicy, without much pulp; flavor is of the very best, and does not resemble any other sort. The vine is hardy, vigorous and extremely productive. Frankly speaking, it is hard to describe Niagara, so numerous are its points of superiority. The best way is to try some yourself. Plant the vines anywhere. Do it this year. Price, 1 year, each, 20c; dozen, \$2.25. 2 years, each, 25c; dozen, \$2.75. Prepaid.

WORDEN—A black grape that resembles Concord closely but with more tender pulp, higher quality, and ripens a week to ten days earlier. It is also a little larger in both bunch and berry than the Concord. 1 year, each, 20c; dozen, \$2.25. 2 years, each, 25c; dozen, \$2.75. Prepaid.

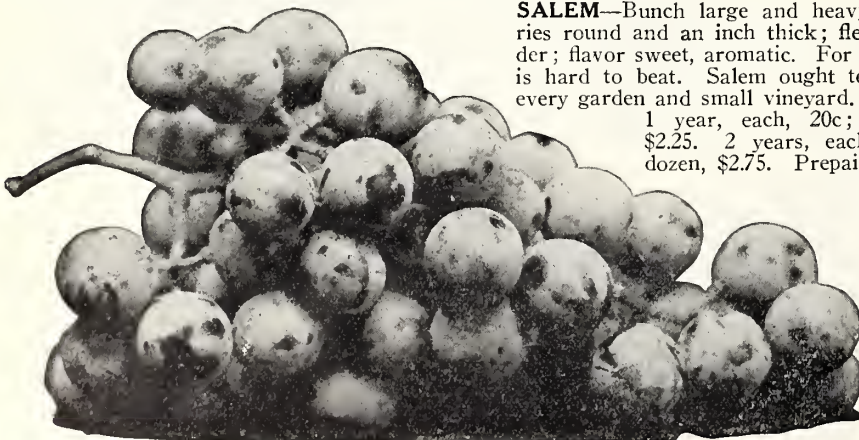

POCKLINGTON—A very handsome Grape of extra large size. Bunch large and compact; flesh juicy with considerable pulp; flavor sugary, and delicious. Vines are extremely healthy and hardy. Pocklington is perhaps the most beautiful Grape in cultivation. Price, 1 year, each, 20c; dozen, \$2.25. 2 years, each, 25c; dozen, \$2.75. Prepaid.

Salem

Worden

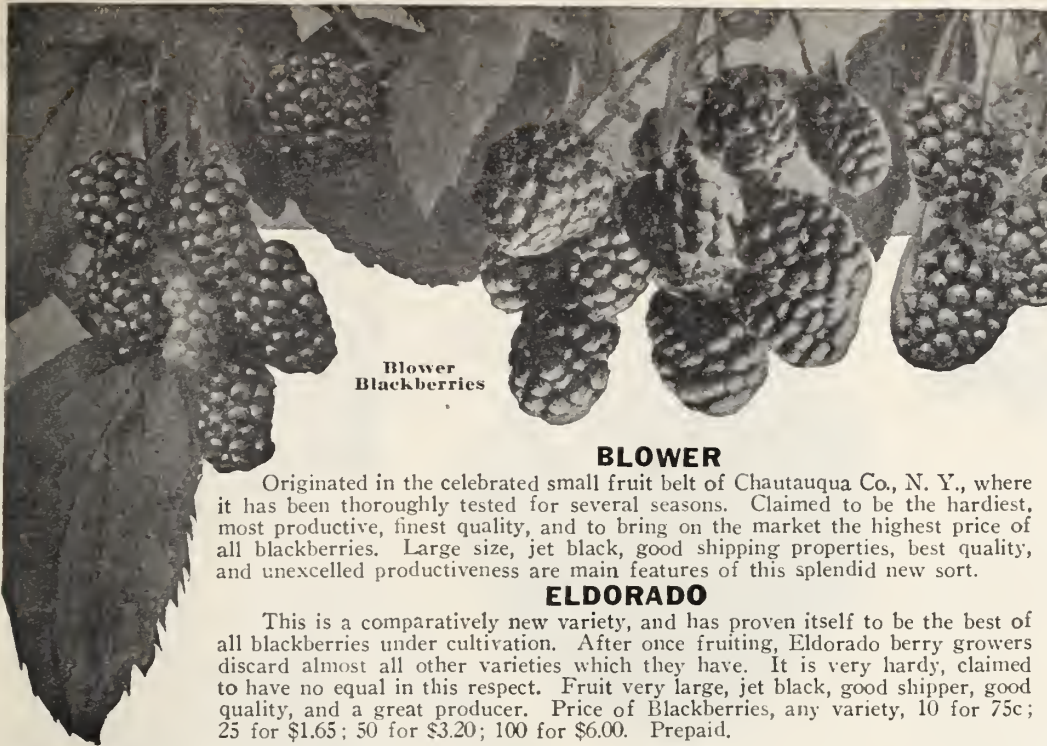

Concord

SALEM—Bunch large and heavy; berries round and an inch thick; flesh tender; flavor sweet, aromatic. For table it is hard to beat. Salem ought to be in every garden and small vineyard. Price, 1 year, each, 20c; dozen, \$2.25. 2 years, each, 25c; dozen, \$2.75. Prepaid.

**Blower
Blackberries**

BLOWER

Originated in the celebrated small fruit belt of Chautauqua Co., N. Y., where it has been thoroughly tested for several seasons. Claimed to be the hardiest, most productive, finest quality, and to bring on the market the highest price of all blackberries. Large size, jet black, good shipping properties, best quality, and unexcelled productiveness are main features of this splendid new sort.

ELDORADO

This is a comparatively new variety, and has proven itself to be the best of all blackberries under cultivation. After once fruiting, Eldorado berry growers discard almost all other varieties which they have. It is very hardy, claimed to have no equal in this respect. Fruit very large, jet black, good shipper, good quality, and a great producer. Price of Blackberries, any variety, 10 for 75c; 25 for \$1.65; 50 for \$3.20; 100 for \$6.00. Prepaid.

SELECT BLACKBERRIES

The Blackberry thrives well in almost any soil but to reach perfection demands a strong loam tending towards clay, rather than sand. Planting is best done in the spring. The pruning of the blackberry is not a difficult task, yet success depends upon the proper method. Pinch back canes when 3 or 4 feet high. It is best not to allow more than 3 or 4 canes to a hill.

AGAWAM

Fruit medium size, jet black, sweet and tender to the core; a valuable variety for home use, being sweet as soon as black.

SNYDER

Very hardy, great producer, medium size, one of best known varieties, succeeding wherever planted. Over-production is its greatest fault.

BEST RASPBERRIES

LATHAM

(Everbearing). Has proved to be the very best of all the everbearing sorts, for most sections. It is a splendid strong growing kind, and produces immense quantities of bright red extra large berries from June until freezing weather. Price, 10 for 65c, 25 for \$1.50, 50 for \$2.75. Prepaid.

GREGG

Known for many years by more people than is any other raspberry on the market. Large, showy, black, firm, and will ship well. Hardy, vigorous grower. Ripens about midseason.

KANSAS

Plants are strong, vigorous grower, will stand extremes of drought and cold weather and still bear large crops. These will grow with less care than any others of the "tip" varieties.

CUMBERLAND

The fruit is large, dark, crimson, firm, sweet, rich, highly firm, a good shipper, and one of the most profitable as a market berry. Very choice black cap.

ST. REGIS

This new raspberry of recent introduction stands in a class alone. It will produce fruit from June until the berries freeze in the fall or early winter. The fruit begins to ripen very early and continues on the new canes throughout the remainder of the summer and fall months. Berries are a bright crimson, good size, rich, sugary, with excellent raspberry flavor. Flesh firm and meaty, a good shipper. Canes stocky of strong growth, with an abundance of dark green leathery foliage. St. Regis is a heavy bearer and has proven one of the most profitable of the red varieties, also a producer of fruit during the summer and fall.

PRICES:

**ALL VARIETIES EXCEPT
LATHAM**

10 for 60c; 25 for \$1.30; 50 for
\$2.60; 100 for \$5.00.
Prepaid.

LUCRETIA DEWBERRIES

The fruit is very large and always at a premium with the commission men or the open market. If they are planted where they can be cultivated, they should be plowed and in the winter a coarse litter of mulch thrown over them. The vines will grow up through this and keep the fruit from the ground. We are only offering one variety which is considered the best of all Dewberries now in cultivation. Fruit of high quality and very large, often one or two inches long and one inch in diameter. Perfectly hardy and a great bearer. 10 plants for 65c; 25 for \$1.45; 50 for \$2.80. Prepaid.

CARDINAL

One of the most vigorous growers and one of the hardiest of all the raspberries. In fact, it is considered one of the very best purple berries. The best proof of this is that nearly all growers discard the other purple varieties after the Cardinals are once established. They produce a fine quality of dark red or almost purple berries through a long season. Of very fine quality for family use.

CUTHBERT

Considered the queen of the market, as they bring a higher price on the market than any other of the red raspberries. The fruit is large, dark, crimson, firm, sweet, rich, highly flavored and as beautiful as strawberries. This is one of the hardiest of the red raspberries and endures the extreme northern climates or the southern summers with equal vigor and productiveness.

Cumberland Raspberries

SPRING HILL NURSERIES, TIPPECANOE CITY, OHIO.

BEST STRAWBERRIES

Plant in spring—always the best time. Generous supply of well-rotted manure is a great benefit. Protect plants when received from nursery; never allow roots to be exposed to the sun or wind. Plant in rows four feet apart and eighteen to twenty-four inches apart in row. Crown of plant should never be below surface of ground.

Aroma

LIST OF VARIETIES

AROMA (Per.)—One of the finest for long-distance shipping. The large berries are bright red to the center. Of conical shape, with prominent yellow seeds that help to make them very attractive on the market. The quality is such that it is a leader with many growers.

DR. BURRILL (Per.)—A well-known variety that has proven very successful wherever planted. Produces immense quantities of large, very fine deep red berries that have a delightful flavor. The bright yellow seeds make a fine color contrast with the beautiful red fruit. This is one variety that has been a favorite in most all of the states east of the Rocky Mountains and also on the Pacific Coast. The foliage of this variety is very large; the fruit stems strong and erect, holding the large berries well off the ground. We can freely recommend this as being one of the very best berries.

GANDY (Per.)—Another old favorite. Its popularity, instead of decreasing, is steadily increasing. The fruit is dark red with dark red seeds. A very late berry that does best on a heavy clay soil. Considered one of the best by shippers.

SENATOR DUNLAP (Per.)—The demand for this variety has been increasing steadily, as it has an unusually long fruiting season. It bears immense quantities of large, handsome, rich, fine-flavored, dark red berries, which are uniform in size and shape and very attractive in appearance. The demand for this variety among fruit growers shows that it is coming to the front as one of the best.

PRICES

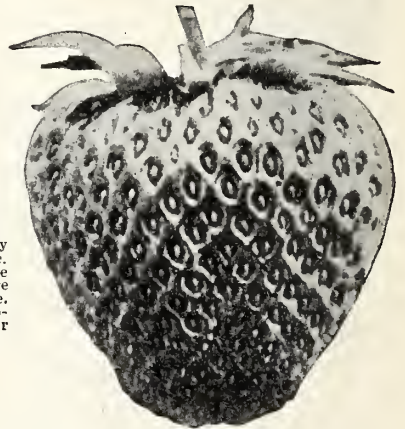

Sold only in multiples of 25. Price., 25 for 60c; 100 for \$1.25; 250 for \$2.90; 500 for \$5.75; 1,000 for \$11.00. Prepaid.

Dr. Burrill

Gandy

Senator Dunlap

EVERBEARING SORTS

CHAMPION—A new Everbearing variety which very closely resembles Progressive. In manner of growth it is identical with the Progressive except that the fruit stems are more erect and less hidden by the foliage. It also makes more runners than the Progressive. 25 plants for \$1.00; \$3.00 per 100. Prepaid.

NEW MASTODON STRAWBERRIES

PRODUCES HEAVILY THE FIRST SEASON

Mastodon, the great strawberry found in Indiana a few years ago, has stood the test in every section of the United States this season. It is now widely distributed and favorable reports come in from everyone who has grown it. Here is a new giant everbearing that will start to produce an abundance of good fruit within three months after planting and continue to bear fruit until frost. The Mastodon has proven itself far superior to other everbearing varieties in many ways.

1. Fruit is almost double the size of the common everbearers.
2. Produces a heavy crop in the spring and another in late summer and early fall.
3. Other everbearers yield only a fair crop in the spring.

PRICE ON MASTODON STRAWBERRY

25 for \$1.20; 100 for \$3.25. 500 for \$12.00; 1,000 for \$22.00. Prepaid

RHUBARB

Plants, 10c each; 10 for \$1.00; 100 for \$7.50. Prepaid.

LINNAEUS—Leaf-stalks long, large, tender, juicy, produced quite early. Cellar-grown rhubarb with beautifully pink, tender stalks may be enjoyed in March by anyone who will devote a little time to it. In the fall a number of roots are packed together with rich soil in some cool, dark cellar. After the crop has been cut, the roots are replanted in the garden to regain their vigor for the next year's forcing.

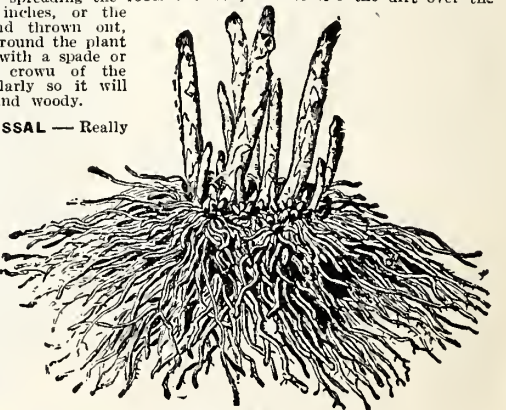

ASPARAGUS PLANTS

Price, 25 for \$1.00; 100 for \$3.00; 1,000 for \$11.00. Prepaid.

It is not necessary to tell the good qualities of the Asparagus, as it is known to everybody. Dig up the ground deep, put on plenty of well-rotted manure, thoroughly mixed in the soil, throw out a bed about four to five inches deep, lay the plants in by spreading the roots out well, and scatter the dirt over the plants about four inches, or the depth of the ground thrown out, press the dirt well around the plant by patting it down with a spade or shovel. Keep the crown of the Asparagus cut regularly so it will not get too large and woody.

CONOVER'S COLOSSAL—Really colossal. Deep green shoots from one to two inches in diameter are sent up thickly from the crowns.

PALMETTO—In large markets this Asparagus brings the highest prices on account of the size, and beautiful appearance of its stalks. Some years it is on the market several days before other varieties.

Asparagus

Mastodon Strawberries

VEGETABLE SEED DEPARTMENT

GREEN POD AND WAX BEANS

Carrot
Chantenay

Golden
Wax Beans

Early Jersey Wakefield Cabbage

CABBAGE

HOLLANDER OR HALLHEAD—The heads are of medium size and very solid. They average in weight nearly 8 pounds. They are just as solid in the spring as when put away in the fall. Pkt., 5c; 1 oz., 35c; ¼ lb., 95c. Prepaid.

EARLY JERSEY WAKEFIELD—This is the earliest and hardest heading of the early varieties and should be depended upon for the first crop. Our seed is selected, choice stock. Pkt., 5c; 1 oz., 30c; ¼ lb., 85c. Prepaid.

PREMIUM LATE FLAT DUTCH—This is considered to be the best of the late standard varieties. It is a sure header, good keeper. Pkt., 5c; 1 oz., 35c; ¼ lb., 85c. Prepaid.

BURPEE'S BUSH LIMA—This is the earliest of the bush Limas. It is a tremendous yielder, grows only 18 inches high. Excellent quality. Big packet, 10c; ½ lb., 30c; 1 lb., 50c; 5 lbs., \$2.25. Prepaid.

BURPEE'S STRINGLESS GREEN POD—This is the best stringless green pod variety in existence. It is well flavored, a great yielder. Big packet, 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85. Prepaid.

PENCIL POD BLACK WAX—A very fine wax bean of true bush growth, bearing an enormous crop of pods, the beans measure 6 to 7 inches in length. Early maturing of a bright golden yellow color. Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.60. Prepaid.

FORDHOOK BUSH LIMA—This new dwarf form of the Potato Lima grows stiffly erect, bearing the pods well above the ground. The pods measure 4 to 5 inches and are juicy and sweet in flavor when cooked. Pkt., 15c; ½ lb., 30c; 1 lb., 55c. Prepaid.

CROSBY'S EGYPTIAN—One of the most popular varieties with gardeners because of its fine shape and beautiful dark red, almost black color. This variety matures before any other. Packet, 5c; 1 ounce, 15c; ¼ lb., 50c. Prepaid.

DETROIT DARK RED—An ideal beet for home use. Is a heavy yielder and fine keeper. Grows to uniform size. Is ideal for pickling. Price: Packet, 10c. 1 ounce, 15c; ¼ lb., 45c. Prepaid.

EARLY BLOOD—A globe-shaped beet, fine for early spring crop, flesh tender, rich and crisp. This variety has coarse tops and is one of the best. Packet, 5c; 1 ounce, 15c; ¼ lb., 50c. Prepaid.

BEETS

CARROTS

CHANTENAY—Rich orange color; flesh crisp, tender and of an extra delicious flavor. Packet, 5c; 1 oz., 20c; ¼ lb., 50c. Prepaid.

DANVERS HALF LONG—An excellent table carrot of uniform size, about 6 inches long. Flesh is a rich orange color throughout. Pkt., 10c; 1 oz., 20c. Prepaid.

GUERANDE or OX HEART (75 days)—Short, chunky variety; flesh is a bright orange color, fine grained and of good flavor, a favorite. Packet, 5c; 1 oz., 15c; ¼ lb., 55c. Prepaid.

CAULIFLOWER

EARLY SNOWBALL (90 days)—Earliest sure to head; if seed is sown in March, large heads produced early in June. Good variety for forcing. Pkt., 10c; ¼ oz., 80c. ½ oz., \$1.50. Prepaid.

DRY WEATHER OR DANISH GIANT (100 days)—Late variety, drought resister, sure heads, best for pickling. This variety withstands dry weather better than any other sort; heads large, very solid, snow-white, and of the most delicate flavor. Pkt., 10c; ¼ oz., 80c; 3-4 oz., \$1.50. Prepaid.

CELERY

WHITE PLUME—One of the earliest and quickest growing varieties and the most crisp of all. It has white feather-like plumage making it a great table ornament. Price: Packet, 5c; ½ oz., 40c; 1 oz., 75c. Prepaid.

GOLDEN SELF BLANCHING—This is the finest quality seed and as its name implies it is entirely self blanching. The stocks are a rich golden color, stringless and of the finest flavor. Price: Packet, 10c; ½ oz., 60c; 1 oz., \$1.00. Prepaid.

SWEET CORN

GOLDEN BANTAM—Flavor is exceptionally sweet. Big packet, 10c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$2.00. Prepaid.

STOWELL'S EVERGREEN—This is an old popular variety, hardy, productive, tender and sugary. Big packet, 10c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$2.00. Prepaid.

COUNTRY GENTLEMAN—This is sometimes known as shoe-peg from the small peg-like kernels, irregularly placed on the cob. Big pkt., 10c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$2.00. Prepaid.

Long
Green Cucumber

Beet Detroit
Dark Red

CUCUMBER

IMPROVED LONG GREEN—When mature will measure 12 inches in length. Pkt., 10c; 1 oz., 25c; ¼ lb., 50c. Prepaid.

CHICAGO PICKLER—Best known pickling variety. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c. Prepaid.

IMPROVED WHITE SPINE (55 days)—Rich green, very productive continuous bearer. Pkt., 5c; 1 oz., 15c; ¼ lb., 45c. Prepaid.

EARLY FORTUNE—Vines very generous and disease resisting. Pkt., 5c; 1 oz., 20c; ¼ lb., 60c. Prepaid.

MUSKMELON

BENDERS SURPRISE—The Bender melon ripens medium early. Flesh deep orange color, very thick, deliciously sweet and of high flavor. These melons will keep a week after picking and will stand shipping better than any other variety of melon. Pkt., 10c; 1 oz., 25c. ¼ lb., 70c. Prepaid.

OSAGE—Perhaps the most popular salmon fleshed variety grown; very thick and meaty, excellent sweet flavor. Pkt., 5c; 1 oz., 15c; ¼ lb., 55c. Prepaid.

HONEY DEW—New melon, has become very popular. About 10 inches long, 8 inches diameters; very sweet. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c. Prepaid.

TIP TOP—Very productive melon, medium to large size, nearly round. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c. Prepaid.

Benders Surprise Muskmelon

VEGETABLE SEEDS—Continued

ONIONS

SOUTHPORT WHITE GLOBE—This variety gets highest market price. Good shaped with clear white skin. Price, big pkt., 10c; 1 oz., 30c; ¼ lb., \$1.00. Prepaid.

DANVERS YELLOW GLOBE—A well known and standard variety, heavy cropper and excellent keeper. Will ripen early, very firm and solid. Big pkt., 5c; 1 oz., 25c; ¼ lb., 90c. Prepaid.

PRIZETAKER (100 days)—The largest but also latest maturing. A yellow, American onion, globular in shape with light yellow color. Big pkt., 5c; 1 oz., 25c; ¼ lb., 90c. Prepaid.

PARSNIPS

HOLLOW CROWN (85 days)—The roots are very long and end abruptly with a tapped root. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c. Prepaid.

PEPPERS

MAMMOTH RUBY KING—The blocky almost scarlet fruits average 4½ ins. in length. Pkt., 5c; ½ oz., 35c. Prepaid.

CHINESE GIANT—The largest of all the peppers. Grows from four to five inches across. Fruits are of a thick, chunky form. Fine for stuffing. Pkt., 5c; ½ oz., 35c. Prepaid.

EGG PLANT

BLACK BEAUTY—This is a very handsome early and prolific variety. The fruit matures very early and very beautiful. Pkt., 10c; 1 oz., 45c; ¼ lb., \$1.25. Prepaid.

NEW YORK IMPROVED PURPLE—The fruit of this variety is remarkably large, often weighing from 5 to 6 lbs. The skin is deep purple. Pkt., 5c; ½ oz., 40c; 1 oz., 70c. Prepaid.

WATERMELONS

HALBERT HONEY—A medium early melon and can be successfully raised in the northern states. One of the best for home use. Pkt., 5c; oz., 10c; ¼ lb., 25c. Prepaid.

KLECKLEY'S SWEET—Skin is rich dark green and the flesh is a bright scarlet and ripens very close to the end. Pkt., 5c; 1 oz., 15c; ¼ lb., 45c. Prepaid.

COLE'S EARLY—The flesh is bright red, crisp, sweet and of fine flavor, but solid. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c. Prepaid.

SQUASH

HUBBARD—This is a favorite because of its many good qualities. Bakes or boils dry and is very sweet. An excellent market variety. Pkt., 5c; 1 oz., 15c; ¼ lb., 65c. Prepaid.

RADISH

CINCINNATI MARKET—Very fine extra early variety bright red and transparent. Has long smooth root. Packet, 5c; 1 oz., 15c; ¼ lb., 45c. Prepaid.

WHITE ICICLE—This radish grows about 4 inches long, transparent white with short leaves. Packet, 5c; 1 oz., 15c; ¼ lb., 45c. Prepaid.

SCARLET GLOBE—This is the most quickly matured variety. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c. Prepaid.

SCARLET TURNIP WHITE TIP—An early variety. The best of the round varieties. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c. Prepaid.

CHINA ROSE OR SCARLET CHINA—Of medium size, 4 to 5 inches long. Free from any hard fibre or strings. Easily stored for winter. Pkt., 10c; oz., 20c; 4 oz., 45c. Prepaid.

FRENCH BREAKFAST—Extremely early, olive shaped, scarlet with white tip. Crisp when young. Pkt., 5c; oz., 10c; ¼ lb., 25c; ½ lb., 85c; 5 lbs., at \$3.75. Prepaid.

SALSIFY

SANDWICH ISLAND—Often called the oyster plant and is one of the most delicious and nutritious of vegetables. Look something like parsnips. Pkt., 5c; 1 oz., 35c. Prepaid.

Lettuce
Big Boston

LETTUCE

BLACK SEEDED SIMPSON—The best known and perhaps the most used of any other variety of leaf lettuce. It is very early and hardy with thick curly and very tender leaves. Pkt., 5c; 1 oz., 15c; ¼ lb., \$1.00. Prepaid.

GRAND RAPIDS—One of the best forcing varieties, but will do equally well outdoors. Similar to the Black Seeded Simpson only the leaves are more crimped and curled. Price, Pkt., 5c; 1 oz., 15c; ¼ lb., 90c. Prepaid.

BIG BOSTON—The most popular variety of head lettuce both North and South. Heads are large and compact, light green with slightly ruffled edges. Pkt., 10c; 1 oz., 20c; ¼ lb., \$1.20. Prepaid.

PRIZE HEAD—Color bright green, is tinged with brownish red. It is of superb flavor, tender and hardy. Pkt., 5c; 1 oz., 15c; ¼ lb., 90c. Prepaid.

KOHL RABI

EARLY WHITE VIENNA—A useful cousin of the cabbage, in flavor very much like a turnip. Pkt., 5c; 1 oz., 30c; ¼ lb., \$1.00. Prepaid.

LARGE GREEN CURLED—Endive is very useful as a salad late in the year. Leaves are also eaten boiled and are very good. Price: Pkt., 5c; 1 oz., 15c. Prepaid.

PEAS

LITTLE GEM—This is an extra early, wrinkled pea, grows about 15 inches high and is a prolific bearer. Big pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85. Prepaid.

FIRST AND BEST—The pods of this variety are filled with round, smooth peas of excellent flavor. Grows to the height of 2½ ft. Big pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85. Prepaid.

MAMMOTH MELTING SUGAR—This is the best known edible podded pea. The vines reach a height of 6 to 7 feet. They are broken in pieces the same as stringless beans and make a delicious dish. Pkt., 10c; ½ lb., 35c; 1 lb., 50c. Prepaid.

AMERICAN WONDER—Early wrinkled pea, growing up to 12 inches high and producing well filled pods of the finest flavor. Big packet, 10c; ½ lb., 30c; 1 lb., 55c; 5 lbs., \$2.50. Prepaid.

TELEPHONE—Pods are 4 to 5 inches long with a fine quality of peas. Grows to a height of about four feet. Price: Big pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85. Prepaid.

TURNIPS

PURPLE TOP STRAP LEAVED—One of the most popular sorts. It is purple or dark red on top with a white base. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c. Prepaid.

EARLY SNOWBALL—This pure white variety that is very popular, is considered one of the best white early turnips grown. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c. Prepaid.

PURPLE TOP WHITE GLOBE—This is the most popular turnip grown. Of globular shape. It is early, of rapid growth and an excellent keeper. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c. Prepaid.

PARSLEY

DWARF MOSS CURLED—A compact growing and beautifully curled variety, to be used for either outdoors or greenhouse culture. Pkt., 5c; oz., 15c; ¼ lb., 60c. Prepaid.

POP CORN

PERFECTION—A new variety of the Rice Pop Corn; matures very early, medium rice size, kernels deep flesh white; very prolific and of excellent quality. Pkt., 5c; ½ lb., 20c; 1 lb., 35c. Prepaid.

PUMPKINS

SUGAR OR PIE—This is a handsome and very prolific variety, good keeper, sweet in taste. Pkt., 5c; oz., 15c; ¼ lb., 35c. Prepaid.

JAPANESE PIE—A crook-necked variety, deep green with darker stripes, which turn to a rich golden yellow. Pkt., 10c; oz., 20c; ¼ lb., 50c.

SPINACH

BLOOMSDALE—Leaves are crumpled and very hardy. Pkt., 5c; oz., 15c. Prepaid.

TOMATOES

JOHN BAER—Grows to a very large size, free from core and is an attractive bright red. Pkt., 10c; oz., 40c; ¼ lb., \$1.25. Prepaid.

PONDEROSA—In addition to its enormous size this tomato is very solid as it has but few seeds. Pkt., 10c; oz., 60c; ¼ lb., \$2.00. Prepaid.

SPARK'S EARLIANA—Remarkable for its earliness, large size. Leading early market variety. Pkt., 10c; oz., 40c; ¼ lb., \$1.25. Prepaid.

STONE—Fine tomato for main crop, for market or canning. Fruit perfectly smooth, of a beautiful red color and very large. Pkt., 10c; oz., 40c; ¼ lb., \$1.25. Prepaid.

FLOWER SEEDS

Everybody loves flowers and we honestly believe that in no other way can you procure as much flower pleasure and satisfaction, and at such a trifling cost as you can be ordering seeds from this department.

ANTIRRINUM (SNAPDRAGON)

An exquisite showy hardy perennial, that is living for a second and third year, blooming in July if sown early and then on until killed by frost. Among the most showy and brilliant border plants; succeeds in any good garden soil. By cutting off most of the flowering stems and giving a slight protection over Winter, plants will bloom second Summer for four months. Try a few this way. For cut flowers with stems kept in water, Snapdragons retain their fresh appearance for ten days, and in this particular they are very valuable as table decorations. Very easy to grow. Prepaid.

TALL ROSE, Pkt., 10c; TALL YELLOW, Pkt., 10c; TALL SCARLET, Pkt., 10c; TALL WHITE, Pkt., 10c; TALL PINK, Pkt., 10c; TALL, LARGE FLOWERED, MIXED, Height, 18 inches. Red, Rose, Yellow, Scarlet, Pkt., 10c. Prepaid.

SWEET ALYSSUM

A fine old fashioned flower appreciated by everyone, especially by those requiring a good pure white edge to their garden or a good plant for rock work or hanging baskets. Price, pkt., 5c; 3 pkts., 10c. Prepaid.

BACHELOR'S BUTTON

They bear their artistic flowers on long stems and will last a long time after being cut making it an ideal plant for cut flowers. Price: Pkt., 5c; 3 pkts., 10c. Prepaid.

BALSAM

CAMELLA OR LADY SLIPPER—Not only one of the most beautiful flowers, but also one of the easiest to grow. The branches make perfect pyramids of bloom and under good conditions carry as many as 500 blooms to the plant. They are strained and are of the most gorgeous colors and a bed of these is truly a remarkable sight. Price: 5c; 3 pkts., 10c. Prepaid.

COSMOS

NEW DOUBLE FLOWERING—The best variety of the Cosmos and blooming early. The flowers are full, double and crested. Mixed colors. Pkt., 20c; 3 for 50c.

CHRYSANTHEMUMS

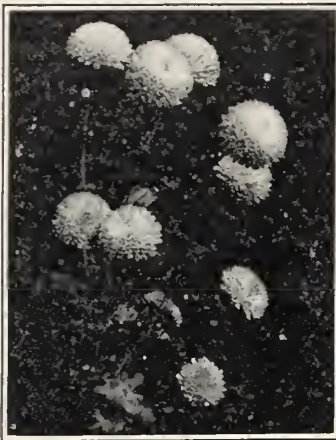

Of all the annuals these pretty flowers perhaps hold the leading position. They are beautiful in beds and borders and good for window boxes or cutting. They also make useful pot plants and when used for this purpose they should be sown under glass or indoors. They grow to a height of 1 to 1½ feet. Pkt., 5c; 3 pkts., 10c. Prepaid.

CANDYTUFT

WHITE ROCKET—One of the oldest annuals in existence and more popular than ever. It grows from 4 to 5 inches high, which makes it an exceptionally fine border plant. It is perfectly hardy, easily grown, extremely fragrant. Is splendid for cut flowers which the plants produce in wonderful profusion throughout the whole season. Pkt., 5c; 3 pkts., 10c. Prepaid.

COCKSCOMB

A very attractive annual. The crested heads of flowers resemble a cock's comb. The plumed heads are like great feathers. Sow the seed directly in the garden or start early and transplant. Price: Pkt., 10c; 3 pkts., 25c. Prepaid.

Chrysanthemums

Antirrhinum

Candytuft

Asters

QUEEN OF THE MARKET

These Asters are the first of all Asters to bloom and are excellent for cutting. Mixed colors. Pkt., 10c; 3 for 25c. Prepaid.

CALLIOPSIS OR COREOPSIS

(Large Flowered Mixed)—One of the easiest grown of the garden annuals. These new sorts form perfect little bushes about 10 inches high by 1 foot across and are a perfect mass of bloom from early summer until cut down by frost. Flowers range in color through yellow, golden and crimson colors. Price, Pkt., 5c; 3 pkts., for 10c. Prepaid.

Cosmos

FLOWER SEEDS—CONTINUED

LOVE-IN-A-MIST

NIGELLA—This beautiful annual is very pretty, interesting and easy to grow. The foliage is fine and feathery and the flowers are most in shades of blue. They are very good for cut flower purposes. Price: Packet, 5c; 3 pkts., 10c, prepaid.

KOCHIA

CYPRESS or MEXICAN FIRE BUSH—This splendid annual plant grows very quickly from seed sown in the open ground, as soon as weather permits in the spring.

These plants also make attractive globe-shaped bushes as large sometimes as 3 ft. high and 2 ft. across. Leaves are slender and are a light pea green color until September, when they become carmine or blood red in color. At the same time the ends of branches are thickly set with small bright scarlet flowers and produces a very striking effect. Price: Pkt., 5c; 3 pkt., 10c. Prepaid.

HOLLYHOCKS

DOUBLE FLOWERING—This is comparatively a new variety and flowers very quickly from seed. Plants from seed sown in May will bloom in July and will flower profusely until frost. They are very beautifully formed and there is a great variety of colors, including in a row, pink, rose, crimson, white and scarlet of dainty and exquisite blending. Pkt., 10c; 3 pkt., 25c. Prepaid.

Heliotrope

MOON FLOWER

MOON VINE—This is a splendid annual climber of most rapid growth. It has beautiful flowers of various colors. Often grows 30 feet in a year. It blooms on cloudy days and at evenings. Good for terraces, verandas and for covering unsightly objects. The seed should be soaked in water 34 hours and a notch cut in the end of the seed before planting. Price, 10c; 3 pkts., 25c. Prepaid.

HELIOTROPE

Both the flowers and foliage of this plant are deliciously fragrant. They are easily raised from seed and spring planting will give you fine summer blooming plants. Are very good for cut flowers. Price: Pkt., 10c; 3 pkts., 25c. Prepaid.

AFRICAN MARIGOLD

The old fashioned favorites are annuals of the easiest cultivation. This type is the enormous flowered one, blooming very large in showy orange or lemon shades. The flowers are as regular and perfect as the Dahlia. For a garden display during the summer and fall nothing can surpass it. Orange—Large, very double flowers. Lemon—Large, very double flowers. Price, Pkt., 10c; 2 for 15c. Prepaid.

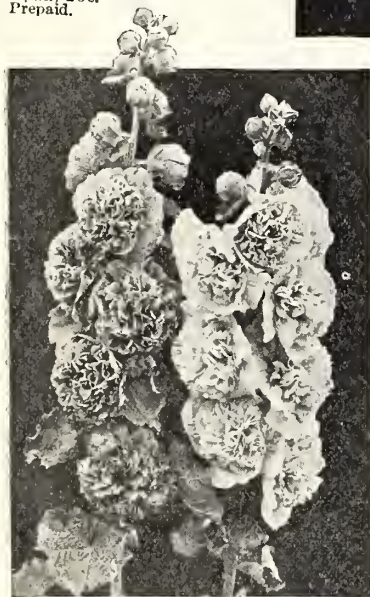

LARKSPUR

DWARF ROCKET—One of the easiest flowers to grow and certainly one of the prettiest. It is the Annual Delphinium, grows 1½ to 2 feet high. It is especially fine for cut flowers and produces blue, rose, white, pink, carmine and purple flowers. Do not miss the real pleasure to be derived from these beautiful plants. Price: Pkt., 5c; 3 pkts., 10c. Prepaid.

SCABIOSA OR MOURNING BRIDE

An old fashioned but most attractive flower. Its great abundance and long succession of richly colored, fragrant blossoms on long stems make it one of the most useful decorative plants of the garden. Desirable for cutting as well as for beds and borders. Flower heads about two inches across; flowers double, surrounding the thimble shaped cone, giving a fancied resemblance to a pin cushion.

DOUBLE MIXED—Colors include deep and light purple, scarlet, pure white and dark mulberry. Pkt., 10c; 3 for 25c. Prepaid.

Double Hollyhocks

African Marigold

Moon Flower

MORNING GLORY

JAP GIANT FLOWERING—The flowers of this variety are of enormous size with beautiful colorings and markings that are quite beyond description. They include every shade and color from snow white to deep purple. Price, pkt., 5c; 3 pkts., 10c. Prepaid.

Giant Flowering Morning Glory

Nasturtiums

NASTURTIUMS

GIANT FLOWERING TALL—This fine strain contains a wealth of color, from crimson and rose to yellow, orange, white, spotted, etc. Very fine for bedding. Pkt., 5c; oz., 15c; ¼ lb., 40c. Prepaid.

GIANT FLOWERING TOM THUMB—Very best dwarf nasturtium and are among the easiest plants to grow. They reach a height of 10 inches to 1 foot, are completely covered with mammoth flowers measuring from 2 to 3 inches across. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c. Prepaid.

Phlox Drummondii

PHLOX

PHLOX DRUMMONDII—An improved giant flowering mixture of Phlox Drummondii. Contains every shade of color and is without doubt the best mixture that can be bought. Be sure to include some of these old favorites in your order. Pkt., 5c; 3 pkts., 10c. Prepaid.

EVERLASTING FLOWERS

STRAW FLOWER—One of the best of the "everlastings." They succeed in any good garden soil. The large, double flowers of rich, glittering colors make a fine display in beds or borders, but are especially grown to dry for winter use in baskets, vases, etc. Large pkt., 10c; 3 pkts., 25c. Prepaid.

PORTULACA

MOSS ROSE—This charming little hardy annual is unrivaled for brilliancy. Nothing is prettier for beds, edgings and rockwork, and it is frequently used to sow broadcast over sunny banks, etc., as an undergrowth for taller plants is also valuable. The flowers are of the richest colors and will bloom from July until frost. Stands dry weather. Price: Packet, 5c; 3 pkts., 10c. Prepaid.

PANSY

GIANT BUTTERFLY—This is the largest flowering Pansy in the world and is a superb mixture of the best types in every known class. Will produce enormous blooms. These flowers thrive best in cool, moist soil, which should be enriched by well-decayed manure or ground bone meal. Where extra large blooms are desired, pinch off all but one or two to the plant. Pkt., 15c; 3 pkts., 35c. Prepaid.

Pansy

FLOWER SEEDS—CONTINUED

MIGNONETTE

Our Mammoth Flowering Mignonette is much superior to the common variety so often bought in the stores. Flowers are magnificent bright red, extremely showy, enormous size, foliage beautiful rich green. Splendid for cutting; will remain fresh and fragrant 10 to 12 days in the house. Price, pkt., 5c; 3 pkts., 10c. Prepaid.

MARVEL OF PERU

FOUR O'CLOCK—This old time free flowering garden favorite does well in any soil and under almost all conditions. Produces large flowers of many brilliant colors which are at their best during the afternoon when the flowers are fully expanded. Height 2 feet. Pkt., 5c; 3 pkts., 10c. Prepaid.

EVENING PRIMROSE

OENOTHERA—This delightful little plant is getting to be better known in the garden and few people who have grown it would make their garden without at least a small bed or short border of it. The place to grow it is in a sunny spot where it will bear its large saucer shaped white and yellow flowers the greater part of the summer. These open at dusk and are very fragrant. Pkt., 10c; 3 pkts., for 25c. Prepaid.

Bird of Paradise

PETUNIAS—MODEL MIXED

No other annual requires as little care as the Petunia, and yet rewards the gardener with such an enormous mass of gay blooms from June until November. Petunias are easily grown from seed sown early in the spring when the trees are starting out in leaf. For extra-early blooming the seed should be started indoors in boxes or pots early in March. Pkt., 10c; 3 for 25c. Prepaid.

RUFFLED—It is well known that seed saved from the most carefully hybridized flowers produces but a small percentage of double flowers, the balance being singles of unusually fine quality. The weaker seedlings should be carefully saved, as these invariably produce the finest double flowers. One of the finest strains in existence. The double flowers are very large, full and beautifully formed, with the edges of the petals elegantly fringed. Price, pkt., 10c; 3 pkts., 25c. Prepaid.

SWEET WILLIAM

DIANTHUS—Positively one of the loveliest of flowers and there is probably no better known flower than this one. They are unequalled for color and fragrance and produce an immense wealth of bloom. A bed of these beautiful flowers will attract the attention of all who use them; for cut flowers they cannot be surpassed. Price: Pkt., 5c; 3 pkts., 10c. Prepaid.

SALVIA

SCARLET SAGE—A bed or border of Scarlet Sage always attracts attention and this variety has long been a leading favorite. We know of nothing that can equal the effect of a bed of these scarlet flowers when in full bloom. We offer only the large flowered variety which produces flowers twice the size and as numerous as the old varieties. They grow to a height of about 2 feet with flowering stems from base to tip of plant. Pkt., 10c; 3 pkts., 25c. Prepaid.

VERBENA

This well known annual is very desirable for massing in beds and suitable also for borders and window boxes. Large clusters of showy flowers are borne in succession throughout a long season, until frost. Valuable for bouquets and table decorations. Wide range of colors: Red, White, Purple with White Eye, Pink, Blue Italian Striped, Mixed. All Mammoths are very beautiful.

MAMMOTH FLOWERING

GIANT SINGLE PETUNIAS

BIRD OF PARADISE

(Poinciani Gilliesi.) The color of the flower is a rich golden yellow, it measures 2 1/4 inches across, and is produced in very large trusses. The most beautiful part of the flower is the long incurved stamens and pistils which are spread out in fan-like form and are of bright crimson color. The foliage is also highly decorative. It should be grown as a house plant, except in the warmer parts of the South, where it is hardy. If the seeds are started early it will produce blooms in great profusion the first year. Pkt., 10c; 3 pkts. for 25c. Prepaid.

the warmer parts of the South, where it is hardy. If the seeds are started early it will produce blooms in great profusion the first year. Pkt., 10c; 3 pkts. for 25c. Prepaid.

PURPLE PRINCE —Mammoth deep purple.....	.15
CANARY BIRD —Yellow.....	.15

SPECIAL OFFER—1 EACH OF THE 6 VARIETIES FOR 75c. PREPAID.

SPENCER SWEET PEAS

The Spencer Type is without doubt the most wonderful class of Sweet Peas in existence. The flowers freely and continuously produced throughout the season are also correspondingly large, measuring 2 to 2½ inches across. The wings are large and gracefully posed, while the giant standards round and upright are frilled. The undulation diminishing fanlike into dainty waves at the margin. The effect of which is high lights and shadings, giving a harmony of varied color tones. Three and often four of these queenly blossoms are borne on a strong stem nearly a foot in length, rendering them unsurpassable when cut and vased. They are also ideal for bouquets. This is the grandest type of Sweet Peas grown and we are anxious to place them within the reach of all our customers. We have therefore decided to offer them in collection form at a special low price; usually they are sold at 10c to 15c per small packet; our price is 60c for a collection of 9 of the best known and most beautiful of the Spencer type. You can't beat this offer anywhere.

Price any of varieties below: 10c per pkt.; oz., 40c; ¼ lb., \$1.25. Prepaid.

BLANCHE FERRY—The best hi-color. The standard is a real rose-pink while the wings are white, occasionally flushed with delicate pink. A big waved type of the old popular Blanche Ferry.

CRIMSON KING—A true rich crimson. Flowers are large, beautifully waved and carried on long strong stems. One of the finest crimsons.

KING WHITE—A mammoth glistening white of perfect form. Not as free a bloomer as Constance Hinton, but a purer white and large flowered.

ROYAL PURPLE—Beautiful flowers of a rich warm purple. A free grower and profuse bloomer.

MRS. TOM JONES—A bright Delphinium-blue that is considered one of the best light blues. Large flowers on vigorous free-blooming vines.

MAJESTIC CREAM—A wonderful flower of rich cream color.

PRESIDENT HARDING—Flowers are a peach red color. Very distinctive.

THE SULTAN—A black velvety maroon color, very fine.

SENSATION—Rich orange scarlet, really a sensation.

SPECIAL OFFER—ONE EACH OF THE 9 ABOVE FOR 60c. PREPAID.

GRANDIFLORA SWEET PEAS

MIXED COLORS—For those who want some good mixed Sweet Peas, but do not wish to pay the necessarily high prices for the Extra Early and Spencer varieties we have an exceptionally fine mixture of the Grandiflora varieties. These are large, handsome flowers and are just as pretty colors as the higher priced sorts. Pkt., 5c; 3 pkts., 10c. Prepaid.

A GARDEN FULL OF FLOWERS ONLY 50c Prepaid

Our list of flower seeds will be found to contain all sorts of real merit. We want our seeds to give satisfaction and prefer not to have a very extended list, rather than to cause disappointment in any of the varieties procured.

LAWN GRASS Seed

EVERGREEN MIXTURE

FOR A GOOD, CLEAN QUICK LAWN

This mixture is composed of the choicest grasses for lawn purposes, and is especially made to produce a crop of grass very quickly. We have had, where conditions were extremely favorable, a good stand ready for the mower in 3 weeks. This mixture contains no trash and is adapted to either clay, sandy or loam soil, and should be applied at the rate of 1 pound to 300 square feet, or in the case of renovating old lawn 1 pound to 600 square feet, depending upon how thin the grass is. Price per pound, 75c. Prepaid. 4 pounds for \$2.75. Prepaid. 10 lbs. for \$6.50. Prepaid.

WHITE DUTCH CLOVER

This is very good seed to use in renovating old lawns, especially on sandy soil, as this plant roots deeper than any other variety of grass and is not affected so much by drought. Price per pound, 90c; 3 pounds, \$2.50. Prepaid.

KENTUCKY BLUE GRASS

One of the most fancy grasses that we have today. Is largely used in lawn making and starts growing early in the spring, continuing until the ground freezes late in the fall. Price per pound, 80c; 4 pounds, \$3.00. Prepaid.

FANCY RED TOP

Red Top is of a quicker growth than Kentucky Blue Grass and is very desirable for lawns. It can be used with other grasses in seeding a lawn or can be used separately. Per lb., 60c; 5 lbs., \$2.50. Prepaid.

CREEPING BENT

This seed is used on Putting Greens and on private grounds where a beautiful growth is desired. It takes a long time to get established but once established fully repays the cost of seeding. Lb., \$2.00; 2 lbs., \$3.80; 5 lbs., \$9.00. Prepaid.

GRASS SEED

SHADY NOOK MIXTURE

Have you a lawn that is shaded by trees. If so try a few pounds of our Shady Nook Grass Mixture which is just what you need in order to raise a patch of fine, compact, velvety grass under such conditions. Shaded ground often becomes sour and in this case it would be necessary to give it an application of Crushed Limestone before seeding, applied at the rate of 25 pounds for 500 square feet. Seed at the rate of 1 pound to about 250 square feet. Price per pound, 75c; 4 pounds for \$2.80. Prepaid.

GOOD VARIETIES OF CANNAS

The Cannas with their large, various-colored leaves, easily hold first place for producing a tropical effect on the lawn. Excellent effects may be secured by planting them singly or by planting in small clumps in the hardy shrubby border. Against a heavy background of green, the bright colored, variously-marked leaves show to their best and are very attractive and interesting.

LIST OF THE BEST VARIETIES

THE PRESIDENT—Height four feet. In color, a rich, glowing scarlet and the immense firm, rounded flowers, 7 inches across when open, are produced on strong, erect stalks well above the large, rich green foliage. The "President" is superior to any other red variety in the quantity and also the quality of bloom, and the firm flowers resist drought and heat to a remarkable degree. 25c each; 6 for \$1.20. Prepaid.

AUSTRIA—Pure yellow with crimson markings in throat. A beautiful shade; the color of light. Four and one-half feet. 10c each; 12 for \$1.00; 100 for \$7.50. Prepaid.

INDIANA—Glistening golden orange flowers, with silky texture. Very attractive. 10c each; 12 for \$1.00; 100 for \$7.50. Prepaid.

KING HUMBERT—In this grand Italian Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers which under ordinary cultivation will measure six inches in diameter, and which are produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet, with bright red markings, while the foliage is broad and massive and of a rich coppery bronze with brownish-green markings. Five feet, 15c each; 12 for \$1.40; 100 for \$12.00. Prepaid.

MRS. ALFRED CONARD—Grandest flesh-pink, most striking and beautiful; height four feet. 15c each; 12 for \$1.40; 100 for \$12.00. Prepaid.

RICHARD WALLACE—A light shade of canary-yellow, almost an ecru, with delicate flecks of red; a lovely Canna. Four feet. 15c each; 12 for \$1.40. 100 for \$12.00. Prepaid.

CITY OF PORTLAND—A very lovely shade of pink and largest flowers. 25c each; 12 for \$2.50. Prepaid.

Canna King Humbert

TUBEROSES

FRAGRANT DOUBLE—The flower spikes attain a height of about 2 feet, and are compactly filled for two-thirds of their length with very large, perfectly double flowers. 1½ to 2 inches across. The flowers have the waxlike substance of a Camellia, are glistening white and deliciously fragrant. Price, 10c each; 3 for 25c; 6 for 50c; 12 for 96c; 100 for \$7.75 (25 at 100 rate).

ELEPHANT'S EAR

MAMMOTH LEAVES (Caladium Esculentum)—Very effective. The growth is very rapid, and the ground must be made rich. Watering will help develop large leaves. Bulbs can be stored in dry sand in winter and kept from year to year. A very widely grown lawn plant. Price, large bulbs, 20c each; 3 for 50c. Mammoth bulbs, 30c each; 3 for 75c. Prepaid.

Tuberose

quisite blending of tints and colors forming a charming contrast with the rich, deep-green foliage. Highly recommended for general culture both for the open ground and for pots." Our prices on Regal Lily are unusually low, owing to the fact that we now have a large stock of plants for the first time since its introduction. Blooming size bulbs, 35c each; 3 for \$1.00; 12 for \$3.50. Prepaid.

Elephant's Ear

tribe and one of the easiest to grow. Trumpet-shaped blooms are pure white and borne in spikes on tall, rigid, leafy stems. Bulbs should be planted as early as possible in the autumn.

All Lilies, blooming size bulbs, 35c each; 3 for \$1.00. Prepaid.

REGAL LILY

The Sensation of the year. Charming and delicate. Regal Lily, being a native of northwestern China, is hardy. Bailey's Cyclopaedia of Horticulture says of it: "One of the most beautiful of all known lilies, the exquisite blending of tints and colors forming a charming contrast with the rich, deep-green foliage. Highly recommended for general culture both for the open ground and for pots." Our prices on Regal Lily are unusually low, owing to the fact that we now have a large stock of plants for the first time since its introduction. Blooming size bulbs, 35c each; 3 for \$1.00; 12 for \$3.50. Prepaid.

HARDY FERNS

The most beautiful and natural effects can be produced by planting hardy ferns. They should be planted to be protected from the prevailing winds. They are perfectly hardy and can stand planting either in shady or sunny positions.

The Hardy Ferns are most satisfactory for planting on shady banks and around porches where the sun does not reach. They are valuable in that they do well in any good well drained soil and require practically no care. No home should be without them. We can furnish either of the following varieties. Price: 30c each; 12 for \$3.00. Prepaid.

OSTRICH FERN—The large leaf, tall growing variety.

ROYAL FERN—One of the large growing varieties.

CINNAMON FERN—Medium grower in height.

SPECIAL OFFER

To get you acquainted with our fine hardy Ferns we will make you the following special offer: 1 each of the three varieties above, 75c; 2 each, \$1.25. Prepaid.

Madonna Lily

Hardy Ferns Around Foundation

SPRING HILL NURSERIES, TIPPECANOE CITY, OHIO.

FINE DAHLIAS

EXPERIENCE WITH GINSENG

By CLARENCE A. MAY

(Copied from Pennsylvania Farmer, Nov. 9, 1929.)

The experience of I. B. Bumgardner, Pocahontas County, W. Va., who has been successful in growing ginseng may be helpful to others interested in this plant. It is well known that ginseng is capable of producing large returns per acre, but not many people know how to manage it to get satisfactory results.

"Any good sandy loam soil that will grow garden vegetables will grow ginseng," states Mr. Bumgardner. "It can be grown under either natural or artificial shade, and from fifty to sixty per cent shade is needed. Ginseng should be planted in the spring or fall, planting until December first or even until the ground freezes for the winter; it should be planted in units, one-year-old plants preferred, and adding a unit each year for four years. At the end of four years unit number one is ready to dig and market. It takes four years to mature a crop. Unit number two will be ready to market the next year, so that the crop becomes perpetual after four years.

"In digging your units enough small plants will be left over to transplant the ground again in small roots. Small roots have little value on the market. After digging to unit number four, number one is again ready to dig, so the small roots from four can be used in number one. Seeds will grow on the plants after the second year.

"In preparing the ground for planting, make up beds similar to onion beds, about six feet wide by forty or fifty feet long, leaving about one and one-half feet for walkways. No fertilizer is needed. Place plants about six inches apart, and then cover the beds with two or three inches of rotten sawdust, and keep the weeds pulled out."

Mr. Bumgardner collects the berries from the mature plants and buries them in a pile of moist sifted sand. He places several thousand in the small container, then sifts the sand when he is ready to plant and has the berries, just before they sprout, in a mass so that he can place them in the section he desires to have them. If the seeds were not gathered in the fall or if they were planted in the ground, they are likely to be destroyed by mice and moles during the winter, commented Mr. Bumgardner. Each old plant will produce from 100 to 150 berries.

The Chinese and Koreans use a large portion of the ginseng produced in the world. China imports about two million dollars worth of ginseng yearly, the price paid growers ranging from \$10 to \$14 per pound. The wild ginseng demands the highest price, but the cultivated ginseng will not lose as much weight in drying.

The word "ginseng" is said to signify "man plant" in Chinese. The roots often resemble the form of a man so that the Chinese believe that they are a specific for the ills of man. It is used for medicine and particularly as a tonic. Choice roots have sold as high as \$200 per pound in China.

The ginseng plant grows about a foot in height, branching into two to five parts, each of which divides into five leaflets. The leaflets are frequently called leaves. The flowers are greenish-yellow and they are borne in a single cluster. They are later replaced by bright red berries. The valuable feature of the plant is the fleshy, wrinkled taproot, which possesses a sweet taste and aromatic odor.

Many children can grow ginseng in the farm woodlot or in small garden beds where little outlay of money is required. Excellent experience and handsome profits are possible without undue risks. One can start on a small scale and build up his patch from the profit secured from the small area.

Ginseng

MAKE MONEY GROWING GINSENG

Drugs have greatly increased in prices during the past few years, so now is the time to commence growing root crops for medical purposes. Ginseng is the biggest money maker. The roots sell at enormous prices, and there is no reason why the prices will not steadily increase year after year. These plants formerly grew wild in most of the Northern States, and in many parts of the South, and it was from these wild plants that the supply of roots was

formerly secured. The crop of wild roots is now nearly exhausted, and it has become necessary to cultivate these plants. The demand is increasing each year, and the supply decreasing, so you will be making no mistake in devoting a part of your time to the growing of this plant.

Ginseng is a money maker. Read the following news item, clipped from a Wisconsin daily paper:

"Wausau, Wis., May 21—(Special)—Perhaps by far the most valuable load of products of the soil that ever crossed the streets of Wausau, was seen a few days ago, drawn by one horse. The load consisted of eighteen inconspicuous barrels and no one would have surmised its value had it not been that J. H. Koehler was seen watching it with eagle eyes. Upon inquiry it was found that the barrels contained 1,343½ pounds of ginseng, which had been sold for \$8,061.00, and was now being started on its long journey to China. The crop was grown on one-half acre of ground near Wausau."

The average market price of dry Ginseng roots is generally about \$7.00 or \$8.00 per pound, but at the time of going to press with this catalog, buyers are paying \$12.00 per pound for roots of the best quality, and there seems little likelihood of any radical slump in price.

Ginseng should be planted in the fall, but to be certain of getting the seed, you should order same as soon as possible, for we will probably have our supply all sold long before planting time. The best way is to order your Ginseng seed at the same time you order your other seeds; then we can be sure to supply you. With each order for seed we will send complete cultural directions and names and addresses of buyers who will buy the roots from you. Pkt., 25c; 5 pkts., \$1.00; 12 pkts., \$2.00; 36 pkts., \$5.00; 80 pkts., \$10.00; 250 pkts., \$25.00, prepaid.

PRICE OF GINSENG PLANTS

We have but a limited number of the plants to offer. Place your order as early as possible, and plants will be sent at the right time for transplanting. Plants can be supplied either spring or fall; Ginseng plants, usually in the fall only, depending upon the season. Plan on setting about 800 plants to each square rod.

Prices of Ginseng Plants: One plant, 25c; 6 for 75c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.50; 100 for \$6.00; 250 for \$13.50; 500 for \$25.00; 1,000 for \$45.00; delivered to any part of the United States, prepaid.

RICHARED The DELICIOUS Supreme

In the Spring of 1910, Mr. G. T. Richardson planted near Monitor, Washington, an orchard consisting of 425 Delicious apple trees. When the orchard came into bearing Mr. Lewis Richardson, the present owner, noticed that the apples on one tree were much deeper red in color than any of those on the adjoining trees. He did not at once pay much attention to this seemingly freak tree but when the tree continued to bear these large, highly colored apples he was amazed and concluded that here was a definite variation from the other delicious and one that would prove valuable. Accordingly he showed the fruit to the management of the Columbia & Okanogan Nursery Company of Wenatchee, Washington. After an investigation which revealed that the apples from this tree were a true Delicious in every way except for the increased color. The Nursery Company saw that here was an apple that was worth millions of dollars to the fruit industry of the world providing the tree could be propagated and grown that would produce fruit identical with the parent tree. They accordingly entered into negotiations with Mr. Lewis Richardson, the son of the original owner, and who is now owner of the orchard, and secured the exclusive propagating rights from this tree. They then grafted several surrounding trees and budded a number of young nursery trees from the original tree, to see if this color would carry through to the next generation. The following year buds were taken from these grafts and again

the following year buds were taken from bud set the year before giving us three generations of trees.

In the fall 1925, the first grafts set bore fruit identical with the parent tree. **SOLID RED—NO STRIPE WHATEVER**, even in the shaded portions of the tree, getting this brilliant color about two to three weeks before the fruit on the old delicious trees near by began to color any noticeable amount. In 1926 and 1927, two other generations of this remarkable fruit bore and the fruit was identical with the parent tree. It was then released to the planters for orchard planting being called and trademarked "**RICHARED**" **DELICIOUS**.

The fruit of the Richared was exhibited at many fairs and Horticultural meetings in the East, some of the fruit being 2 years old, from storage, and we have given it every test possible in comparison with the old delicious and must say that it stands out as a definite and permanent improved delicious.

The extra cost of a tree will be more than realized in the increased price you get for the first bushel of apples picked from a **RICHARED Delicious** tree and then you are able to realize these increased profits throughout the entire life of the tree. So again we say to you if you wish the **DELICIOUS TYPE** of apple do not let the increased price on the **RICHARED DELICIOUS** stop you from ordering these trees. Sign the special order agreement when ordering **RICHARED**.

ANNOUNCING THE BLAXTAYMAN (Trademark)

An **ALL RED STAYMAN WINESAP** apple with every merit of this great favorite among apples.

An apple that is as large an improvement over the Stayman's Winesap as the **RICHARED** is over the Delicious.

This apple was found among a planting of 75 Stayman Winesap trees planted in 1906. From the start it has produced apples which were in sharp contrast with apples from the other Stayman's Winesap trees. The tree was a typical **STAYMAN'S WINESAP** tree in every way, having the same type of foliage and habits of growth but the fruit was a **SOLID BLOOD RED**, without a trace of stripe, over the entire tree. It was also noticed that it got this very attractive color at least ten days before the other Stayman Winesaps in the same orchard began to color any noticeable amount, even though the fruit came to maturity at apparently the same time. This enabled the grower to harvest these bright red apples before they

were too ripe and eliminate the usual loss from drop apples and to pack out at least 90 per cent high colored fruit grading Extra Fancy when the very best he could do from the other Stayman's there was about 50 per cent Extra Fancy apples.

It has everything to recommend it, a few of its advantages over the Staymans are: **Earlier Coloring * * ***
A Full Red Color * * * **More Extra Fancy Apples * * ***
Earlier Picking—No Windfalls * * * **Does Not Crack * * ***
No Scald in Storage * * * **Advantage of Earlier Marketing * * ***
Better Keeper for Late Market * * * **More Profits.**

These combined advantages over the regular Staymans lead us to say that the **BLAXTAYMAN** is doubtless the most important apple discovery since the Richared Delicious and we can recommend its planting wherever the Staymans Type of apple is desired. **Prices given below.**

PURCHASE AGREEMENT

If your order contains either **RICHARED** or **BLAXTAYMAN** apple trees, the agreement opposite must be signed.
